Notes

1. What is a percentile? A percentile is a measure used in statistics indicating the value below which a given percentage of observations in a group of observations falls. For instance, processing times as at the 75th percentile means that 75 per cent of applications finalised globally were finalised in the stated time or earlier.

2. Processing times for some visas are not available where the number of visa decisions is too few in a particular month to provide a reliable indicator of time. Where possible, the Department has started to apply a year to date (YTD) count of visa decisions, rather than monthly, in an attempt to provide an indicative view of the global processing time.

3. The Department has global workload management arrangements for the processing of partner visa applications, and caseloads may be transferred between offices for operational reasons.

4. As data is drawn from a dynamic system environment, the information is correct at the time of clearance and figures may differ slightly from previous or future reporting.

1.2 Applications on hand

Subclass 300, 309 and 820 visa applications on hand by citizenship – 30 June 2021

Notes:

1. Partner visa applications involve a two stage process, and the Partner (Provisional) (subclass 309) visa must be lodged with the Partner (Migrant) (subclass 100) visa. The Partner (Temporary) (subclass 820) visa must be lodged with the Partner (Permanent) (subclass 801) visa. The two applications are counted separately, and in the majority of cases decided at different times.

2. A Prospective Marriage (Subclass 300) visa holder is permitted to enter Australia with their spouse and apply for a Partner (Subclass 820/801) visa. The Prospective Marriage (Subclass 300) visa is counted separately from the Partner (Temporary) (subclass 820) visa and the Partner (Permanent) (subclass 801) visa.

3. Cases lodged and recorded in the system as on-hand at a specific processing location may be processed at any location under global caseload management. Where cases have been transferred between processing offices, there may be delays in the new processing location being reflected in Departmental reporting systems.

4. As data is drawn from a dynamic system environment, the information is correct at the time of clearance and figures may differ slightly from previous or future reporting.

Released by Department of Home Affairs under the *Freedom of Information Act 1982*
