Notes:

1. Partner visa applications involve a two stage process, and the Partner (Provisional) (subclass 309) visa must be lodged with the Partner (Migrant) (subclass 100) visa. The Partner (Temporary) (subclass 820) visa must be lodged with the Partner (Permanent) (subclass 801) visa. The two applications are counted separately, and in the majority of cases decided at different times.

2. A Prospective Marriage (Subclass 300) visa holder is permitted to enter Australia with their spouse and apply for a Partner (Subclass 820/801) visa. The Prospective Marriage (Subclass 300) visa is counted separately from the Partner (Temporary) (subclass 820) visa and the Partner (Permanent) (subclass 801) visa.

3. As data is drawn from a dynamic system environment, the information is correct at the time of clearance and figures may differ slightly from previous or future reporting.

4. Finalised includes all granted, refused and withdrawn applications for the period

Released by Department of Home Affairs under the *Freedom of Information Act 1982*

2. By processing office By month, (June, July, August 2021):

2.1 The 25th, 50th, 75th and 90th percentile of processing times in days (or decimal calendar months) of applications finalised

Notes

1. What is a percentile? A percentile is a measure used in statistics indicating the value below which a given percentage of observations in a group of observations falls. For instance, processing times as at the 75th percentile means that 75 per cent of applications finalised globally were finalised in the stated time or earlier.

2. Processing times for some visas are not available where the number of visa decisions is too few in a particular month to provide a reliable indicator of time. Where possible, the Department has started to apply a year to date (YTD) count of visa decisions, rather than monthly, in an attempt to provide an indicative view of the global processing time.

3. The Department has global workload management arrangements for the processing of partner visa applications, and caseloads may be transferred between offices for operational reasons.

4. As data is drawn from a dynamic system environment, the information is correct at the time of clearance and figures may differ slightly from previous or future reporting.

Notes

1. What is a percentile? A percentile is a measure used in statistics indicating the value below which a given percentage of observations in a group of observations falls. For instance, processing times as at the 75th percentile means that 75 per cent of applications finalised globally were finalised in the stated time or earlier.

2. Processing times for some visas are not available where the number of visa decisions is too few in a particular month to provide a reliable indicator of time. Where possible, the Department has started to apply a year to date (YTD) count of visa decisions, rather than monthly, in an attempt to provide an indicative view of the global processing time.

3. The Department has global workload management arrangements for the processing of partner visa applications, and caseloads may be transferred between offices for operational reasons.

4. As data is drawn from a dynamic system environment, the information is correct at the time of clearance and figures may differ slightly from previous or future reporting.

Notes:

1. Partner visa applications involve a two stage process, and the Partner (Provisional) (subclass 309) visa must be lodged with the Partner (Migrant) (subclass 100) visa. The Partner (Temporary) (subclass 820) visa must be lodged with the Partner (Permanent) (subclass 801) visa. The two applications are counted separately, and in the majority of cases decided at different times.

2. A Prospective Marriage (Subclass 300) visa holder is permitted to enter Australia with their spouse and apply for a Partner (Subclass 820/801) visa. The Prospective Marriage (Subclass 300) visa is counted separately from the Partner (Temporary) (subclass 820) visa and the Partner (Permanent) (subclass 801) visa.

3. Cases lodged and recorded in the system as on-hand at a specific processing location may be processed at any location under global caseload management. Where cases have been transferred between processing offices, there may be delays in the new processing location being reflected in Departmental reporting systems.

4. As data is drawn from a dynamic system environment, the information is correct at the time of clearance and figures may differ slightly from previous or future reporting.

Notes:

1. Partner visa applications involve a two stage process, and the Partner (Provisional) (subclass 309) visa must be lodged with the Partner (Migrant) (subclass 100) visa. The Partner (Temporary) (subclass 820) visa must be lodged with the Partner (Permanent) (subclass 801) visa. The two applications are counted separately, and in the majority of cases decided at different times.

2. A Prospective Marriage (Subclass 300) visa holder is permitted to enter Australia with their spouse and apply for a Partner (Subclass 820/801) visa. The Prospective Marriage (Subclass 300) visa is counted separately from the Partner (Temporary) (subclass 820) visa and the Partner (Permanent) (subclass 801) visa.

3. Cases lodged and recorded in the system as on-hand at a specific processing location may be processed at any location under global caseload management. Where cases have been transferred between processing offices, there may be delays in the new processing location being reflected in Departmental reporting systems.

4. As data is drawn from a dynamic system environment, the information is correct at the time of clearance and figures may differ slightly from previous or future reporting.

Released by Department of Home Affairs under the *Freedom of Information Act 1982*

Notes:

1. Partner visa applications involve a two stage process, and the Partner (Provisional) (subclass 309) visa must be lodged with the Partner (Migrant) (subclass 100) visa. The Partner (Temporary) (subclass 820) visa must be lodged with the Partner (Permanent) (subclass 801) visa. The two applications are counted separately, and in the majority of cases decided at different times.

2. A Prospective Marriage (Subclass 300) visa holder is permitted to enter Australia with their spouse and apply for a Partner (Subclass 820/801) visa. The Prospective Marriage (Subclass 300) visa is counted separately from the Partner (Temporary) (subclass 820) visa and the Partner (Permanent) (subclass 801) visa.

3. As data is drawn from a dynamic system environment, the information is correct at the time of clearance and figures may differ slightly from previous or future reporting.

4. Visa finalisations include visa grants and refusals, as well as visa applications withdrawn by the applicant.

5. Where no data is displayed, there were no finalisations recorded for that month

Caveat:

Regarding Immigration data, the Department's current policy is to mask numbers which are less than five as <5, noting we are reviewing the confidentiality method for the future
