## APPLICATION FOR TARIFF CONCESSION ORDER (TCO)

**IMPORTANT:** Please read the information below carefully before completing this form.

### Are you aware that substitutable goods are produced in Australia in the ordinary course of business?

- (a) If you are aware, based on information and your enquiries that substitutable goods are being produced in Australia in the ordinary course of business, then you should not lodge an application for a TCO.

### Do you need to apply for a new TCO?

- (b) Before lodging this application for a TCO, the applicant should determine whether a suitable TCO already exists. Information on existing TCOs is contained in the Schedule of Concessional Instruments (SCI), which is available on the Internet at [www.border.gov.au](http://www.border.gov.au).

### Have you verified that there are no substitutable goods produced in Australia (refer to questions 5, 6 and 7 of the form)?

- (c) Section 269FA of the *Customs Act 1901* states "It is the responsibility of an applicant for a TCO to establish, to the satisfaction of the Comptroller-General of Customs, that, on the basis of:
- (i) all information that the applicant has, or can reasonably be expected to have; and
  - (ii) all enquiries that the applicant has made, or can reasonably be expected to make; there are reasonable grounds for asserting that the application meets the core criteria".
- The application is taken to meet the core criteria if, on the day of lodgement of the application, **no substitutable goods** were produced in Australia in the ordinary course of business.

### Completing the application

- (d) Section 269F of the *Customs Act 1901* requires that a TCO application be in writing, be in an "approved form", contain such information as the form requires, and be signed in the manner indicated in the form.  
**This is the approved form for the purposes of that section.**
- (e) Section 269F(3) states that a TCO application must contain:
- (a) a full description of the goods to which the application relates; and
  - (b) a statement of the tariff classification that, in the opinion of the applicant, applies to the goods; and
  - (c) if the applicant is not proposing to make use of the TCO to import the goods to which the application relates into Australia on the applicant's own behalf – the identity of the importer for whom the applicant is acting; and
  - (d) particulars of all enquiries made by the applicant (including enquiries made of prescribed organisations) to assist in establishing that there were reasonable grounds for believing that on the day on which the application was lodged, there were no producers in Australia of substitutable goods.

### Questions 1 to 8 must be answered

- (f) Failure to supply the information required by this form will result in rejection of the application (and in the loss of operative date.)
- (g) The Department may require an applicant to substantiate, with documentary evidence, any information provided in the application form. The Department may also undertake its own enquiries as allowed under section 269M.
- (h) Receipt of your application will be acknowledged. Any resultant TCO will operate from the date of receipt.
- (i) Where an application is accepted as being a valid application, the identity of the applicant and of the importer for whom the applicant is acting will be published in the *Commonwealth of Australia Tariff Concessions Gazette* (the Gazette).
- (j) Further information on the Tariff Concession System is available in Part XVA of the *Customs Act 1901*, in relevant Australian Customs Notices, Practice Statements, on the internet at [www.border.gov.au](http://www.border.gov.au), by emailing [tarcon@border.gov.au](mailto:tarcon@border.gov.au) or telephoning (02) 6198 7289.
- (k) Attached to this form are extracts from relevant legislation. Also please refer to Australian Customs Notice 2010/03 containing advice as to what Customs considers to be 'reasonable enquiries', advice on conducting searches on national and international search engines and a suggested format letter that you might choose to use when contacting potential local manufacturers to determine if it produces substitutable goods.

**1. DESCRIPTION OF GOODS**

- (a) The description of the goods in the application may be used as the description of the goods in the TCO (if made).
- (b) The application must provide a full description of the goods, including the physical features of the various components of the goods. It must not describe the goods in terms of what they do.
- (c) In accordance with section 269SJ of the *Customs Act 1901*, the Comptroller-General must **not** make a TCO in respect of goods:
- (i) described in terms other than in generic terms; or
  - (ii) described in terms of their intended end use; or
  - (iii) declared by the regulations to be goods to which a TCO should not be extended.
- Goods will be taken to be described in terms other than in generic terms if, for example, their description, either directly or by implication, indicates that they are goods of a particular brand or model, or that a particular part number applies to the goods.
- (d) Guidance on the drafting of the description of goods is contained in relevant Practice Statements on the Internet at [www.border.gov.au](http://www.border.gov.au). Failure to comply with Departmental requirements may result in rejection of the application.

**Describe the goods as you would propose the wording to appear if the Tariff Concession Order is granted**

See Attachment: A

**2. ILLUSTRATIVE MATERIAL**

**Attach technical and illustrative descriptive material (IDM) as well as any extracts from the relevant industry standard (if referred to in the description of the goods) and/or a sample to enable full and accurate identification of the goods the subject of the application. This application will be rejected if insufficient or inadequate IDM is provided.**

*Please note that simply supplying a reference to a website is not acceptable.*

**3. TARIFF CLASSIFICATION**

(a) Identify the tariff classification (to 8 figure subheading level)

(b) Identify the General Duty rate \_\_\_\_\_<sup>5</sup> %

(c) If a Tariff Advice for the goods has been sought or obtained, please provide the TA No or attach a copy.

**4. USES OF THE IMPORTED GOODS**

**Describe ALL uses (including design uses) to which the goods can be put**

For the intermediate sterile (aseptic) storage of a mixture of fruit pieces and sugar syrup for later use in an aseptic filler

Released by Department of Home Affairs  
under the Freedom of Information Act 1982

## 5. INFORMATION THAT THE APPLICANT AND IMPORTER HAS REGARDING AUSTRALIAN MANUFACTURERS OF SUBSTITUTABLE GOODS OR POTENTIALLY SUBSTITUTABLE GOODS

The following questions require the applicant and the importer (if a different party to the applicant) to provide details of all information they have with regard to the presence of Australian manufacturers of substitutable goods or potentially substitutable goods.

### 5A. APPLICANT

**In considering the goods which are the subject of this TCO application, is the applicant aware of any Australian manufacturers or producers of substitutable goods, or of potentially substitutable goods?**

YES       NO      If YES, please provide the names of these Australian manufacturers or producers.

### 5B. IMPORTER

**In considering the goods which are the subject of this TCO application, is the importer (as listed on page 2) aware of any Australian manufacturers or producers of substitutable goods or potentially substitutable goods?**

YES       NO      If YES, please provide the names of these Australian manufacturers or producers.

## 5C. PLEASE PROVIDE DETAILS OF OTHER INFORMATION THAT THE APPLICANT AND/OR IMPORTER MAY HAVE TO ASSIST IN LOCATING ANY LOCAL MANUFACTURERS

**(i) Is the applicant and/or importer a member of a relevant industry association and, if so, what is the name of the association?**

YES       NO

If YES, what is the name of association/s: .....

**(ii) Has the applicant and/or importer attended, in the past year, any trade fairs or industry events where Australian manufacturers and producers of goods that may be substitutable have been exhibitors?**

YES       NO

If YES, what is/are the name/s of relevant Australian manufacturers of potentially substitutable goods that may have exhibited?

**(iii) In the past two years has the applicant and/or importer participated in government and/or trade procurement processes (for example, tenders for made-to-order capital equipment) which might indicate the existence of Australian manufacturers or producers of goods that are substitutable, or potentially substitutable, for the goods that are the subject of this TCO application?**

YES       NO

If YES, describe each procurement process, and type of goods, including made-to-order capital goods, that were the subject of each procurement process and any Australian manufacturers or producers known to have participated in each procurement process?

Released by Department of Home Affairs  
under the Freedom of Information Act 1982

## 6. ENQUIRIES THAT THE APPLICANT AND/OR IMPORTER HAS MADE REGARDING LOCAL MANUFACTURERS OF SUBSTITUTABLE GOODS, OR OF POTENTIALLY SUBSTITUTABLE GOODS

The following questions require you to provide details of all enquiries that the applicant and/or importer have made to assist the Comptroller-General in establishing that there are reasonable grounds for believing that, on the day on which the application was lodged, there were no producers or manufacturers in Australia of substitutable goods, or potentially substitutable goods.

### 6A. PRESCRIBED ORGANISATIONS - Prescribed organisations, such as the Industry Capability Network, are listed in Regulation 144 of *Customs Regulation 2015*

Have you asked a prescribed organisation to obtain advice about whether there are manufacturers or producers in Australia of substitutable goods, or of potentially substitutable goods?

- YES Please attach a copy of the terms of the request and all advice received. If you have obtained a report from a prescribed organisation, you are not required to answer 6B.
- NO If you have not obtained a report from a prescribed organisation you are required to answer 6B.

### 6B. SEARCHES OF THREE DIFFERENT DATABASES CONTAINED IN TRADE DIRECTORIES, PUBLIC SEARCH ENGINES OR WEBSITES LISTING AUSTRALIAN PRODUCTS

If you have not obtained a report from a prescribed organisation, you must make enquiries in at least three databases to locate the possible existence of Australian manufacturers or producers of goods that may be substitutable for the goods the subject of the TCO application. Examples of these databases may include trade directories such as **Australian B2B**, search engines such as **Google**, and websites listing Australian products such as **Australian Made**. Please refer to ACN 2010/03 for guidance as to what the Department considers to be a reasonable search.

**1 - Name of database:** Kompass (see Attachment: B(1))

Search terms used in database: Tanks, Vacuum, Food Industry

Please attach printouts of the search results. For search engines such as Google, please supply only the first three pages.

**2 - Name of database:** Alibaba (see Attachment: B(2))

Search terms used in database: Tanks, Vacuum, Food Industry

Please attach printouts of the search results. For search engines such as Google, please supply only the first three pages.

**3 - Name of database:** Australian Suppliers Directory (see Attachment: B(3))

Search terms used in database: Tanks, Vacuum, Food Industry

Please attach printouts of the search results. For search engines such as Google, please supply only the first three pages.

### 6C. INDUSTRY ASSOCIATIONS

Has the applicant and/or importer made enquiries of industry associations in Australia representing suppliers, manufacturers of the goods that may be substitutable to those the subject of the TCO?

- YES Please attach a copy of the terms of the request and any response received.
- NO Please explain why you have not made enquiries.  
Importer is not aware of any Australian manufacturers. Please refer to Attachments B(1), B(2) and B(3) for search results

Released by Department of Home Affairs  
under the Freedom of Information Act 1982

## 7. NOTIFICATION OF POTENTIAL AUSTRALIAN MANUFACTURERS

If any of the answers to questions 5 or 6 identified any potential local manufacturers of substitutable goods, please provide details of the enquiries that you undertook to notify those local manufacturers of your application and to seek advice whether they believe they manufacture any substitutable goods. Please refer to Australian Customs Notice 2010/03 for a suggested format of a letter to a potential local manufacturer of substitutable goods.

*Please provide a copy of your request to each business. Please provide the business names, details of the contact that you made and all responses received at the time of lodging this application.*

### 1 - Name and address of business:

Please provide a copy of your request to each business. Is the copy attached?  YES  NO

Please provide a copy of the response provided, if any. Is their response attached?  YES  NO

### 2 - Name and address of business:

**Information for applicants - some useful definitions from the Customs Act 1901****269B Interpretation**

**substitutable goods**, in respect of goods the subject of a TCO application or of a TCO, means goods produced in Australia that are put, or are capable of being put, to a use that corresponds with a use (including a design use) to which the goods the subject of the application or of the TCO can be put.

- (4) In determining whether goods produced in Australia are put, or are capable of being put, to a use corresponding to a use to which goods the subject of a TCO, or of an application for a TCO, can be put, it is irrelevant whether or not the first mentioned goods compete with the second mentioned goods in any market.

**269C Interpretation - core criteria**

For the purposes of this Part, a TCO application is taken to meet the core criteria if, on the day on which the application was lodged, no substitutable goods were produced in Australia in the ordinary course of business.

**269D Interpretation - goods produced in Australia**

- (1) For the purposes of this Part, goods, other than unmanufactured raw products, are taken to be produced in Australia if:
- the goods are wholly or partly manufactured in Australia; and
  - not less than  $\frac{1}{4}$  of the factory or works costs of the goods is represented by the sum of:
    - the value of Australian labour; and
    - the value of Australian materials; and
    - the factory overhead expenses incurred in Australia in respect of the goods.
- (2) For the purposes of this Part, goods are to be taken to have been partly manufactured in Australia if at least one substantial process in the manufacture of the goods was carried out in Australia.
- (3) Without limiting the meaning of the expression substantial process in the manufacture of the goods, any of the following operations or any combination of those operations does not constitute such a process:
- operations to preserve goods during transportation or storage;
  - operations to improve the packing or labelling or marketable quality of goods;
  - operations to prepare goods for shipment;
  - simple assembly operations;
  - operations to mix goods where the resulting product does not have different properties from those of the goods that have been mixed.
- (4) For the purposes of this section, the Comptroller-General may, by instrument in writing published in the *Gazette*:
- direct that the factory or works cost of goods is to be determined in a specified manner; and
  - direct that the value of Australian labour, the value of Australian materials or the factory overhead expenses incurred in Australia in respect of goods is to be determined in a specified manner; and those directions have effect accordingly
- (5) The provisions of sections 48 (other than paragraphs (1)(a) and (b) and subsection (2)), 48A, 48B, 49A and 50 of the *Acts Interpretation Act 1901* apply in relation to directions given under subsection (4) as if:
- references in those provisions to regulations were references to directions; and
  - references in those provisions to the repeal of a regulation were references to the revocation of a direction.

 Released by Department of Home Affairs  
 under the Freedom of Information Act 1992

**269E Interpretation - the ordinary course of business**

- (1) For the purposes of this Part, other than section 269Q, goods (other than made-to-order capital equipment) that are substitutable goods in relation to goods the subject of a TCO application are taken to be produced in Australia in the ordinary course of business if:
- (a) they have been produced in Australia in the 2 years before the application was lodged; or
  - (b) they have been produced, and are held in stock, in Australia; or
  - (c) they are produced in Australia on an intermittent basis and have been so produced in the 5 years before the application was lodged;
- and
- (d) a producer in Australia is prepared to accept an order to supply them.
- (2) For the purposes of this Part, goods that:
- (a) are substitutable goods in relation to goods the subject of a TCO application; and
  - (b) are made to order capital equipment;
- are taken to be produced in Australia in the ordinary course of business if:
- (c) a producer in Australia:
    - (i) has made goods requiring the same labour skills, technology and design expertise as the substitutable goods in the 2 years before the application was lodged; and
    - (ii) could produce the substitutable goods with existing facilities; and
  - (d) the producer is prepared to accept an order to supply the substitutable goods.
- (3) In this section:

**made-to-order capital equipment means a particular item of capital equipment:**

- (a) that is made in Australia on a one-off basis to meet a specific order rather than being the subject of regular or intermittent production; and
- (b) that is not produced in quantities indicative of a production run.

**and**

**capital equipment** means goods, which if imported into Australia, would be goods to which Chapters 84, 85, 86, 87, 89 or 90 of schedule 3 to the *Customs Tariff Act 1995* would apply.

## TCO Wording

**TANKS, ASEPTIC, VACUUM, DICED FRUIT**, able to store product at an internal pressure of 5 bars and including ALL of the following:

- (a) Maintain sterility of product >8 days;
- (b) Capacity  $\geq 2,000$  litres excluding space for nitrogen;
- (c) Operating nitrogen pressure for sterility of 0.2 to 0.4 bars;
- (d) Elliptically shaped upper head and a conically shaped lower bottom for pressure containment;
- (e) Air and nitrogen connection ports;
- (f) Aseptic pneumatic valves to control water, steam, air and nitrogen;
- (g) Double sanitary sight glass on the filler feeder pipe;
- (h) Manhole for inspection and spray balls; and
- (i) CIP system.

## Identification and Classification

Tariff Item: **7309.00.00**

Reason: The subject goods are described under the above suggested TCO wording. <sup>s47G</sup>

<sup>s47G</sup> . As can be seen on the following pages extracted from the purchase contract, the Goods have been identified as an aseptic tank (the Goods) for the intermediate sterile (aseptic) storage of a mixture of fruit pieces and sugar syrup for later use in an aseptic filler.

<sup>s47G</sup>

Accordingly, the Goods and have been classified as follows.

Interpretation Rule 1 states that:

<sup>1</sup> Aseptic processing is the process by which a sterile (aseptic) product (typically food or pharmaceutical) is packaged in a sterile container in a way that maintains sterility. [Wikipedia]

*“The titles of Sections, Chapters and sub-Chapters are provided for ease of reference only; **for legal purposes, classification shall be determined according to the terms of the headings and any relative Section or Chapter Notes.**”*

**[emphasis added]**

It is submitted that the Goods will be classified within Chapter 73 under Section 15 of the *Customs Tariff Act 1991* (“the Tariff”).

s47G

As far as is relevant here, Tariff heading 7309.00.00 applies *inter alia* to:

*“Reservoirs, **Tanks**, Vats And Similar Containers For Any Material (Other Than Compressed Or Liquefied Gas), **Of Iron Or Steel, Of A Capacity Exceeding 300 L**, Whether Or Not Lined Or Heat-Insulated, But Not Fitted With Mechanical Or Thermal Equipment;”*

**[emphasis added]**

s47G

a. The Goods are neither containers for compressed or liquefied gas, nor fitted with any mechanical or thermal equipment such as agitators, heating or cooling coils or electrical elements. Consequently, the Goods are not excluded from Tariff heading 7309.00.00.

Accordingly, as the Goods are not excluded from Tariff heading 7309.00.00, it is submitted that the correct Tariff classification is to Tariff heading 7309.00.00.

Dear Sir/Madam,

**TARIFF CONCESSION SYSTEM**

**NOTIFICATION OF APPLICATION**

An application has been made for a Tariff Concession Order (TCO) as described in the attachment.

The Tariff Concession System allows for a concessional rate of Customs duty where it can be established that on the day on which the application was lodged, no substitutable goods were produced in Australia in the ordinary course of business.

To allow for comments by local manufacturers, all applications for Tariff Concession Orders are published in the Commonwealth Gazette. In this instance, the Department of Immigration and Border Protection (DIBP) is bringing to your attention Gazette No. TC 17/34 on 9 August 2017, in which a description of the goods in the attachment will be published.

In accordance with section 269M of the *Customs Act 1901* you are invited to lodge a submission objecting to the making of this TCO if you consider that you have any reasons to oppose the making of the TCO.

Objections to Tariff Concession Orders by local manufacturers must be submitted on an approved form. As required by legislation, your submission must be lodged with DIBP in accordance with the methods of lodgement specified on the approved form no later than 26 September 2017.

If you have any enquiries please contact me on telephone number 02 §22(1)(a)(ii).

Yours sincerely

Dear s22(1)(a)(ii)

Our company INOX, would object to the item 7309:00:00 Aseptic tanks.

INOX are a designer and manufacturer of this equipment – see attached brochure.

[http://www.inox.com.au/pdf/010.2\\_Inox\\_Aseptic.pdf](http://www.inox.com.au/pdf/010.2_Inox_Aseptic.pdf)

SPC are also aware that INOX manufactures this equipment. In fact, I personally have been in contact and onsite discussing this type of equipment with SPC recently.

We have supplied many of this type of equipment to Australia and also to Asia.

kind regards,

**INTENTION TO REVOKE TARIFF CONCESSION ORDER**

It is intended to revoke the Tariff Concession Order for the goods described in the following TABLE.

The Comptroller-General of Customs' delegate has declared the intention, subject to s.269SD(1AB), to make an order revoking the TCO in the table below with effect from 3 August 2017.

On 3 August 2017, the Comptroller-General of Customs' delegate formed the belief in respect of the TCO, that if the TCO was not in force on that day, and an application for the TCO was made on that day, the Comptroller-General of Customs would not have made the TCO.

The Comptroller-General of Customs would not have made this TCO because he believes that the wording does not give a full description of the goods the subject of the TCO.

Interested parties are invited to provide, by close of business 6 September 2017, written reasons why the TCO should not be revoked.

Description of Goods including the  
Customs Tariff ClassificationSchedule 4 Item Number  
Last Date of Effect**TARIFF CONCESSION ORDERS (TCOs) NOT USED IN THE PREVIOUS 2 YEARS**

The Comptroller-General of Customs is satisfied that the TCOs listed in the table below are no longer required because, in the 2 years preceding the day of this notice, they have not been quoted in an import declaration to secure a concessional rate of duty.

From Thursday, 7 September 2017, it is intended to take action to revoke these Orders under subsection 269SD (1A) of the Customs Act 1901. In accordance with subsection 269SG (2) of the Customs Act 1901, in transit provisions shall apply. If revoked, the expected date of effect will be 6 September 2017.

Interested parties are invited to provide, by close of business, Wednesday 6 September 2017, written reasons why an Order should NOT be revoked.

Please advise if any of the Orders listed below have been quoted on an import declaration.

If a request is made to retain an Order used for the granting of a Determination, please specify the Determination and the linked Item number to enable mapping to the Order and its scope.

## Report revenue evasion – Tariff Concession Orders

If you have information about duty evasion related to Tariff Concession Orders (TCO), you can report your concerns to Border Watch at <https://www.border.gov.au/borderwatch>

Try to provide as much detail as you can so we are able to fully assess the information provided. Examples of concern might include:

- Goods that claim a TCO but do not match the TCO description;
- Goods that claim a TCO but do not match the TCO classification;
- Incorrect information provided to the Comptroller-General on an application related to a Tariff Concession Order;
- Undervaluation of goods claiming a TCO;
- Incorrect volumes of goods claiming a TCO.

If you are aware of duty evasion in other programmes administered by the Australian Border Force, you can also report your concerns.

### You know your environment. If it doesn't seem right, report it.

Call Border Watch at freecall **1800 06 1800** or report online at <http://www.border.gov.au/about/contact/report-suspicious-activities-behaviour/protection-customs-fraud-offences/border-watch-report-now>

If you're outside Australia or using a satellite phone call +61 2 6245 1325.

You can choose to remain anonymous and all information is treated confidentially.

I refer to our telephone conversation today regarding an application that has been made for a Tariff Concession Order (TCO) as described as follows:

TANKS, ASEPTIC, VACUUM, including ALL of the following:

- (a) maximum internal pressure NOT less than 5 bars;
- (b) volume capacity NOT less than 2 000 L;
- (c) operating nitrogen pressure NOT less than 0.2 bars and NOT greater than 0.4 bars;
- (d) elliptically shaped upper tank head AND conically shaped lower tank bottom;
- (e) air AND nitrogen connection ports;
- (f) aseptic pneumatic valves;
- (g) feeder pipe sight glass;
- (h) inspection manhole

Op. 07.07.17 - TC 1773340

Stated Use:

For the aseptic storage of materials such as fruit pieces and sugar syrup

Applicant:

SPC ARDMONA OPERATIONS LIMITED

The application was published in the Tariff Concessions Gazette No. TC 17/34 on 9 August 2017, with the description of the goods as shown above.

In accordance with section 269M of the *Customs Act 1901* you are invited to lodge a submission objecting to the making of this TCO if you consider that you have any reasons to oppose the making of the TCO. If this TCO is made, this would mean a reduction in the Customs Duty to zero and will make locally manufactured substitutable goods less price competitive.

Objections to Tariff Concession Orders by local manufacturers must be submitted on an approved form found at the following hyperlink <http://www.border.gov.au/Forms/Documents/b444.pdf> Please note that due to legislative changes you do not need to complete Question 6B on the Submission Objecting to the Making of a Tariff Concession Order (TCO) form. As required by legislation, your submission must be lodged with the Department of Immigration and Border Protection in accordance with the methods of lodgement specified on the approved form no later than 26 September 2017.

If have any enquiries please do not hesitate in contacting me on telephone (02) s22(1)(a)(ii) .

## Submission Objecting to the Making of a Tariff Concession Order (TCO)

This form must be completed by a local manufacturer who wishes to object to the granting of a TCO. The information provided on the first two pages only will be forwarded as advice to the applicant for the TCO. All other material is regarded as "commercial-in-confidence" and treated accordingly. The form should be read carefully before being completed.

## DETAILS OF THE SUBSTITUTABLE GOODS PRODUCED IN AUSTRALIA

### 1. Describe your locally produced substitutable goods

*"Substitutable goods" are defined in the Customs Act 1901 as "goods produced in Australia that are put, or are capable of being put, to a use that corresponds with a use (including a design use) to which the goods the subject of the application or of the TCO can be put". NOTE: substitutable goods do not have to be identical to the goods the subject of the TCO application or meet the terms of the wording of the TCO application.*

INOX design and manufacture a variety of aseptic pressure vessels to suit any customer requirements.

All components are design by INOX and manufactured locally to comply with Australian pressure vessel code AS1210

### 2. State the use(s) to which the substitutable goods are put or are capable of being put

FOOD PROCESSING PLANTS

DAIRY and BEVERAGE manufacturers

Released by Department of Home Affairs  
under the Freedom of Information Act 1982

### 3. Attachments

Attach technical, illustrative descriptive material and/or a sample and/or photographs to enable a full and accurate identification and understanding of the substitutable goods. NOTE: A reference to a website only is not sufficient and may result in your objection being rejected without further consideration.

### 4. Local Manufacturers

Are you aware of any other local manufacturers producing substitutable goods?

YES

NO

### 5. If YES to question 4

If yes to question 4, please provide details of any goods produced in Australia which are substitutable for the goods covered/described by the TCO, and the names and addresses of the manufacturers of those goods.

Released by Department of Home Affairs  
under the Freedom of Information Act 1982

### 6. Production of goods in Australia

Goods other than unmanufactured raw products will be taken to have been produced in Australia if

- (a) the goods are wholly or partially manufactured in Australia; and
- (b) not less than 1/4 of the factory or works costs of the goods is represented by the sum of:
  - (i) the value of Australian labour; and
  - (ii) the value of Australian materials; and
  - (iii) the factory overhead expenses incurred in Australia in respect of the goods.

Goods are to be taken to have been partially manufactured in Australia if at least one substantial process in the manufacture of the goods was carried out in Australia.

Without limiting the meaning of the expression "substantial process in the manufacture of the goods", any of the following operations or any combination of those operations DOES NOT constitute such a process:

- (a) operations to preserve goods during transportation or storage;
- (b) operations to improve the packing or labelling or marketable quality of goods;
- (c) operations to prepare goods for shipment;
- (d) simple assembly operations;
- (e) operations to mix goods where the resulting product does not have different properties from those of the goods that have been mixed.

A Are the goods wholly or partially manufactured in Australia?  YES  NO

B Does the total value of Australian Labour, Australian Materials and factory overhead expenses incurred in Australia represent at least 25% of the factory or works costs?  YES  NO

Specify each of the following costs per unit for the substitutable goods:

• Australian labour	\$		%
• Australian materials	\$		%
• Australian factory overhead expenses	\$		%
• Imported content	\$		%
<b>TOTAL</b>	\$		100%

Specify the date or period to which the costs relate.

Specify the unit to which the above costs relate (e.g. m<sup>2</sup>, litre, kg, tonne, each etc)

Attach a copy of the working papers that were used to prepare the above costing information. Those working papers should be supported by (at least two) extracts from the accounting/costing records of the business, such as Bills of Materials or invoices for local and imported materials.

C Is at least one substantial process in the manufacture of the goods carried out in Australia?  YES  NO  
 If yes, please specify the major processes involved:

Released by Department of Home Affairs under the Freedom of Information Act 1982

## 7. Production of goods in the ordinary course of business

Answer 7.1 or 7.2 if you consider your substitutable goods are made to order capital equipment (see below).

### 7.1 SUBSTITUTABLE GOODS OTHER THAN MADE-TO-ORDER CAPITAL EQUIPMENT

Substitutable goods (other than made-to-order capital equipment – see below) are taken to be produced in Australia in the ordinary course of business if

- (a) they have been produced in Australia in the 2 years before the application was lodged; or
- (b) they have been produced, and are held in stock, in Australia; or
- (c) they are produced in Australia on an intermittent basis and have been so produced in the 5 years before the application was lodged, and a producer in Australia is prepared to accept an order to supply such goods.

- A Have the goods been produced in Australia in the last 2 years?**  YES  NO
- B Have the goods been produced and are they held in stock in Australia?**  YES  NO
- C If the goods are intermittently produced in Australia, have they been so produced in the last 5 years?**  YES  NO
- D Are you prepared to accept an order for the goods?**  YES  NO

Attach a copy of 2 invoices showing the sale of substitutable goods to customers in the 2 years prior to the date of the TCO application. Alternatively, if the goods are produced on an intermittent basis, then the copies may be from 5 years prior to that date. If production has ceased, but stock is still on hand in Australia, attach a copy of stock records to that effect.

### 7.2 SUBSTITUTABLE GOODS BEING MADE-TO-ORDER CAPITAL EQUIPMENT

"Made-to-order capital equipment" means a particular item of capital equipment that is made in Australia on a one-off basis to meet a specific order rather than being the subject of regular or intermittent production and that is not produced in quantities indicative of a production run. **Capital equipment means goods which, if imported, would be goods to which Chapters 84, 85, 86, 87, 89 or 90 only of Schedule 3 to the Customs Tariff Act 1995 would apply.**

Goods that are made-to-order capital equipment are taken to be produced in Australia in the ordinary course of business if:

- (a) a producer in Australia:
  - (i) has made goods requiring the same labour skills, technology and design expertise as the substitutable goods in the 2 years before the application; and
  - (ii) could produce the goods with existing facilities; and
- (b) the producer in Australia is prepared to accept an order to supply the substitutable goods.

- A Have goods requiring the same labour skills, technology and design expertise as the goods the subject of the application been made in Australia in the last 2 years?**  YES  NO

*If yes, describe the goods made during this period:*

aseptic pressure vessel for dfood manufacturers

- B Can the goods be produced with existing facilities?**  YES  NO
- C Are you prepared to accept an order for the goods?**  YES  NO

For substitutable goods that are made-to-order capital equipment, please provide an invoice, order or tender documents for goods requiring the same labour skills, technology and design expertise as the substitutable goods in the 2 years before the application was lodged and that you could produce with existing facilities.

Released by Department of Home Affairs  
under the Freedom of Information Act 1982

**8. Commencement of Production of Substitutable Goods**

What was the first date on which you were prepared to accept an order?

10/8/17

Are the goods still in production?

YES

NO

If the answer is no, when did production cease?

If production has ceased and goods are held in stock, please estimate the date by which the stock is expected to be sold, based on past sales information and attrition rate of the local goods.

**9. Provide any additional information in support of your objection**

pressure vessels in australia must be design registered by WORKSAFE authority and comply to australian standards AS1210

Released by Department of Home Affairs  
under the Freedom of Information Act 1982

**Notes**

- (a) Section 269K and 269M of the *Customs Act 1901* require that a submission opposing the making of a TCO be in writing, be in an "approved form", contain such information as the form requires, and be signed in the manner indicated in the form. **This is the approved form for the purpose of those sections.**
- (b) A submission will be date stamped on the day it is first received in Canberra by staff of the Department of Immigration and Border Protection. The submission is taken to have been lodged on that day.
- (c) For the submission to be taken into account, it must be lodged with the Department:
  - no later than 50 days after the gazettal day for an application for a TCO;
  - no later than 14 days after the gazettal day for an amended application for a TCO; or,
  - where the Comptroller-General of Customs has invited a submission, within the period specified in the invitation.
- (d) **All questions relevant to your submission must be answered.**
- (e) Where the form provides insufficient space to answer a question, an answer may be provided in an attachment. The attachment should clearly identify the question to which it relates.
- (f) If you wish to provide any additional information in support of your request, that information may be provided in an attachment.
- (g) The Department may require a local manufacturer to substantiate, with documentary evidence and/or a site visit to your premises, information provided in relation to the objection.
- (i) Further information on the Tariff Concession System is available in Part XVA of the *Customs Act 1901*, in relevant Australian Customs Notices, Practice Statements on the internet at [www.border.gov.au](http://www.border.gov.au), by e-mailing [tarcon@border.gov.au](mailto:tarcon@border.gov.au) or telephoning (02) 6198 7289.

**UNCLASSIFIED**

s47F

I refer to our telephone conversation today regarding an application that has been made for a Tariff Concession Order (TCO) as described as follows:

TANKS, ASEPTIC, VACUUM, including ALL of the following:

- (a) maximum internal pressure NOT less than 5 bars;
- (b) volume capacity NOT less than 2 000 L;
- (c) operating nitrogen pressure NOT less than 0.2 bars and NOT greater than 0.4 bars;
- (d) elliptically shaped upper tank head AND conically shaped lower tank bottom;
- (e) air AND nitrogen connection ports;
- (f) aseptic pneumatic valves;
- (g) feeder pipe sight glass;
- (h) inspection manhole

Op. 07.07.17 - TC 1773340

Stated Use:

For the aseptic storage of materials such as fruit pieces and sugar syrup

Applicant:

SPC ARDMONA OPERATIONS LIMITED

Released by Department of Home Affairs  
under the Freedom of Information Act 1982

The application was published in the Tariff Concessions Gazette No. TC 17/34 on 9 August 2017, with the description of the goods as shown above.

In accordance with section 269M of the *Customs Act 1901* you are invited to lodge a submission objecting to the making of this TCO if you consider that you have any reasons to oppose the making of the TCO. If this TCO is made, this would mean a reduction in the Customs Duty to zero and will make locally manufactured substitutable goods less price competitive.

Objections to Tariff Concession Orders by local manufacturers must be submitted on an approved form found at the following hyperlink <http://www.border.gov.au/Forms/Documents/b444.pdf> Please note that due to legislative changes you do not need to complete Question 6B on the Submission Objecting to the Making of a Tariff Concession Order (TCO) form. As required by legislation, your submission must be lodged with the Department of Immigration and Border Protection in accordance with the methods of lodgement specified on the approved form no later than 26 September 2017.

If have any enquiries please do not hesitate in contacting me on telephone (02) 6275 6061.

Kind regards,

Dear s47F

**TARIFF CONCESSIONS SYSTEM**  
**NOTIFICATION OF OBJECTIONS**

I refer to your Tariff Concession Order (TCO) application (TC 1773340) which was published in Gazette Number TC17/34 dated 9 August 2017 and advise that one Objection has been received in response to the gazettal. Attached are details of the Objection. Any further details should be obtained from the Objector.

In accordance with subsection 269L(2) of the *Customs Act 1901*, you may WITHIN 28 DAYS OF THE RECEIPT OF THIS NOTICE notify the Department of Immigration and Border Protection in writing that you propose to amend your application by altering the description of goods, and set out the proposed amendment. However, the amendment must not:

- a) cause the goods concerned to be covered by a different tariff classification to that notified in the above Gazette; or
- b) do otherwise than narrow the description of the goods.

If you propose an amendment to your application within the above terms, the Department of Immigration and Border Protection will publish a notice in the gazette setting out the amended description and inviting persons who consider that there are reasons why the TCO as proposed to be amended should not be made, to lodge a submission with the Comptroller-General of Customs no later than 14 days after the publication of that notice.

All objectors will be notified of any amendment within 14 days of receipt of the amendment. You may wish to discuss any proposed amendment with the Objector before submitting the amendment to the Department of Immigration and Border Protection.

Yours sincerely,

s22(1)(a)(ii)

## DETAILS OF THE SUBSTITUTABLE GOODS PRODUCED IN AUSTRALIA

### 1. Describe your locally produced substitutable goods

"Substitutable goods" are defined in the Customs Act 1901 as "goods produced in Australia that are put, or are capable of being put, to a use that corresponds with a use (including a design use) to which the goods the subject of the application or of the TCO can be put". NOTE: substitutable goods do not have to be identical to the goods the subject of the TCO application or meet the terms of the wording of the TCO application.

INOX design and manufacture a variety of aseptic pressure vessels to suit any customer requirements.

All components are design by INOX and manufactured locally to comply with australian pressure vessel code As1210.

### 2. State the use(s) to which the substitutable goods are put or are capable of being put

## **Consideration of an application for a Tariff Concession Order lodged under subsection 269F of the *Customs Act 1901***

### **Making of a Tariff Concession Order**

#### **Statement of reasons**

**TC 1773340**

I, <sup>s22(1)(a)(ii)</sup> [REDACTED], delegate of the Comptroller General of Customs, have considered, in terms of subsection 269P of the *Customs Act 1901* (the Act), an application for a tariff concession order (TCO) lodged under subsection 269F of the Act.

Having regard to:

- the TCO application;
- all submissions lodged with the Comptroller General before the last day for submissions;
- any information that may have been supplied or produced to the Comptroller General, including in accordance with a notice under subsection 269M(4); and
- any inquiries made by the Comptroller General;

I am satisfied that the application meets the core criteria as defined in section 269C of the Act in that on the day on which the application was lodged, no substitutable goods were produced in Australia in the ordinary course of business.

I have also had regard to section 269SJ of the Act which describes certain goods for which a TCO must not be made. I am satisfied that there are no exclusions applicable to the goods the subject of the TCO application.

Dated this 27th day of October 2017

Dear <sup>s47F</sup>

**TARIFF CONCESSION SYSTEM**  
**APPLICATION SUCCESSFUL**

I refer to your application for Tariff Concession Order (TCO) Number TC 1773340 lodged on 7 July 2017.

As a delegate of Comptroller-General of Customs I am satisfied that the application meets the core criteria on the basis of section 269C of the *Customs Act 1901* and have accordingly made a written Tariff Concession Order.

The decision to make a TCO will be published in Gazette Number TC17/46 of 1 November 2017.

The TCO, as detailed in the attachment, will also be published in the Schedule of Concessional Instruments as soon as possible.

Yours sincerely,

<sup>s22(1)(a)(ii)</sup>

Delegate of the Comptroller-General of Customs
