Item 1	Welcome & Apologies
Noted	s47 E(c) provided a copy of draft agenda and minutes template to members for their information. Will submit to all members once finalised.

Item 2.1	s47F [redacted] – Update on case previously discussed on 05 May 2017.
Key Discussion Points	<ol style="list-style-type: none"> s47 E(c) Provided an update on s47F [redacted] case: <ul style="list-style-type: none"> IHMS confirmed s47F [redacted] still intends to proceed with s47F [redacted] s47F [redacted] Delegate approved s47F [redacted] transfer to Australia on 09 May 2017 for the purpose of undergoing s47F [redacted] procedure. JB asked what remit do we have over relationships between stakeholders and transferees/refugees who may be vulnerable? DN advised we have no control over relationships between former stakeholders and transferees/refugees. Department cannot issue directives to citizens re their own personal relationships – especially if they are no longer contracted by the Department.
Outcome	1. Update noted by committee.
Action	1. OHOS to monitor case and hand over to Onshore Health when s47F [redacted] is transferred to Australia.

Item 2.2	s47F [redacted]
Key Discussion Points	<ol style="list-style-type: none"> s47 E(c) Provided a summary of s47F [redacted] case: <ul style="list-style-type: none"> IHMS continue to recommend s47F [redacted] transfer to Australia for s47F [redacted] treatment not available at PIH. s47F [redacted] IHMS report that s47F [redacted] is currently stable and in s47F [redacted]. JB advised the policy covering the provision of medical treatment to non refugees on a removal pathway is currently being considered by the Secretary. Once signed off, this policy will inform s47F [redacted] case. DN requested OHOS request the Taskforce to re-engage s47F [redacted] and ask IHMS to provide advice about suitable hospitals in Nepal. s47 E(c) advised that in the past the clinical team had been advised to not interfere in s47F [redacted] case by the Taskforce.
Outcome	1. Committee endorsed request being made to Taskforce to engage s47F [redacted].
Action	<ol style="list-style-type: none"> OHOS to request the Taskforce to re-engage s47F [redacted] OHOS to ask IHMS to provide advice about suitable hospitals in Nepal. JB to update committee on progress of medical treatment policy with respect to AVRs

Item 2.3	s47F
Key Discussion Points	<ol style="list-style-type: none"> s47E(c) provided summary of the treatment options available for both s47F (who both require s47F treatment which is unavailable in Nauru): <ul style="list-style-type: none"> OHOS have made further enquiries with International Division in National Office and the Policy Advisor at the High Commission re ICSA suspension of PNG visa grants to transferees on Nauru. OHOS have also made enquiries to PIH to assess the viability of sending a visiting specialist and equipment to Nauru to perform the procedures. JB: SMO on Nauru has presented concerns with s47F progress in particular. s47E(c) (IHMS Medical Director) said at Complex Case Review Committee meeting (CCRC) that there was 'no urgency' in relation to s47F case. s47E(c) to follow up with IHMS to clarify s47E(c) advice. DN requested OHOS liaise further with International Division to ensure they are aware of the urgency of both cases.
Outcome	<ol style="list-style-type: none"> Await outcome of International Division's engagement with ICSA re visas for Nauru transferees. Continue investigating the provision of services on Nauru utilising PIH resources.
Action	<ol style="list-style-type: none"> OHOS to ensure International Division are aware of the urgency of s47F case. s47E(c) to follow up with IHMS to clarify urgency of both cases in light of comments made by s47F at CCRC meeting.

Item 2.4	s47F
Key Discussion Points	<ol style="list-style-type: none"> s47E(c) provided summary of s47F case: <ul style="list-style-type: none"> IHMS recommend s47F transfer to Australia to undergo s47F treatment not available at PIH. JB to provide update on progress of organising visiting specialist to travel to POM. IHMS provided updated RMM today (16 May 2017) JB: IHMS have advised that s47F is of moderate urgency (treatment required in a month or two). JB: CV of visiting specialist to be sent to IHMS (s47F) so they are satisfied with proposed treatment in Port Moresby.
Outcome	<ol style="list-style-type: none"> Await further details of visiting specialist to Port Moresby.
Action	<ol style="list-style-type: none"> JB to liaise with IHMS re acceptability of visiting specialist

Item 2.5	s47F
Key Discussion Points	<ol style="list-style-type: none"> s47E(c) provided update re s47F case: <ul style="list-style-type: none"> IHMS continue to recommend s47F transfer to Australia for s47F treatment not available in Port Moresby. s47E(c) at PIH has spoken to another specialist in Brisbane and has developed a plan for treatment. JB advised s47E(c) has explained treatment plan to s47F s47E(c) has agreed to follow treatment plan. DN recommended to wait for update from s47E(c) about s47F treatment.
Outcome	<ol style="list-style-type: none"> Await update from s47E(c).
Action	<ol style="list-style-type: none"> Committee to reconvene if s47F condition deteriorates.

Item 2.5	s47F
Key Discussion	<ol style="list-style-type: none"> s47E(c) provided update re s47F case: <ul style="list-style-type: none"> IHMS have recommended s47F transfer to Australia for s47F not currently available on Nauru.

Item 1	Welcome & Apologies
Noted	

Item 2.1	s47F [REDACTED]
Key Discussion Points	<p>1. JB Provided an update on s47F [REDACTED] case:</p> <ul style="list-style-type: none"> JB has circulated a minute to the TPC members with an update on treatment options. Noted that s47F [REDACTED] Ideally we will need to do one of the following: <ol style="list-style-type: none"> Transfer to Australia for inpatient s47F [REDACTED] Provide care on island Noted that it has taken 3 weeks to get a response from Aspen since initial request on 2 May 2017. <p>2. KWS: Not good enough to have patient waiting for 3-4 weeks without a resolution. Strong view is that that treatment should be provided on island.</p> <p>3. JB: More pressure needs to be put on Aspen in order to respond to this case.</p> <p>4. KWS: Why isn't IHMS providing this? We will need a response from IHMS on Monday about their ability to provide services on Nauru.</p> <p>5. JB provided update on policy for medical transfers. Policy hasn't been signed off by Secretary yet. Note from Secretary says more consultation required. Until new policy is approved, revert to Secretary's 2015 directive.</p> <p>6. RM requested OHOS follow up with IHMS regarding s47F [REDACTED] care.</p>
Outcome	1. Update noted by committee.
Action	1. OHOS to follow up with IHMS regarding s47F [REDACTED] care.

Item 2.2	s47F [REDACTED]
Key Discussion Points	<p>1. JB Provided a summary of s47F [REDACTED] case:</p> <ul style="list-style-type: none"> IHMS have been critical of the way s47F [REDACTED] surgery was undertaken. Surgery was reviewed by another specialist who was not especially critical of the surgery. s47F [REDACTED] is complaining about the surgery. The case was referred to Aspen on Saturday 20/05/2017 and again with further clinical detail on Wednesday 24/05/2017. Still awaiting advice from Aspen about whether s47F [REDACTED] can see a s47F [REDACTED] specialist at PPH. s47F [REDACTED] case is made more complex by the fact that IHMS don't have a GP in POM. <p>2. KWS: can s47F [REDACTED] be returned to Manus for treatment in the clinic?</p> <p>3. JB: The s47F [REDACTED] requires specialist therapy which is better managed in a hospital setting.</p> <p>4. KWS: can we get a capability there immediately?</p> <p>5. JB: Recommend we follow up urgently with Aspen to ensure PPH have the capacity to treat s47F [REDACTED] health concerns in the mean-time while we await advice on the possibility of procuring a visiting s47F [REDACTED] specialist.</p>
Outcome	1. Committee to await advice from Aspen re capability of PPH to treat s47F [REDACTED].
Action	1. OHOS to request Aspen advise on capability of PPH to treat s47F [REDACTED] via Health Contracts

Item 2.3	s47F [REDACTED]
Key Discussion Points	<ol style="list-style-type: none"> 1. JB: Provided update on s47F [REDACTED] case: <ul style="list-style-type: none"> • s47F [REDACTED] is currently in POM and has been discharged from PIH. s47F [REDACTED] symptoms indicate an s47F [REDACTED] condition which is not treatable in Port Moresby at the PIH. • There is no s47F [REDACTED] on the Independent Health Advice Panel. A CAT opinion has been provided to members of the committee. • Aspen have been engaged to provide a specialist opinion and recommendation for further treatment. An Aspen opinion is expected this weekend 2. RM: IHMS say equipment isn't available. Would we be able to send equipment? 3. JB: Depends on the recommendation from Aspen. 4. RM: Given the Aspen advice is still pending whether to transfer or treat on island, prepared to make a decision out of session if need be.
Outcome	1. Await Aspen opinion about further treatment plan.
Action	<ol style="list-style-type: none"> 1. CAT to follow up with Aspen re opinion. 2. If Aspen recommend transfer, committee to decide out of session.

Item 1	Welcome & Apologies
Noted	

Item 2.1	s47F
Key Discussion Points	<ol style="list-style-type: none"> s47F provided a summary of s47F case: <ul style="list-style-type: none"> s47F is a s47F who is a s47F currently residing in the Nauruan community. IHMS submitted an RMM on 07/07/2017 recommending s47F transfer to Australia to undergo s47F. IHMS noted that s47F as of 13/07/2017. KWS requested Dr Douglas reconfirm the Department's policy around s47F. Dr Douglas informed the committee that the policy had been submitted to Deputy Commissioner Support (DCS) for submission to the Secretary. This policy is clear that the Department will only consider medical transfer for refugees on receipt of a referral from the government of the Regional Processing Country. s47F informed committee that there was currently no Overseas Medical Referral (OMR) in place for the procedure as this is not the usual process for s47F s33(a)(iii) KWS, CR and Dr Douglas agreed that in the context of the draft policy a request should be made to the Government of Nauru (GoN) for an OMR to be considered. KWS: Happy to give in principle support for transfer if we receive an OMR. GoN will need to be engaged on island to refer s47F for OMR consideration. CR: Accompanying family member transfer is not supported at this stage. PD: Support the need to transfer clinically, once OMR has been submitted. No clinical reason to support accompanying family member at this stage.
Outcome	1. KWS, PD and CR agreed to in principle support for transfer to Australia once GoN submit an OMR to the Department.
Action	1. KWS requested that Nauru Programme Co-ordinator ask for s47F referral be considered by GoN OMR committee.

Item 2.2	s47F
Key Discussion Points	<ol style="list-style-type: none"> s47F Provided a summary of s47F case: <ul style="list-style-type: none"> s47F is a s47F who is a s47F currently residing in the Nauruan community. IHMS submitted an RMM on 14/07/2017 recommending s47F transfer to Australia undergo s47F. As at 10/07/2017 s47F s47F has requested that s47F travel with s47F to Australia as an accompanying family member to support s47F s47F informed committee that the Department has not received an OMR for s47F. KWS: As per the draft policy, we will need to facilitate a request from the GoN (OMR). PD: there is a clinical need for transfer, however as per the policy – agree a request will need to be made by the GoN. No compelling clinical reason at this stage to support accompanying s47F CR: support in principle transfer once a request has been submitted by the GoN. Do not support s47F accompanying at this stage.
Outcome	1. KWS: in principle support for s47F transfer to Australia on the condition a request is made by the GoN.
Action	1. KWS requested that Nauru Programme Co-ordinator ask for s47F referral be considered by GoN OMR committee.

Item 1	Welcome & Apologies
Noted	

Item 2.1	s47F
Key Discussion Points	<p>1. JB provided a summary of s47F case:</p> <ul style="list-style-type: none"> • s47F who has had s47F for a few months. • s47F • Question about diagnosis was discussed: • The Nauru s47F has recommended s47F review not available in Nauru. He had made a diagnosis of s47F initially but wishes to exclude other causes s47F • s47F has seen the patient twice this week. s47F • s47F agrees with the recommendation of s47F that s47F should be transferred. • s47F Emergency Physician at the Gold Coast Hospital has supported the need for urgent s47F review. His view is that the presentation is not consistent with the s47F condition suggested by s47F and is more likely to be s47F • s47F • Any option to have a specialist team fly to Nauru service would take time to organise, s47F s33(a)(iii) s47F <p>2. LH queried whether there is any initial investigation to be undertaken to establish the cause of the condition. JB advised that we were now at the stage of requiring a surgical intervention to diagnose the condition.</p> <p>3. JB advised s47F would be at a risk s33(a)(iii)</p> <p>4. LH queried about sourcing treatment options in PNG and capabilities in s47F anaesthetics in PNG</p> <p>5. JB informed that PNG has a s47F s33(a)(iii) However, JB advised that equipment would be able to send over and this would take some time to arrange.</p> <p>6. s47E(c) added that consideration to be given for the possible delays with GON and PNG approval of families to be transferred for medical treatment lately and will have significant risks s47F if opted to seek treatment in PNG.</p> <p>7. LH queried about waiting period if s47F were to be transferred to Australia.</p> <p>8. s47E(c) clarified that the process involves, in basic terms, the TPC recommends medical transfer, s47E(d)</p> <p>9. s47E(c) queried whether a video conferencing consultation is not possible with s47F case.</p> <p>10. JB confirmed that a video conferencing is not an option for s47F symptoms.</p> <p>11. s47E(c) queried about whether all MOC recommendations provided dated 4/8/2017 had been exhausted.</p>

	<p>12. CMO clarified that those points were made in June and MOC seemed reluctant to provide definitive opinion without further investigation and those recommendations were no longer an option.</p> <p>13. LH queried possibility of the s47F to exaggerate these episodes as a reason to come to Australia?</p> <p>14. JB advised that s47F has taken a video of s47F</p> <p>15. s47E(c) asked who had seen the video. JB said it had been provided to the treating doctor on Nauru and was raised in discussions with other specialists.</p> <p>16. s47E(c) sought LH's consideration on the accompanying family member.</p> <p>17. LH queried about s47F and advised s47F to accompany s47F would be supported at this time. Further discussion to be taken place, if any unforeseen circumstances to occur.</p>
Outcome	<p>1. JB, s47E(c) LH and DN agreed to in principle support for transfer to Australia.</p>
Action	<p>1. s47E(c) to send post TPC meeting outcome email for the TPC member consideration.</p> <p>2. AC DOOC and FAS Children, Community and Settlement Division to consider and approval of medical transfer to Australia of s47F to undergo recommended medical treatment and be accompanied by s47F</p>

Item 1	Welcome & Apologies
Noted	

Item 2.1	§47F
Key Discussion Points	<ol style="list-style-type: none"> 1. KWS requested meeting minutes to be cleared by LH or KWS. 2. LH queried about the §47F . 3. KWS clarified that §47F is seeking another assessment and §47F for this case through IHMS. Therefore, committee members are only discussing two cases today. 4. KWS advised that IHMS will make Request for Medical Movement (RMM) which would go to Secretary, the Department of Multicultural Affairs (s33(a)(iii) / GoN) for approval and based on this, the committee would consider the medical transfer as per the existing process. 5. DN clarified the TPC process with the decision sitting with the Department. He described the rationale for the TPC committee and the function of each member role; JB to advise on clinical aspect, DN to oversee contracts and expenditure, KWS to make the formal decision, LH to consider the approval of accompanying family member/s and §47F to lead the formal operational process of the medical movement. 6. JB stated other staff attendance such as legal attendance today and DN suggested referring to TORs around the issue of TPC-designated members. 7. §47F provided a summary of §47F : <ul style="list-style-type: none"> • §47F who is a §47F currently residing in the Nauruan community. • IHMS submitted an updated RMM on 14/08/2017 recommending §47F transfer to Australia §47F • §47F • §47F, currently located on Nauru. • IHMS RMM dated 29/8/2017; recommended §47F . • §47F • §47F stated that updated RMMs from IHMS are to be received and §47E(c) advised that receiving care most probably would be in BNE/QLD depending on the acceptance of varying state requirements §47F . 8. JB stated §47F clinics have capacity of taking §47F . Therefore liaising with §47F clinics will be a good start. In addition, JB suggested Melbourne health facilities will be another option. 9. LH queried whether there were §47F with either of the cases to be considered. 10. JB clarified that case §47F is not among the two cases discussed today. 11. KWS, DN, VH, §47F LH and JB agreed and supported: <ul style="list-style-type: none"> • The transfer of §47F to Australia (in the absence of a third country option) via commercial aircraft with nursing and security escort (if required) as soon as practicable. • Return of both §47F to Nauru to be arranged as soon as they are deemed to be Fit to Travel (FTT). • Both §47F to be admitted to the same hospital and in the same state if practicable. • Accompanying family member to travel with either §47F as per IHMS recommendation was not supported. • The location of the treatment facility yet to be identified by IHMS. The members agreed to exclude §47F hospital in §47F for this procedure. 12. JB emphasised the clinical view of the support of the accompanying family members. The committee declined to bring accompanying family to Australia §47F

Meeting held on 30 August 2017

Transitory Persons Complex Case Review Committee (TPC)

Sensitive: Personal

	<p>13. LH advised arrangements to be in place for both s47F to return to Nauru when deemed FTT and within a short turnaround time. If either s47F requires time prior to flight after hospital recovery time, it that would occur in held detention not Community Detention.</p> <p>14. VH requested both s47F to be admitted to the same hospital and in the same state if practicable, as this is easier for uplift.</p> <p>15. LH requested to obtain consent forms prior to departure from both s47F. The consent form should cover both consent for any medical practitioner to disclose particulars or either s47F medical condition to the Department and an acknowledgement by the s47F that they would be returned to Nauru immediately following the procedure without further notice.</p> <p>16. s47F updated that s47F would liaise with the Nauru staff in obtaining relevant paper work.</p>
Outcome	<p>1. KWS, DN, VH, s47F LH and JB agreed and supported the transfer of s47F to Australia (in the absence of a third country option) via commercial aircraft with nursing and security escort (if required) as soon as practicable once IHMS submitted the GoN approved RMM to the Department.</p>
Action	<p>1. s47F to follow up RMMs from IHMS, obtain consent forms and lead the operational planning.</p> <p>2. KWS to advise the legal team of the outcome.</p>

Item 2.2	Strategies to manage complex cases in RPCs
Key discussion points	<p>1. KWS advised to explore health facilities including Taiwan to manage the requirements of the future complex case load to avoid any medical transfers to Australia</p> <p>2. JB mentioned PIH would be an option</p> <p>3. s33(a)(iii) [redacted] s47F advised the International Division's advice about not to go ahead with any other discussion until the Taiwanese MOU has been signed.</p> <p>4. s33(a)(iii) [redacted]</p> <p>5. s33(a)(iii) [redacted]</p> <p>6. DN requested s47F to follow up with IHMS.</p> <p>7. LH queried the possibility of having a Royal Australian Navy ship perform these procedures.</p> <p>8. JB confirmed that it was recognised that it is not the appropriate place to conduct this procedures.</p>
Outcome	<p>1. Strategies for the effective management of health requirements of the caseload in RPCs were discussed.</p>
Action	<p>1. s47F to follow up with IHMS in identifying appropriate health facilities in Taiwan s33(a)(iii) [redacted]</p>

Item 1	Welcome & Apologies
Noted	Nil.

Item 2.1	s47F
Key discussion points	<ol style="list-style-type: none"> 1. ^{s47}_{E(c)} Summary of case: <ol style="list-style-type: none"> a. s47F on Nauru currently located in the s47F b. IHMS recommend s47F. c. OMR committee has approved the recommendation for transfer. d. IHMS have raised concerns that they will not be able to adequately observe s47F as part of the planned s47F rectification works. 2. PD: It is common for s47F to be undertaken on an outpatient basis. This could be considered on Nauru. 3. EH: Suggest the provision of s47F and whoever needs treatment on Nauru utilising visiting specialists and equipment.
Outcome	Provide specialist ^{s47} _F equipment and expertise to enable s47F to be treated at the RoNH.
Action	OHOS to continue discussions with Aspen to organise visiting specialist.

Item 2.2	s47F
Key discussion points	<ol style="list-style-type: none"> 1. PD: s47F condition indicates that s47F will not be effective because the s47F. Patient will need to undergo s47F surgery. This will require different equipment to that available at PIH. This procedure could be undertaken in Taiwan. 2. ^{s47}_{E(c)} According to IHMS, s47F condition is deteriorating. We don't know how long ^{s4}_{7F} could wait for treatment. 3. PD: s47F condition is slowly deteriorating. s47F 4. EH: Can the procedure be done in Nauru with visiting specialists? 5. PD: It could be done at the RoNH with visiting capability. 6. EH: I suggest we approach GoN for an s47F in addition to the visiting specialist for s47F. 7. Agreed by all present.
Outcome	Treatment to be provided on island using the RoNH.
Action	OHOS to co-ordinate a specialist visit to Nauru with equipment to treat s47F at the RoNH.

Item 2.1	s47F
Key discussion points	<ol style="list-style-type: none"> 1. EH: We are in the process of obtaining advice on whether the S99 decision prevents us from transferring s47F to Port Moresby. We are also talking to the Government of Nauru, as there are circumstances where s47F on Nauru. Suggest we approach the GoN with the provision of other equipment contingent on their agreement that s47F. 2. EH: We are also co-ordinating with DSD to ensure the new IHMS contract does not mention 'Australian Standard'. Are we able to send refugees to Taiwan to undergo s47F 3. ^{s47}_{E(c)} s33(a)(iii) s47F Definitely not our preference for a test transfer. 4. VH: s47F we have time to make a decision on this.

Item 1	Welcome & Apologies
Noted	VH on a training course.

Item 2.1	s47F
Key discussion points	1. LH, KWS and DN agreed that s47F was unable to complete medical treatment in POM. Therefore, TPC members agreed s47F to be transferred to Taiwan.
Outcome	1. TPC members supported s47F to be transferred to Taiwan to receive recommended medical treatment.
Action	1. OHOS to commence medical transfer process.

Item 2.2	s47F
Key discussion points	1. LH, KWS and DN agreed that s47F was unable to complete medical treatment in POM. 2. s47E(c) noted s47F s47E(c) to follow up risk rating with service providers. 3. TPC members agreed s47F to be transferred to Taiwan to receive recommended medical treatment if s47F is not assessed as a high aviation risk.
Outcome	1. TPC members supported s47F to be transferred to Taiwan to receive recommended medical treatment pending review of risk rating.
Action	1. OHOS to follow up risk rating assessment with service providers. If s47F is not assessed as a high aviation risk medical transfer to progress.

Item 2.3	s47F
Key discussion points	1. KWS noted M s47F. Therefore, KWS emphasised opportunity should be given to transferee/refugee who is willing to receive treatment in POM. 2. DN agreed to give priority to complex cases who have been waiting longer to receive treatment. 3. s47E(c) noted s47F s47E(c) to follow up risk rating with the service providers.
Outcome	1. TPC members do not support s47F transfer to Taiwan unless risk assessment is satisfactory and s47F agreed to accept the medical transfer s47F
Action	1. OHOS to follow up risk rating assessment with service providers. If s47F is not assessed as a high aviation risk and s47F agrees to transfer s47F, medical transfer to progress.

Item 2.4	s47F
Key discussion points	<ol style="list-style-type: none"> 1. LH advised that s47E(c) (DIBP) noted s47F condition had improved and there may have a chance of being managed conservatively rather than the need for s47F. 2. KWS noted s47F. Therefore, KWS advised opportunity should be given to a transferee/refugee who is willing to receive treatment in POM. 3. DN agreed to give priority to complex cases who have been waiting longer to receive treatment.
Outcome	<ol style="list-style-type: none"> 1. TPC members do not support s47F transfer to Taiwan noting s47F previous refusal to receive treatment in POM, and that s47F condition has improved and can s47F managed conservatively as per MOC opinion.
Action	<ol style="list-style-type: none"> 1. Remove from medical transfer consideration to Taiwan.

Item 2.5	s47F
Key discussion points	<ol style="list-style-type: none"> 1. TPC members agreed that s47F could receive repeat s47F in POM.
Outcome	<ol style="list-style-type: none"> 1. TPC members do not support s47F transfer to Taiwan noting s47F could be treated in POM.
Action	<ol style="list-style-type: none"> 2. Remove from medical transfer consideration to Taiwan.

Item 2.6	s47F
Key discussion points	<ol style="list-style-type: none"> 1. TPC members noted that s47F. There is conflicting information on the s47F and this injury was sustained s47F. 2. TPC members agreed to give greatest priority to complex cases who have been waiting longer to receive treatment.
Outcome	<ol style="list-style-type: none"> 1. TPC members do not support s47F transfer to Taiwan at this stage. TPC decision to be clinically confirmed by Dr s47E(c)
Action	<ol style="list-style-type: none"> 1. OHOS to seek clinical confirmation from Dr s47E(c) 1. Once MOC advice is received, TPC members to review TPC decision if necessary.

Item 2.7	s47F
Key discussion points	<ol style="list-style-type: none"> 1. KWS raised concern about s47F 2. DN raised concerns about s47F having a medical procedure noting s47F 3. TPC members agreed s47F to progress the procedure in Nauru as per MOC opinion, if medically agreed s47F
Outcome	<ol style="list-style-type: none"> 1. TPC members do not support s47F transfer to Taiwan noting the recommended procedure could be completed in Nauru when s47F is medically cleared to do so s47F. TPC decision to be clinically confirmed by Dr s47E(c)

Item 1	Welcome & Apologies
Noted	Nil.

Item 2.1	§47F
Key discussion points	<p>1. §47F_{F(1)} informed the TPC members of the outcome from the extraordinary §47F meeting held on Nauru on Friday, 17NOV2017.</p> <ul style="list-style-type: none"> • GON RPC has stated that ABF must uplift §47F with the medical transfer. • §33(a)(iii) • IHMS and Canstruct agreed to provide services and support to §47F —but could not facilitate 24hr care without §47F assistance • There are ongoing §47F . <p>2. DN clarified under the former contract, Broadspectrum (BRS) would help out in ‘time of crisis’ and historically no assistance was provided in situations if there would be a prolonged requirement. If the Department is to make a request to Canstruct for out-of-scope services, it will involve contractual variations and will require a longer time to process.</p>
Outcome	<ol style="list-style-type: none"> 1. Members agreed to support §47F medical transfer to receive recommended medical treatment. 2. Members did not support the request for §47F to accompany with this medical transfer. 3. Members agreed that the Government of Nauru should find a resolution for support arrangement §47F .
Action	<ol style="list-style-type: none"> 1. §47F_{F(1)} to advise Nauru HLO of the TPC meeting outcome.

Item 1	Welcome & Apologies
Noted	Apologies from s47E(c) and (Dr) s47E(c)

Item 2.1	s47F
Key discussion points	<ol style="list-style-type: none"> 1. TPC members agreed to: <ul style="list-style-type: none"> • Explore options for s47F to be treated in PIH having confirmation that availability of s47F surgeon and s47F capability in POM. • Source s47F equipment from Aspen and/or PIH in order to perform surgical procedure on s47F. It was agreed to manage s47F while admitted at the hospital in POM. • Source Aspen assistance to conduct the s47F testing that was recommended by the specialist. • Source logistics around PNG ICSA visa approval, seek confirmation on possible consent issues to perform surgical procedure and the required hospital admission and addressing the sufficient provision of security personnel for s47F during hospital admission, including the limitation to the provision of security services in POM.
Outcome	<ol style="list-style-type: none"> 1. Members did not agree to support s47F medical transfer to Australia to receive recommended medical treatment at this stage. 2. Members agreed that s47F health issues could be managed in POM (offshore). 3. Members agreed that LH to provide today's TPC meeting proposal of s47F management plan to Senior Clinical Advisor for further clinical advice. 4. Reconvene a TPC meeting if necessary.
Action	<ol style="list-style-type: none"> 1. LH to provide a TPC proposal of s47F management plan to senior Clinical Advisor for further clinical advice. 2. s47E(c) to progress PNG ICSA visa requirements for s47F transfer to POM 3. OHOS to progress s47F resources to POM liaison with Aspen and /or PIH. Depending on the outcomes of those discussions, LM to oversee what Contract Management could assist with. 4. OHOS to progress the provision of security personnel to POM. Depending on the outcomes of those discussions, LM to oversee what Contract Management could assist with. 5. OHOS to reconvene a TPC meeting if necessary.

Item 2.1	s47F
Key discussion points	<p><i>MOC summarised their findings:</i></p> <ul style="list-style-type: none"> • s47F • s47F • Diagnostic test results will guide a therapeutic plan. s47F • s47F <p><i>MOC advised that</i> s47F</p> <ul style="list-style-type: none"> • s47F • • • • <p>s47F</p> <p><u>Discussion:</u></p> <p>s47F could be facilitated in Taiwan s47F. Taiwan Adventist Hospital (TAH) have previously received the medical information relating to s47F and have indicated a willingness to accept his case. The TAH confirmed on 24 May 2018, that they are able to provide s47F services if required as they have specialist s47F Doctor employed. The TPC noted that re-engagement with TAH, including provision of updated medical status would need to occur.</p> <p>The current Australian government policy indicates that only life-threatening cases where a third country option is not available or appropriate can be considered for transfer to Australia.</p> <p>Further, the TAH has confirmed that it has the capability to undertake the necessary s47F tests and any subsequent treatment for s47F. Transfer to Australia is not permitted under the policy because third country treatment option is available.</p> <p>Recommended course of action is for s47F to transfer to Taiwan for s47F. To this end, s47F will be provided with a package of information on services available at TAH and will again be given the opportunity to transfer to Taiwan for the required treatment.</p>

Item 1	Welcome & Apologies
Noted	Apology – Paul Dickinson (Member)

Item 2.1	s47F
Key discussion points	<p>A/g Superintendent s47E(c) summarised the case and advice received from IHMS at various points in time, including the most recent advice from IHMS recommending movement within 24 hours. It was noted that some of the advice received from IHMS has been inconsistent.</p> <p>MOC advised that the information from IHMS was not detailed enough, specifically around s47F. Some questions posed included s47F.</p> <p>FAS Hampton suggested going back to IHMS for further advice. Agreed that MOC would provide A/g Superintendent s47E(c) with questions to pose to IHMS.</p> <p>AC Holben is seeking a quick turnaround from IHMS. The information must come through tonight.</p> <p>Members discussed the Australian Government policy, including risks associated with this issue. It was noted that no comparable situation would occur in Australia in terms of the Australian Government health system.</p> <p>Members discussed messaging and agreed that, in line with Australian Government policy, there are two options – transfer to Taiwan for treatment or remain in Nauru. Important to focus on these two issues so that s47F understands the seriousness of the issue. Initial engagement to focus s47F. It was agreed by members that IHMS is to provide messaging as the current health service provider managing s47F in Nauru.</p> <p>AC Holben sought confirmation that Taiwan Adventist Hospital (TAH) will take this case in light of the updated advice from IHMS.</p>
Action	<ol style="list-style-type: none"> 1. OHOS to contact TAH to confirm acceptance of the case 2. MOC to provide OHOS with further information to request from IHMS 3. OHOS to contact IHMS seeking further information, due night of 07JUN2018. 4. OHOS to provide current status of case to Legal Division. 5. AC Holben to update the Deputy Commissioner Support and the Minister’s Office 6. OHOS to work with Nauru team to develop messaging for s47F to be provided asap.

Item 2.1	<p>s47F</p>
Key discussion points	<p>A/g Superintendent s47E(c) provided an update on the case and the current advice received from the TAH. s33(b) s47F . The TAH are still willing to accept s47F for treatment s33(a)(iii) . IHMS has also provided the Department with s47F</p> <p>s47E(c) requested a copy of s47F . OHOS to email this.</p> <p>Members discussed at what point has the Department fully discharged its duty of care and any residual duty of care. s47E(c) will confer with s47E(c) .</p> <p>It was discussed the urgent need to obtain s47F s33(b) s47F , s33(b) . Should s47F not give s47F consent, then transfer to Taiwan is to be offered again. The new offer would include the ability for s47F s47F . This could be arranged through post. If this offer is still refused, the Department will need to consider advising IHMS not to send any additional requests for movement, as s47F s47F is not willing to accept treatment offered as per the existing government policy.</p> <p>Questions were raised over the level of care that would be offered to a Nauruan local, in the same situation. Has the Department met this level and what is the s47F that the RoNH can offer? Has the Department confirmed if PIH can provide treatment s47F ? OHOS to confirm these details.</p> <p>MOC raised concerns around the possibility of s47F . Has the Department done everything it can to provide s47F with suitable care? They also raised concerns over the time delay that could possibly be incurred if the s33(b) . Investigation into the s33(b) and timeframes will be actioned by OHOS.</p> <p>FAS Hampton summarised the action items (as listed below) and advised that unless an extraordinary event takes place, or the option of transfer to Taiwan was removed, there was no need to convene another TPC. The action items are to be progressed and updates provided out of session to members, as necessary.</p>
Action	<ol style="list-style-type: none"> 1. Send s47E(c) s47F – (OHOS) 2. Prepare another offer to s47F to transfer to Taiwan noting: (OHOS - via s47F caseworker) <ol style="list-style-type: none"> i. s47F ii. s47F 3. Request IHMS obtain s47F consent, for the visiting s47F from the TAH to perform s47F in Nauru by Friday. (OHOS) 4. Request confirmation and further investigation into s47F transferring to PIH to receive: (OHOS) <ol style="list-style-type: none"> i. s47F ii. s47F

Item 1	Welcome & Apologies
Noted	Nil

Item 2.1	s47F
-----------------	------

Key discussion points	<p>Assistant Commissioner (AC) Holben provided an update on last meetings' action items, noting that s47F</p> <p>s47F AC Holben also met with Deputy Commissioner Newton yesterday and this case was discussed. It was also noted that the Department is receiving a lot of media interest in this case, but the TPC is here to review the medical issues of the case.</p> <p>Members discussion: <u>Interpretation of the policy.</u> FAS Hampton read out paragraph 5 of the policy. FAS Hampton noted that Taiwan can still take the s47F and are still willing to accept s47F as a patient, so transfer to a third country option is still available, so any other decision goes against the policy. AC Holben noted that the policy states that if a case cannot be managed in a third country then transfer to Australia is an option. Given s47F is refusing transfer to the third country option does this then mean that his case cannot be managed by the third country, therefore allowing s47F transfer to Australia. FAS Hampton, noted that she could meet with the A/g Secretary to discuss the policy and possible interpretations.</p> <p>The MOC raised the following matters:</p> <ul style="list-style-type: none"> Regarding whether s33(a)(iii) s47F given they have said: s33(a)(iii) What treatment can be delivered at PIH, s47F It was noted that s47F is refusing PIH and all transfer options other than Australia, so there may not be any point in obtaining further information from PIH on exactly what services they can offer. s47F The current best practice approach to managing patient's s47F Ensure our timeframe/chronology is complete, as if this matter goes to court the dates and actions will all be examined. Specifically, s47F may have presented with symptoms well before the Department was first notified; once notified there appears to be a two week period where it is unclear how his case was managed; and then the tempo of subsequent actions. For these reasons it was noted that it would be prudent that close scrutiny be avoided. OHOS will ensure chronology is complete <p>Superintendent s47E(c) advised that s33(a)(iii)</p>

	<p>s33(a)(iii)</p> <p>[Redacted]</p> <p>The reputational risk to the Department needs to be considered as well as the precedents this case will set.</p> <p>Prior to departing the meeting, FAS Nockels agreed with the reading of the policy verbatim rather than the interpretation and agreed that the matter should be discussed with the A/g Secretary. FAS Nockels raised concerns with dealing with a person holistically as that may open the door for all cases to transfer to Australia. FAS Nockels noted that if we do allow s47F [Redacted] to transfer to Australia it will null and void Taiwan and any other third country option and undermine the policy.</p> <p>It was discussed that s47F [Redacted] Members discussed the level of compassion to be shown and if there is any compassion in the policy.</p> <p>It was discussed that others may attempt to copy the refusal of treatment, as a way of transferring to Australia, rather than copying the s47F [Redacted], or agreeing to transfer to a third country for treatment.</p> <p>s42, s47F</p> <p>[Redacted]</p> <p>s47F, s42</p> <p>[Redacted]</p>
Action	<ol style="list-style-type: none"> 1. FAS Hampton to meet with A/g Secretary to provide brief update on case and interpretation of policy and seek advice from the A/g Secretary. 2. OHOS will chronology for s47F [Redacted] is complete.

Item 1	Welcome & Apologies
Apologies	Paul Dickinson, Commander Offshore Operations Branch

Item 2.1	s47F
Key discussion points	<p>A/g Superintendent s47E(c) gave an overview of the case. Noting the following: The original focus of concern so far has been on s47F All clinical information so far indicates that s47F can be managed on Nauru, by IHMS. This has been confirmed on 05JUL2018 by IHMS. s47F has not been on OHOS' radar until now. On evening of 05JUL2018, IHMS emailed OHOS raising concerns regarding s47F s47F IHMS advised the Department that they would be requesting an urgent OMR and would provide this to the Department on 06JUL2018. The transfer request would outline the requirement for s47F to transfer to an s47F. IHMS has also asked for consideration be given to transferring s47F.</p> <p>IHMS also noted that the 'environment' is a causal factor in this case, and many others in Nauru. Advice more broadly from IHMS is starting to focus on this point specifically.</p> <p><u>Members discussed the following:</u> s47F Members requested whether OHOS could seek an update from ABF Nauru on the current status of the s33(a)(iii). It was noted that s47F AC Holben agreed to request this information from AS Alana Sullivan. s33(a)(iii) Currently, the only option is to transfer to Australia for treatment, if treatment cannot be provided on Nauru.</p> <p><u>The Clinical Advisory team noted the following:</u> In the short term this acute deterioration may settle down and s47F might be able to continue to be managed on Nauru. But in the longer term, resolution seems unlikely in the current situation. When asked if appropriate to s47F In the context of s47F</p> <p><u>Legal Division provided the following advice:</u> s42</p>

Released by Department of Home Affairs under the Freedom of Information Act 1982

Meeting held on 06JUL2018

Sensitive: Personal

Transitory Persons Committee (TPC)

	<p>TPC recommended to the delegate that s47F be brought to Australia for medical treatment. The Delegate, AC Holben, agreed to transfer s47F to Australia to receive medical treatment.</p> <p>The Delegate, First Assistant Secretary, Hampton, agreed to s47F to Australia for the temporary purpose of receiving medical care.</p> <p>It was noted that prior to arranging any transfer of s47F, the TPC needs further confirmation of the status of s47F. This information will be provided to TPC members via email, out of session. s47F</p>
<p>Action</p>	<ol style="list-style-type: none"> 1. OHOS to follow up on current status of the s47F with ABF Nauru s33(a)(iii); and 2. AC Holben to seek an update on s47F with AS Sullivan

Transitory Persons Committee (TPC)

Item 1	Welcome & Apologies
Apologies	Nil

Item 2.1	s47F
Key discussion points	<p>A/g Superintendent s47E(c) gave an overview of the case. Noting the following: s47F who presented to IHMS approx. two (2) months after a s47F did not report the incident to IHMS at the time as s47F. When s47F presented to IHMS for medical care, IHMS noted s47F. IHMS engaged with DOCTO to conduct a review of the case, which was provided to IHMS on 22 June 2018. IHMS did not refer the case to the Department until 17 July 2018. The OMR committee on Nauru verbally approved the OMR on 19 July 2018. The Nauru HLO is currently engaging with s47F to obtain s47F consent to transfer to Taiwan.</p> <p><u>Members discussed the following:</u></p> <p>What options are open to the Department given the time critical nature of the case, are we able to send an s47F and specialist team to Nauru to undertake part of the recommended treatment. Noting that Nauru do not have s47F capability and if this was required s47F would need to be transferred off Nauru for the s47F. Could we confirm with IHMS as to whether the s47F is needed at the initial consultation or is it only required following the s47F review and dependant on the s47F findings. Noted that during the meeting the TAH provided their acceptance of the case and discussed obtaining s47F consent to transfer to Taiwan. OHOS will follow up with the Nauru HLO regarding s47F consent. Should s47F not consent to transfer to Taiwan has the Department discharged it's duty of care. Given this is a legal case the courts may order the Department to transfer s47F to a tertiary facility, if the Department can show the arrangements are in place for the transfer of s47F to Taiwan and that it can be undertaken in the same time as a transfer to Australia, the Department may have a chance of only being ordered to transfer s47F to Taiwan as opposed to Australia.</p> <p><u>The Clinical Advisory team noted the following:</u></p> <p>After reviewing the clinical notes from Apollo there appears to be inconsistencies in the information provided to and by IHMS. For instance, the notes state s47F by this is not commented on in further reports. The Clinical Advisory Team agree that s47F needs to be reviewed by an s47F but is unclear on the reasoning behind requesting an s47F. It was noted that he underwent a s47F after the DOCTO report was prepared.</p> <p><u>Dr Gogna noted the following:</u></p> <p>The s47F that has been requested will show s47F and assist in diagnosis and possible treatment. Dr Gogna agreed that a review from an s47F is needed and will determine if an extended s47F is warranted. Suggested OHOS re-engage with Dr s47E(d) (from DOCTO) via IHMS to obtain her opinion if delaying treatment for up to a week will have an impact on treatment or prognosis for s47F. Dr Gogna also raised concerns around the timeliness of information from IHMS to the Department and in the delay in IHMS recommending s47F for further treatment. OHOS will provide a full chronology of events between IHMS and the Department and also interrogate the medical records to determine the exact timeline treatment provided by IHMS.</p> <p><u>Legal Division provided the following advice:</u></p> <p>s42</p>

Released by Department of Home Affairs under the Freedom of Information Act 1982

Meeting held on 23JUL2018

Sensitive: Personal

Transitory Persons Committee (TPC)

	<p>s42</p> <p>[Redacted]</p> <p>It was agreed that the Department will offer to s47F a transfer to Taiwan (or PIH) for medical treatment, provided he consents. Make the necessary appointments at the TAH for s47F. If needed allow a translator to accompany s47F whilst in Taiwan. The Department will investigate deploying an Ophthalmologist to Nauru to provide necessary medical treatment to s47F.</p>
<p>Action</p>	<ol style="list-style-type: none"> 1. OHOS to provide a detailed Chronology to FAS Hampton. 2. OHOS to make appointments with the TAH and confirm logistics around the transfer to Taiwan. 3. OHOS to request updated report from Dr s47E(d) regarding timings of treatment. 4. OHOS obtain details of treating s47F in Taiwan. 5. OHOS to confirm if s47F consents to transfer to Taiwan.

Item 1	Welcome & Apologies
Apologies	Parbodh Gogna

Item 2.1	§47F
Key discussion points	<p>§47E (c) gave an overview of the case. §47F had been advised that Taiwan Adventist Hospital (TAH) could provide the necessary care, however both §47F have refused transfer to TAH.</p> <p><u>The Committee Discussed:</u></p> <p>§47E (c) advised that in §47F case, the §47F.</p> <p>§47E (c) noted that §47F has §47F. He reiterated what was noted by IHMS that Pacific International Hospital (PIH) is not a treatment option.</p> <p>DN questioned why this was the case, and why IHMS had directed that PIH was not an option.</p> <p>§47E (c) advised that PIH would not be the preferred option to §47F. PIH can treat §47F but §47F.</p> <p>DN noted that there would have been §47F at PIH before, and asked why this case was any different. §47E (c) confirmed that §47F was §47F.</p> <p>VH queried why the Department does not have a physical copy of the written OMR. §47E (c) confirmed that it had been verbally approved, but not provided in writing. VH asked for a physical copy of the OMR decision (ACTION). VH also reiterated the Committee's question around why PIH had not been considered as a treatment option.</p> <p>VH queried why §47F had been provided §47F for transfer. IHMS had addressed this in the Request For Transfer document: §47F. §47E (c) also reconfirmed that this timeframe could be commensurate with §47F.</p> <p>EH mentioned that the policy states that the Department policy stated that transfer to Australia could only occur where appropriate healthcare could not be provided in PNG or Taiwan. In this case, TAH could provide appropriate healthcare to the patient and had agreed to accept her. VH questioned whether any duty of care attributed to Australia would be effectively discharged by transfer to TAH.</p> <p>VH mentioned that moving forward, she would like to investigate Taiwan again, and PNG as a second option (ACTION). VH then asked the question about whether to send §47F. EH advised that §47F should be offered the opportunity to go to Taiwan §47F.</p> <p>§47E (c) said that §47F would be offered transfer to TAH once again.</p>
Action	<ol style="list-style-type: none"> 1. OHOS to follow up physical copy of the OMR decision, 2. OHOS to offer transfer to TAH to §47F and §47F again, 3. OHOS to follow up with IHMS why PNG is not an option.

The Committee Discussed:

s47F

EH reiterated that Nauru was not capable of s47F on Nauru. EH asked if it was possible to s33(a)(iii) s47F affirmed that the Department has not heard anything formal from the s33(a)(iii) s47F. PG mentioned that there was s47F in this case, and that a s47F specialist was a requirement if s47F on Nauru. Additionally, the medical team would require an s47F and PG would appreciate a review of available s47F in Nauru. PG has discussed this case with s47E(c) , IHMS.

s42

s47E(c) mentioned that s47F s47E(c) mentioned that s47F would like this addressed. (ACTION). PG mentioned that s47F s47E(c) asked if s47F. EH asked if this would affect s47F s47E(c) said that it shouldn't, however if the s47F healthcare needs. PG mentioned that this is a s47F, he would not be convinced that there is s33(a)(iii) s47F. PG asked if the s47F under Australian standards s33(a)(iii) s47F. PG reiterated that s33(a)(iii) s47F. PG would like further information s47F.

VH: based on the discussion and evidence, VH is recommending transfer to Australia. (ACTION)

s47E(c) noted that s47F. EH mentioned that the s47F could be an issue, and s47F should raise this with the Nauru Police Force. s47E(c) said that Taiwan can be offered as an option with s47F, however Australia is an option for only s47F to transfer. EH does not want to s47F.

s47E(c) asked how would this transfer work s47F

s47F

s47E(c) provided an overview of this case. s47F. The OMR dated 04AUG2018 recommended Australia within two weeks for s47F treatment and s47F could be s47F. EH asked why s47F would be s47F treatment. s47E(c) said that this is because s47F.

s47E(c) noted that M s47F s47E(c) said that s47F

	<p>s47F . EH asked if s47F (ACTION) EH said that the GoNH can make s47F . VH mentioned that the s47F said that particular s47F s47E mentioned that s47F (c) .</p> <p>s42</p> <p>EH mentioned that IHMS will push back on the Department’s plan to move s47F . VH asked for the occupancy numbers of the MAA to be followed up on Nauru. (ACTION). VH said that if it was full, then she would like a prioritisation of residents to be completed. CH reaffirmed that admission to the MAA was ultimately the GoNH’s decision.</p> <p>PG noted that s47F . CR asked if Canstruct have a responsibility to staff the MAA. VH mentioned that the issue is around how they can manage staffing 24/7. s42</p> <p>EH confirmed that technically the MAA is.</p> <p>s42</p> <p>s47E(c) noted that s47F , and that the Department is awaiting the results of s47F . LH said that the Department should address s47F , (ACTION) and confirm the s47F team’s involvement is with s47F . s47E(c) said that the s47F report s47F . VH mentioned that there should be consequences for s47F .</p> <p>PG would like the clinical findings on s47F , and the speciality reports that state that the specialist can’t perform this procedure. EH mentioned that a lack of staffing is not a valid excuse from IHMS to not admit someone to the MAA, and PG wondered what the MAA should be used for, if not for a case such as this.</p>
Action	<ol style="list-style-type: none"> 1. s47F . CAT would like this addressed. (OPEN) 2. VH is recommending transfer to Australia for s47F ONLY. (OPEN) 3. s47F (OPEN) 4. Check occupancy numbers of the MAA. (OPEN) 5. Engage with s47F to determine if s47F . (OPEN) 6. The Department should address s47F and attend to the results of the tests. (OPEN)
