**Request Details**

FOI Request FA14/05/00635  
File Number ADF2014/16406

**Scope of request**

*“The Summaries of Incidents log from the Department’s Compliance, Case Management, Detention and Settlement Portal, with the data columns:*

- *incident number*
- *type*
- *level*
- *Occurred On (date and time)*
- *Summary*
- *Location Details*

*with the following date ranges: 2011-05-20 - 2011-07-5.”*

**Documents in scope**

1. Incident log report – 44 pg

**Authority to make decision**

I am an officer authorised under section 23 of the FOI Act to make decisions in respect of requests to access documents or to amend or annotate departmental records.

**Information considered**

In reaching my decision, I have considered the following:

- The *Freedom of Information Act 1982*;
- Departmental files and/or documents (identified above);
- The Australian Information Commissioner’s guidelines relating to access to documents held by government;
- The department’s FOI handbook

**Reasons for decision**

I have considered the files within the scope of your request and applied exemptions in part or in full to documents as detailed in the Schedule of Documents. You should read the schedule in conjunction with the exemptions below.

***Conditional exemption – personal information - s.47F(1)***

A document is 'conditionally exempt' under s.47F(1) of the Act if its release would 'involve the unreasonable disclosure of personal information about any person (including a deceased person)'. A conditionally exempt document **must** be released under the FOI Act unless the release would be 'contrary to the public interest'. The Act requires me to undertake a 2 step process in deciding if an exemption applies.

Would the disclosure be an ‘unreasonable’ disclosure of personal information?

**people** our business

The exemption in s.47F(1) of the Act will only apply if I am satisfied that the disclosure would involve 'unreasonable' disclosure of a third party's personal information. The Act states that, when deciding whether the disclosure of the personal information would be 'unreasonable', I 'must' have regard to the factors set out in s.47F(2) of the Act:

- (a) the extent to which the information is well known;
- (b) whether the person to whom the information relates is known to be (or to have been) associated with the matters dealt with in the document;
- (c) the availability of the information from publicly available resources;
- (d) any other matters that I consider relevant.

I have considered each of these elements separately below.

*(a) Extent to which the information is known*

*Information relating to all events which occur within immigration detention centres is not well known. The identity of the individuals within the detention centres in relation to events which many occur within the detention centres is not well known. On balance, I believe that the factor weighs in favour of the disclosure being unreasonable.*

*(b) Whether the person to whom the information relates is known to be associated with the matters in the document*

*The information relates to specific matters within the document. The identities of individuals associated with these matters is not well-known. On balance, I believe that the factor weighs in favour of the disclosure being unreasonable.*

*(c) The availability of the information from publicly available sources*

*The information relating to specific individuals is not available from publicly available sources. On balance I believe the factor weighs in favour of the disclosure being unreasonable.*

*(d) Any other matters that the agency considers relevant*

*Release of specific personal information of individuals within the detention centres would be contrary to the public interest and could reasonably be expected to prejudice the protection of an individual's right to privacy. On balance, I believe that the factor weighs in favour of the disclosure being unreasonable.*

After considering each element in s.47F(2), I am satisfied that disclosure of the personal information would be an 'unreasonable' disclosure of personal information.

Therefore, I am satisfied that the information I have identified in the relevant documents is 'conditionally exempt' under s.47F(1) of the Act.

Is the release contrary to the public interest?

As a result, I must now consider the factors set out in the public interest test in s.11B(3) of the Act.

**Factors favouring disclosure**

I have considered the factors set out in s.11B(3) of the Act which were discussed above.

While full release would promote the objects of the Act, I consider that partial release of the information would inform debate on a matter of public importance. In addition, the partial release of

the information is relevant to the effective oversight of public expenditure and would not facilitate you accessing your own personal information.

**Factors weighing against disclosure**

As discussed previously, the FOI Guidelines that contain a non-exhaustive list of factors weighing against disclosure, which must be considered under s.11B(5) of the Act.

I consider that these factors are relevant to the documents in question:

- *harm the interests of an individual or group of individuals*
- *prejudice the protection of an individual's right to privacy*

On balance, I am satisfied that the disclosure of the information I have identified as 'personal information' would amount to an 'unreasonable disclosure of personal information'. Further, I am satisfied that the release of the personal information in the documents would be 'contrary to the public interest'. Therefore, I am satisfied that the personal information in the documents is exempt from release under section 47F(1) of the Act.

The attached Schedule of Documents identifies documents where material has either been deleted as exempt information under the FOI Act or deleted as irrelevant to the scope of the request.
