

## Freedom of Information request: FA 18/09/00098

- 1) Current processing timeframes for Dependent Relative Visa (subclass 114).

The Other Family visa category (which includes the Carer, Remaining Relative visas) is capped at 500 places for the 2018-19 Migration Program year with the vast majority of places allocated to the Carer visa caseload. Current processing time for Dependent Relative visa applications (subclass 114) is indicatively 50 years due to the strong demand for these visas and the low number of places available in the migration program each year.

- 2) Current processing timeframes for 864 Contributory Aged-Parent (Residence) and 884 Contributory Aged-Parent (Temporary).

Current processing time for the temporary Contributory Aged Parent (subclass 884) and permanent Contributory Aged Parent (subclass 864) visa applications is unavailable due to the low number of visas finalised each year, however is approximately up to 5 years. The Department of Home Affairs is currently assessing applications lodged up to 27 October 2016.
