As you know I met with the Sec and Comm on Thursday. I expect to send an email soon with my decision about which option I will take up (work on HA health planning, annual leave for a while, or departure). Even if I chose the latter I will still seek to obtain temporary health related work in the APS.

John,

I thought it might be useful to provide a summary of activity undertaken on Nauru.

s33(a)(iii)
 s22(1)(a)(ii) and I have developed a Users' Guide which brings together in one document both the extant Act and the Amendments, with explanatory notes and a process map. We have identified that some of the forms referred to in the legislation have not yet been drafted and so have done this, as well as drafting a patient rights information sheet. s33(a)(iii)
 The other outstanding task is the identification, training and certification of "authorised officers" under the Act, who are given powers to detain and restrain mental health consumers, under the guidance of a clinician.

We provided training to ABF, IHMS, Host, BRS and Wilsons using the Guide and a sheet summarising role and responsibilities. This was well received, with one stakeholder describing the process as now "crystal clear".

§47F

Medical advice is below.

Separately §22(1)(a)(ii) team are following up information about §47F. It will also be helpful to know more about the incident, although we have sufficient information at this stage (I understand this to be §47F) for medical advice to be given to us and considered.

John,

Thanks for your notification and respect your decision. So I am clear on your preference, are you looking to finish this week if that is an option? This is so we can work through formal notification of resignation, early release potentially from the normal notice period and any outstanding matter that your managing as below. Happy to discuss.

Sec and A/Comm

I have thought about the three options.

I have decided to resign from the Department, and request to be released with the minimum notice possible.

For your information I am hoping to obtain further temporary work in the APS for a few months.

Thank you once again. I have greatly appreciated the opportunity to work in this foundation role for the Department and ABF, that has allowed me to contribute to the health of patients and staff, and to Australia's national security. I wish you all the best as you lead the organisations to their next step in their evolution.
