Attorney-General's Department	\$1,000,000	Firearms Management System Scoping Study	This project developed a system to provide (i) the ability to detect movement of illegal firearms into Australia and between jurisdictions, (ii) early identification of trends in firearms supply and use, (iii) better coordination of law enforcement efforts, (iv) the ability to travel more easily between jurisdictions for people with a legitimate use of firearms, and (v) an improved ability for Australia to meet its international firearms commitments.
Attorney-General's Department	\$300,000	Implementing Border Controls on Tablet Presses Project	This project implemented new border controls on the importation of tablet presses. This will contribute to the reduction of illicit drugs manufactured within Australia by making it harder for organised criminals to access tablet presses.
Attorney-General's Department	\$310,000	South East Asian Collaborative Group on Precursors	This project created a forum to extend and coordinate the aims and objectives of the National Strategy to Prevent the Diversion of Precursor Chemicals into Illicit Drug Manufacture Beyond Australia. The funds were used to facilitate a meeting on these issues with governments of the Asia-Pacific region.
Attorney-General's Department	\$166,602.90	South East Asian Collaborative Group on Precursors	This project facilitated the Second South East Asian Collaborative Group on Precursors (AcoG) meeting in Tokyo, Japan in February 2007.
Attorney-General's Department	\$1,119,347	Review of the <i>Extradition Act 1988</i> , the <i>Mutual Assistance in Criminal Matters Act 1987</i> , and intensive bilateral treaty negotiations	This project was to significantly enhance Australia's capacity to cooperate with other countries to enforce the law where alleged offenders and evidence are located in a foreign jurisdiction. Extradition and mutual assistance in criminal matters are essential to effectively combat terrorism and transnational organised crime, including people smuggling, trafficking (in persons, firearms and illicit drugs), money laundering and corruption.

Recipient Organisation	Amount	Project	Project description
Attorney-General's Department	\$600,000	Shared Responsibility Agreements	This project contributed to Shared Responsibility Agreements (SRAs) between the Attorney-General's Department and Indigenous communities. SRAs are agreements between governments and Indigenous communities, and are developed where Indigenous people and communities decide they want to address specific priorities. SRAs combine better coordinated service delivery that reduces bureaucratic red tape for individuals and communities.
Attorney-General's Department	\$252,000	South East Asian Collaborative Group on Precursors	This project facilitated the third meeting of the South East Asian Collaborative Group on Precursors (AcoG) which was held in Hobart in September 2007.
Attorney-General's Department	\$500,000	National Firearms Management System (NFMS) Business Case	This project contributed to the development of the NFMS Business Case, which was led by Victoria Police. The establishment of a NFMS enabled state and territory firearms registries to communicate more effectively and reduce the risk of firearm diversion posed by the interstate movement of firearms.
Attorney-General's Department and the Australian Taxation Office	\$508,574	ATO Document Verification Study	This project undertook an empirical study of the Proof of Identity (POI) information provided by a sample of customers applying for tax file numbers with the ATO. The study has implications for wider whole-of-government identity security measures.
AUSTRAC	\$1,919,419	Reform of Measures to Combat Money Laundering and the Financing of Terrorism	This project engages in reform of measures to counter money laundering and the financing of terrorism.
AUSTRAC	\$3,185,854	The Financial Intelligence Data Management Project	The Financial Intelligence Data Management project will improve AUSTRAC's operational and analytical financial intelligence capabilities. Improved financial intelligence capabilities will enable AUSTRAC to greater assist partner agencies in the investigation and prosecution of criminal enterprises, and will strengthen its ability to identify and provide early-warning on emerging high risk threats to the Australian community.
Australian Crime Commission	\$2,000,000	ACID Database upgrade scoping study	This project funded a scoping study to determine options for the overhaul of the ACID (the national criminal intelligence database).

Recipient Organisation	Amount	Project	Project description
Australian Crime Commission	\$100,000	Governance and Administrative Audit of the Australian Crime Commission	This project reviewed the current capability and considered its long-term sustainability and future direction. The audit enabled the ACC to better support the Government's national security objectives, and support its partners in the fight against serious and organised crime.
Australian Crime Commission	\$33,950	Lost and Stolen Documents Register	This project conducted a feasibility study into the establishment of a lost and stolen document register for proof of identity documents, intended to assist victims of identity theft and mitigate the risk of further compromise of their identity for criminal purposes.
Australian Crime Commission	\$1,123,100	National Organised Crime Task Force (NOCTF)	This project funded the establishment of the National Organised Crime Task Force (NOCTF) within the ACC. The funding provided a valuable opportunity to maximise the combined resources and capabilities of ACC Board agencies and international law enforcement partners to research, test and develop a model to combat an extremely resilient criminal syndicate.
Australian Crime Commission	\$5,000,000	The Sentinel Strategy	This project helped to counter threats posed to the community by serious and organised crime. The Sentinel program is a key plank in the ACC's operating model and supported the Government's expanded national security objectives and the proposed Organised Crime Strategic Framework.
Australian Customs Service	\$890,000	CCTV Upgrade at Australian International Airports	This project upgraded the closed-circuit television (CCTV) capabilities at Adelaide, Darwin, Brisbane, Perth, Gold Coast and Cairns International Airports by providing wide-angle surveillance and digital video-recording capabilities.
Australian Customs Service	\$1,500,000	Electronic Signage at International Airports	This project increased electronic signage at international airports to warn travellers of particular offences.
Australian Federal Police	\$1,000,000	Enhanced IT Intelligence Functionality project	This project upgraded the AFP's high-tech computer systems to improve their ability to sift through large databases to extract intelligence, linkages and other information to enhance the prevention and investigation of criminal activity.
Australian Federal Police	\$394,000	In-Car Computing	This funding was used to accelerate in-car computing research and development from the concept to application stage.

Recipient Organisation	Amount	Project	Project description
Australian Federal Police	\$200,000	International Policing Towards 2020 Conference	This project funded travel expenses for 17 international delegates to attend the International Policing Towards 2020 conference in Canberra from 19 to 21 November 2007. The conference focused on emerging trends in crime, sociology, geopolitics and science and technology.
Australian Federal Police	\$200,000	Australian Federal Police Disaster Victim Identification (DVI) Database	This project supported the development of DVI capabilities within Australia and New Zealand. The project purchased, configured and implemented a database system for use by all jurisdictions in Australian mass-casualty incidents.
Australian Federal Police	\$105,350	Proceeds of Crime Conference	This project conducted a national conference of Commonwealth and state and territory agencies involved in recovering the proceeds of crime. The aim of the conference was to improve investigation and litigation practices, and to increase the effectiveness of proceeds of crime recovery.
Australian Federal Police	\$72,000	Asia Pacific Group Meeting	This project assisted in conducting the 2009 Asia Pacific Group Meeting. The meeting aimed to facilitate the adoption, implementation and enforcement of internationally accepted standards against money laundering and the financing of terrorism.
Australian Federal Police	\$200,000	Australian Federal Police Disaster Victim Identification (DVI) Commander Training Program	Managed by the Australian Federal Police to support the development of a DVI Commander Training Program for Australian and New Zealand police jurisdictions. The program sought to develop and deliver four instances of the Australasian DVI Commander Program and develop the emerging leaders in Australian and New Zealand DVI response.
Australian Federal Police	\$259,000	Virtual Global Taskforce Conference	This project met the administrative costs of the 4 th biennial conference addressing online child abuse.
Australian Federal Police	\$1,946,801	Criminal Assets Confiscation Taskforce	This funding allowed the AFP to meet the costs of establishing the permanent Taskforce in 2011/12.
Australian Institute of Criminology	\$360,000	Drug Use Monitoring in Australia	This project continued to extend data collection of drug use by police detainees to a new site in Darwin and another in Melbourne.

Recipient Organisation	Amount	Project	Project description
Australian Institute of Criminology	\$750,000	Cybercrime - Australian Computer Security Survey	This project undertook a national survey of the business sector of the extent and impact of attacks on the confidentiality, integrity, or availability of network data. The AIC contacted via telephone and mail a random sample of businesses across all business sectors in Australia.
Australian Institute of Criminology	\$400,000	Firearms Theft Monitoring Program	This project undertook a long-term Firearms Theft Monitoring Program to assist in identifying changes in the nature and extent of firearms theft, and provides valuable support for the future development of policy on firearms theft in Australia.
CrimTrac	\$713,333	The Australian National Child Offender Register (ANCOR)	This project developed a national consistent approach to child protection offender registration. Funding received under the POCA made up one-third of the total development funding for this project, with the remainder being provided by the states and territories.
CrimTrac	\$2,223,000	Automated Number Plate Recognition Scoping Study (ANPR)	This project funded a detailed scoping study which identified a strategic approach to integrate ANPR technology across Australia, identifying the necessary infrastructure and associated cost benefits analysis. Such a national approach provided a significant benefit to the Australian community. Police forces and other law enforcement agencies are now able to identify and track potential vehicles of interest within and across state and territory borders.
CrimTrac	\$1,900,000	Minimum Nationwide Person Profile (MNPP) project	This project assisted the Minimum Nationwide Person Profile project, providing the police throughout Australia with direct online access to assist them in determining whether a person is a threat to police safety, a threat to themselves or others, of interest to the police, or wanted by the police.
Department of Health and Ageing	\$105,000	Croc Festivals	Operated by Indigenous Festivals Australia, to support the 2005 festival program.

Recipient Organisation	Amount	Project	Project description
National Institute of Forensic Science	\$454,000	Forensics Standards Development	This project aimed to define appropriate forensic practices for all evidence types most commonly encountered by forensic practitioners. The proposed Standard Framework will provide defined practices to ensure individuals working with evidence will be able to follow standardised evidence recovery, storage and examination practices. In particular, the proposed standards would help provide reliable justice outcomes by ensuring that there are consistent and reliable practices in place across all jurisdictions.
National Institute of Forensic Sciences	\$60,000	18 th International Symposium on the Forensic Sciences	This project was to assist in the funding of the Symposium.
National Institute of Forensic Sciences (NIFS)	\$900,000	Improved Closed Set DNA profiling	This project funded research into the possible development of a fresh approach to DNA profiling in situations where there is a closed set of subjects (such as identification of victims of mass disaster). The near-perfect accuracy required for some circumstances, such as criminal prosecutions, is costly and time-consuming. NIFS, in partnership with Forensic Sciences South Australia and the Flinders University, sought to develop a process for closed set DNA profiling which, by having a lesser, more appropriate standard of accuracy, to be quicker and more cost-effective.
NSW Police	\$5,800,000	Operation POLARIS Taskforce	This project is part of a joint response to substantial organised crime on Australian waterfronts. This funding was made in two payments of \$2.9 million and these were advance payments on account of future asset seizures.

Equitable Sharing Program

The United Nations Convention Against Corruption obliges States to consider sharing profits of crime where assistance in the recovery of those profits contributes to legal enforcement cooperation.

The Australian Government has made the following equitable sharing payments under the *Proceeds of Crime Act 2002*:

Recipient Government	Amount	Purpose
Chinese Government	\$3,372,807.49	For money recovered in Australia by the Australian Federal Police, regarding a matter involving a Chinese national, who was wanted in China for embezzlement and fraud offences.
Indonesian Government	\$642,540.46	Following an investigation by a joint Australian-Indonesian task force.
Queensland Government	\$94,622.74	Recognition of the significant contribution by the Queensland police in assisting Australian Government authorities in a criminal investigation.
Singaporean Government	\$3,860,000	Recognition of its assistance in the investigation and prosecution of a Singapore national for fraud offences.
United Kingdom	\$280,446	Recognition of its assistance in the investigation into a series of thefts in the UK.
Victorian Government	\$199,478.42	Recognition for assistance in the investigation of the Tran matter.
