# APPLICATION FOR A TARIFF CONCESSION ORDER (TCO)

'98 MAY 21 16:13

Please read the form carefully before completing.

- Section 269F of the *Customs Act 1901* requires a TCO application to be in an "approved form", contain such information as the form requires, and be signed in the manner indicated in the form. **THIS IS THE APPROVED FORM FOR THE PURPOSES OF THAT SECTION. EVERY QUESTION MUST BE ANSWERED.**
- Applicant's obligation - Section 269FA of the *Customs Act 1901* sets out the responsibility of an applicant for a TCO to establish to the satisfaction of the Chief Executive Officer (CEO), that on the basis of:
  - all information that the applicant has, or can be reasonably expected to have; and
  - all inquiries that the applicant has made, or can reasonably be expected to make; there are reasonable grounds for asserting that the application meets the core criteria.
- Failure to supply the information required by this form will result in rejection of the application and consequential loss of operative date.
- Where there is insufficient space, answers may be provided by attachment, which should clearly identify the question to which the attachment relates.
- The identity of the applicant and of the importer for whom the applicant is acting will be published in the Gazette.
- An application will be date stamped on the day it is first received in Canberra by an officer of Customs in accordance with the instructions specified at the end of this form. Any resultant TCO comes into force **ON THAT DAY.**
- All information about inquiries into the production of substitutable goods must relate to the date this application is lodged with Customs.
- Further information on the Tariff Concession System is available in Part XVA of the *Customs Act 1901*, the foreword to the Schedule of Concessional Instruments (SCI), the administrative guidelines in Volume 13 of the Australian Customs Service (ACS) Manual, or by phoning (06) 276 6668.
- Customs may require an applicant to substantiate with documentary evidence any information provided on the application form.
- TCOs are available for use by any importer and are published in the SCI and in TAPIN. Before lodging a TCO application, check to ensure an existing TCO does not already cover the goods.

- describe the goods in terms other than generic terms; or
