Importance: High

Dear s22(1)(a)(ii)

I refer to our letters to you of 1 June and 28 May, in relation to our client s47F, **attached** again for your convenience.

We have received no response to either of these letters. I therefore request a response by 5pm today.

Best wishes,

s47F

Subject: RE: Follow up to letters of 1 June and 28 May [SEC=UNCLASSIFIED] [AGSDMS-DMS.FID3567600]

Dear s22(1)(a)(ii)

Many thanks for the below response.

We have today received advice from an s47F that our client's need for s47F is becoming increasingly urgent. From our understanding of the medical records, s47F

While we would prefer to negotiate an acceptable outcome for our client without the involvement of the courts, it is becoming clear that we need to take action this week if we are to be able to secure s47F. We appreciate your response but are concerned that despite your client becoming aware of our client's s47F on 28 May, it was not until 7 June that any action was taken to examine our client. Our client advises that s47F has not refused an s47F examination since our letter of 28 May: s47F did refuse one s47F examination in early May because s47F believed that it would have been very painful, but was not asked to undergo another one until 7 June.

Released by Department of Home Affairs under the Freedom of Information Act 1982

Given the lengthy delay between our initial letter and the examination that was undertaken on 7 June, we are concerned that if we do not take court action this week, further delays will put our client at serious risk. Of course, if we are successful in court, our client will still need to be moved to a location where a s47F can be obtained which in itself will take time, and as such it is important that further delays are avoided.

Please consider this our final request to negotiate a s47F for our client, s47F, prior to our commencing court action. We expect that this will occur late this week.

Best wishes,

s47F

Subject: RE: Follow up to letters of 1 June and 28 May [SEC=UNCLASSIFIED] [AGSDMS-DMS.FID3567600]

Dear s47F

We are instructed that neither IHMS nor our client were aware of s47F s47F prior to your letter of 28 May 2018. We are instructed that prior to 7 June 2018, your client refused to consent to a s47F physical exam in any consultation with IHMS, and had not mentioned s47F in any history taken. s47F consented to a physical examination on 7 June 2018. IHMS have advised our client that in light of the examination on 7 June 2018 they are now in a better position to progress further enquiries as to the appropriate place to undergo a termination procedure for s47F (including in Taiwan). They are progressing those enquiries as expeditiously as possible. We will respond further to your correspondence as soon as we receive further instructions.

Regards

Good afternoon,

Please find below the urgent AA evacuation request for medical movement:

s47F

Released by Department of Home Affairs under the *Freedom of Information Act 1982*

s47F

Consultation with s22(1)(a)(ii) (Intensivist) and Dr s22(1)(a)(ii) (s47F Emergency Physician), both have high concerns of s47F and advised immediate transfer to a tertiary facility with a s47F intensive care unit.

IHMS is aligned with this advice and recommends immediate medevac to Australia or a third country with comparable medical capability that can manage a s47F emergency with a s47F ICU.

Without transfer to an appropriate location, s47F is at risk of further deterioration and a fatal outcome.

IHMS are seeking approval for OMR and have had an initial discussion with Dr s22(1)(a)(ii) this afternoon. Dr s22(1)(a)(ii) has advised IHMS to transfer s47F down to the RonH this afternoon for further assessment and intervention and will meet to discuss the OMR.

s47F

Thank you.

Dear s22(1)(a)(ii)

Thank you for the call to discuss the patient.

To note:
- IHMS continues to recommend transfer to Australia or a third country of comparable health care as its first option for transfer.
- the Air Ambulance will need a s47F team which we are looking at sourcing.
- While PIH had accepted the patient IHMS is unsure of their s47F ICU capability. However, we believe that such a transfer represents a step up in care for the patient.

Released by Department of Home Affairs under the *Freedom of Information Act 1982*

- the patient was assessed by the s47F at the RONH and due to a lack of beds was not admitted. In this instance, IHMS is bound to transfer s47F back to RPC Clinic. Should the Department not wish this to occur to please let me know.

IHMS will continue to source an appropriate air ambulance in the interim and will await official decision from the TPC.

Should the Department request any other action please let me know.

Subject: FW: Urgent medivac request - security escort Nauru to POM [DLM=For-Official-Use-Only]

For-Official-Use-Only

Good evening
IHMS has escalated the urgent transfer of a refugee s47F to POM for medical treatment. Details of the medical evacuation are still not known.
It is possible that a security escort will be required. Is this possible to be arranged?
regards

s22(1)(a)(ii)

Hi s22(1)(a)(ii)
Thank you for your prompt reply. Do you have any idea when the destination will be confirmed?
Sorry, should be ASR – Additional Service Request for security escort.
Kind regards

Subject: RE: Urgent medivac [DLM=For-Official-Use-Only]

For-Official-Use-Only

Hi s22(1)(a)(ii)
Appreciate the email.
As discussed:
OHOS is waiting for formal notification and request from IHMS – has only just been received.
As s47F is a refugee an OMR is required and IHMS confirmed that they are seeking this from the OMR committee (Dr s22(1)(a)(ii)
IHMS will also confirm whether PNG or Taiwan are options.
I am unsure 'ASA for the medevac is being processed between IHMS and ABF at National Offices level' – are you able to confirm what this means?

Good afternoon colleagues
We do not have a s47F for the following s47F clients on file:
s47F

Nauru Ops will obtain travel documentation for s47F. Superintendent s22(1)(a)(ii) will speak to Transfers Officer shortly.
Nauru Civil Aviation is yet to be notified. GoN Operations Manager was verbally informed of the upcoming transfer.
I was advised by SD Lead that ASA for the medevac is being processed between IHMS and ABF at National Offices level.
We are awaiting your further instructions regarding the destination of the proposed medevac flight.
Kind regards

Thanks s22(1)(a)(ii)

We will await your advice, then touch base with CSI.

Without an idea on where the flight is going (for visa details most importantly) and whether a male or female officer might be required, CSI cannot really provide any indication of whether they are in a position to provide a security escort.

The sooner we have that information the better – happy to manage through a small number of senior CSI officers for OpSec if necessary.

Hi s22(1)(a)(ii)

Apologies for the oversight, I forgot to include a request for Paladin in POM to provide a security convoy on arrival of the medevac to POM and also heads up on accommodation at the Shady Rest. Security presence at hospital is to follow standard process.

For Nauru end – IHMS has not yet confirmed if security escort is required due to capacity on aircraft
For POM end – Paladin security escort is required to PIH on arrival (noting s47F will likely travel in Ambulance) and accommodation requirements. Security presence at hospital if that is a standard process.

Hi all,

I just received a call from HOST who case manage the family asking for an update.

The family has apparent been told by staff at the RoNH to be prepared for a medical evacuation within the next 4 hours.

I advised HOST (s22(1)(a)(ii)) this case is on our radar but at very early stages regarding discussions about treatment options.

s22(1)(a)(ii) advised me the family's case manager (s22(1)(a)(ii) is flying out tomorrow and the replacement case manager will not be available until Thursday.

I advised HOST we would keep them updated.

Kind regards,
s22(1)(a)(ii)

Hi s22(1)(a)(ii)
Thanks.
I acknowledge what you are saying however IHMS head office has been asked to confirm whether a third country can provide the necessary treatment. If neither hospitals can provide the necessary treatment, a TPC will need to be arranged for transfer to Australia and the decision will be with the TPC members. At this stage, OHOS is awaiting further information from IHMS head office.
In terms of documents, if the team could please progress the signing of documents (relevant TDs and visas) for both PNG and Taiwan. This will ensure that either option is ready.

Hi s22(1)(a)(ii)
I spoke to HSM again and she advised me that s47F is at RoNH and is being reviewed now. s47F ; however s47F will still require medical treatment.
Once the medical review is finalised the OMR can be progressed.
I asked HSM if s47F will remain in the hospital o/n and HSM responded that they are hoping for a medevac tonight.
I also spoke to the Transfers Officer who pointed out that the Taiwan visa process takes 3 days. It would be quicker to obtain docs for medevac to PNG or A/a.
Kind regards

For-Official-Use-Only

Hi s22(1)(a)(ii)
IHMS have not provided any idea on when the destination will be confirmed. As discussed, transfer will likely to be either PNG or Taiwan.

For-Official-Use-Only

Hi s22(1)(a)(ii)
Thanks for your email.
There are still a lot of unknowns - We are still waiting for confirmation from ICA for in-principle approval, IHMS has not sent through the medevac quotes or any details on the requested medevac, also we don't have TDs, visa applications, transferee agreements, GON uplift etc… (no ones fault)
I suspect that it may not come through tonight, however it is only 1930AEST. Just in case, I would recommend that the photo be arranged tonight just in case all the approvals come through in the next few hours and there is an early arrival planned.
DOOC NCU is available if Nauru requires assistance over night.
I hope that helps.

Hi s22(1)(a)(ii)

Just for our planning on island - do you think it will be overnight? We are just trying to plan preparing travel docs etc we need at this end and we are following up to see if s47F has a pic on file for RPC access otherwise we will need to arrange a photo. We are happy to go in tonight if required to support an early am mission. Appreciate it's early in the process.

Hi All,
Please be advised of the below:

- IHMS head office has not sent through a medevac quote for approval. IHMS will activate a medevac once approved by the department and not before.
- PIH, PNG has agree to accept the refugee
- Refugee documents need to be prepared for the transfer, including PNG visa applications
- The Commander has sought approval from PNG CMO for the transfer

Subject: Urgent Air Ambulance for s47F request for PNG approval [DLM=Sensitive]

Sensitive

Dear CMO s22(1)(a)(ii)

I am writing to request whether ICA will consider and support the urgent transfer of a refugee from Nauru to Port Moresby who requires treatment at the Pacific International Hospital (PIH). The transfer will involve s47F refugees in total.

The following are s47F details.

s47F

Released by Department of Home Affairs under the Freedom of Information Act 1982

s47F

Background

On 12 June 2018, our health services provider, International Health and Medical Services (IHMS) escalated an urgent Request for Medical Movement (RMM) for s47F from Nauru to a third country, for urgent transfer to a tertiary facility with a s47F intensive care unit for treatment of s47F. IHMS have confirmed the Overseas Medical Referral has been verbally approved.

Clinical summary:

s47F

Risks:

Consultation with Australian specialists s22(1)(a)(ii) (Intensivist) and Dr s22(1)(a)(ii) (s47F Emergency Physician) both have high concerns of s47F and advise immediate transfer to a tertiary facility with a s47F intensive care unit.

Expected time:

Unknown at this stage – to be confirmed once assessed by PIH.

Treatment location:

PIH has confirmed they are willing to accept s47F under the Consultant s47F Dr s22(1)(a)(ii)

Accompanying family:

IHMS has requested that s47F.

s47F

Once the Department of Home Affairs receives all the relevant documentation from Nauru, we will send the package through to seek your final approval.

In addition to the above, it would be appreciated if you could please confirm if there are any specific visa requirements for the security escort.

Kind regards

s22(1)(a)(ii)

For-Official-Use-Only

Hi s22(1)(a)(ii)

Please see below draft email requesting PNG approval for the medevac. I have included all attachments except the GoN approval to transfer.

Dear CMO s22(1)(a)(ii)

I am writing to seek your consideration of an urgent transfer of a medical case from Nauru to PNG for urgent admission to a paediatric intensive care facility. Transfer is being proposed via Air Ambulance.

- IHMS Request for Medical Movement – detailing the urgent medical treatment required.
- Certificate of identity – s47F
- PNG Visa applications
- Signed undertaking to return to Nauru after medical treatment
- Government of Nauru – approval to transfer (uplift)

If approved, it is likely the Air Ambulance will arrive tomorrow 14JUN2018. IHMS has confirmed that Pacific International Hospital have agreed to accept the patient for the required medical treatment.

Kind regards,
s22(1)(a)(ii)

Dear s22(1)(a)(ii)

Request approved for uplift into Port Moresby.

DCMO s22(1)(a)(ii) Airport OIC,

Please facilitate visa and smooth entry if all in order.

Regards

s22(1)(a)(ii)
Chief Migration Officer

Released by Department of Home Affairs under the *Freedom of Information Act 1982*

- IHMS Request for Medical Movement – detailing the urgent medical treatment required and two supporting specialist reports.

Government of Nauru – approval to transfer (uplift) pending

IHMS has confirmed that verbal approved Overseas Medical Referral (OMR) has been provided, with formal documentation pending.

If approved, it is likely the Air Ambulance will arrive tomorrow **14JUN2018 at 0915AM** (PNG Local Time).

I would be grateful for your earliest consideration of this request

Kind regards

Good morning s22(1)(a)(ii)

As requested please see attached 2 quote attachments for the movement to POM and to Australia.

In addition approximate timeframes are as below:

For either destination, crew would pre-position to Honiara on the 13th June for crew rest. All times given are Sydney local for consistency.

Transfer to Brisbane

On 14th June
07:00 Departure from Honiara to Nauru (2 hours)
09:00 Arrival Nauru
10:00 Departure from Nauru to Honiara (2 hours)
12:00 Arrival Honiara for refuelling
12:30 Departure from Honiara to Brisbane (3 hours)
15:30/16:00 Arrival Brisbane

Released by Department of Home Affairs under the Freedom of Information Act 1982

Transfer to Port Moresby
On 14th June
07:00 Departure from Honiara to Nauru (2 hours)
09:00 Arrival Nauru
10:00 Departure from Nauru to Port Moresby (3.5 hours)
13:30 Arrival Port Moresby

Please note IHMS have been advised there is no breakdown of quote available at this time.

If there is any further information required please contact IHMS Assistance.

Your earliest update regarding approvals still awaited would be greatly appreciated.

Thank you,

Kind regards,

Good morning s22(1)(a)(ii)

As discussed on the phone just now, could you please provide the quote attachments which show full breakdown of costs and timing for the AA to POM.

ABF are currently waiting for GoN uplift approval and PNG ICA entry approval.

No need to call me back when this has been emailed as I will action immediately at 6:00am when I arrive to work.

Dear Team,

As per your request, please find the below quote and availability for the Air Ambulance retrieval of patient s47F from Nauru to Port Moresby.

We have confirmed availability via Medical Rescue, who are available to transport this patient for arrival into Brisbane on the 14th June 2018. Estimated time of arrival into Port Moresby would be 14:00hrs local. Total cost for this evacuation is AUD136,900.

We appreciate your response and confirmation of coverage from the client as soon as possible so we may make the necessary arrangements for the evacuation of this patient.

Kind regards

For-Official-Use-Only

Hi s22(1)(a)(ii) and s22(1)(a)(ii)

Thanks for providing additional information. I note that the department confirmed PNG, please work towards PNG.

The department relies on IHMS to confirm appropriate facilities and OHOS was advised that PIH has the capacity. At no stage has IHMS advised the department before now that IHMS feels that PIH does not have the capability to manage this case. When I spoke with s22(1)(a)(ii) yesterday I told s22(1)(a)(ii) standard pathways need to be explored ie: IHMS to confirm PNG or Taiwan, it was at this stage IHMS confirmed PIH. I am sure you can see the dilemma here for the department.

Dear s22(1)(a)(ii)

Again, I would like to re-iterate that IHMS would recommend Australia as the first option as we are of the opinion that s47F requires s47F ICU capability.

While PIH has accepted s47F, IHMS does not believe that they have the capability to manage the case.

A transfer to PIH would be seen as a step up in health care.

Hi s22(1)(a)(ii)

We have activated the AA, however the provider will need a final destination to be confirmed (PNG/Australia).

International SOS are currently confirming with the provider when this information is needed– however in previous cases it has been required prior to take off from Australia.

Could we please request ABF continue to chase PNG ICSA for this approval, and we will provide an update once we have confirmed when the final destination will need to be known.

Kind regards,

Good Morning s22(1)(a)(ii)

Thank you for the update.
Given the Delegate has provided approval for the AA to PNG; can we activate the provider? As per the timeline sent to ABF yesterday, the crew will need to overnight in Honiara for arrival and retrieval of the patient to occur tomorrow.
If this is not able to be done – please provide timeframe as to when the approval for PNG ICA and travel documents is expected?

We were advised by the Nauru SMO that given the urgent clinical situation; verbal OMR approval was provided by Dr s22(1)(a)(ii) last night.

As the cut off time of 1100 is fast approaching, could you please urgently advise on the above?

Kind regards,

Hi s22(1)(a)(ii)

Please find attached, updated quotation for the AA for s47F from Nauru to POM.
As advised by International SOS – due to fluctuations and current high price of fuel; there are additional costs.

Estimated timeframes for this mission are:

13/06:
1500: Air Ambulance Departs Brisbane
2115: Air Ambulance arrives to Nauru
Overnight Crew Rest

Released by Department of Home Affairs under the Freedom of Information Act 1982

14/06:
0800: Air Ambulance Departs Nauru with Patient
0915: Air Ambulance arrives to Port Moresby with patient

The Air Ambulance is available to be directed to Brisbane if approval is granted by ABF.

Could we please request the ID/Travel Documents for s47F as soon as possible as the provider is chasing these. Please also provide update re PNG ICSA approval.

Please confirm receipt of this email.

Kind regards,

s22(1)(a)(ii)

Dear all,

Please be advised that the Air Ambulance has now departed from Brisbane to Nauru, the current ETA in Nauru is 2315 Local Time.

Please be advised that due to a delayed departure this afternoon the Air Ambulance medical team will be unable to assess the patient at the clinic this evening as this will rest in a later crew rest period and further delay departure tomorrow morning.

Current scheduled timelines for departure tomorrow morning are per below but are dependant on permit and ICSA approval for Port Moresby and are subject to change due to flight conditions.

14 JUNE
0930: LifeFlight Team to Assess Patient at RPC Clinic and transport to Airport
1130: Air Ambulance Departs from Nauru
1245: Arrival in Port Moresby

Please find brief medical update below:

Please be advised that s47F has been medically stable since this morning. There have been no clinical changes, and s47F. International SOS will monitor closely throughout the night and update accordingly.

We will continue to monitor and update you accordingly.

Kind Regards,

s22(1)(a)(ii)

Dear all,

Please be advised that we have no proceeded to activate this Air Ambulance evacuation for s47F from Nauru. Please see below for approximate timelines (all times are Local):

13/06:
1500: Air Ambulance Departs Brisbane
2115: Air Ambulance arrives to Nauru

Released by Department of Home Affairs under the Freedom of Information Act 1982

Overnight Crew Rest

14/06:
0800: Air Ambulance Departs Nauru with Patient
0915: Air Ambulance arrives to Port Moresby with patient

Please be advised that the Air Ambulance is available to be directed to Brisbane if approval is granted.

We will monitor the evacuation and keep you updated.

Kind Regards,

Good morning,

Please be advised the updated time lines of the Air Ambulance movement of s47F as follows (all times local):

1030: Nauru SOM departs in Ground Ambulance with patient and mother
1045: Ground Ambulance arrives at Nauru Airport and greets Lifeflight Medical Crew for medical handover
1130: Aircraft departs from Nauru Airport to Port Moresby Airport
1300: Aircraft arrives at Port Moresby airport and greets International SOS Ground Ambulance for transfer to Pacific International Hospital.

We will continue to keep you updated

Thank you

For-Official-Use-Only

Hi s22(1)(a)(ii)

Transfer Officer has prepared the travel docs already. We will GoN approvals and Service Providers behaviour reports and FTT today.

We just got the travel details and I will get the consent forms signed today. Please see DOOC NCU info below:

> *Crew would pre-position to Honiara on the 13th June for crew rest. All times given are Sydney local for consistency.*
>
> *Transfer to Port Moresby*
> *On 14th June*
> *07:00 Departure from Honiara to Nauru (2 hours)*
> *09:00 Arrival Nauru*
> *10:00 Departure from Nauru to Port Moresby (3.5 hours)*
> *13:30 Arrival Port Moresby*
>
> *PNG ICA have not yet approved entry.*

FYI - HOST communicated to me last night that s47F and wanted CM to take s47F home. It appears somebody messaged s47F last night that a medevac flight was coming during the night. I advised HOST that messaging is the responsibility of the HLO and IHMS.

Kind regards

For-Official-Use-Only

Hi s22(1)(a)(ii)

Thank you for your email.

Since my last email it was confirmed that s47F will travel with 7kgs luggage. IHMS staff advised s47F s47F of this before we (ABF) engaged with them.

Transfers Officer s22(1)(a)(ii) met with s47F at the clinic back room to have the forms signed (10:00 – 10:15am). Thank you for the offer of talking points, but we were able to message s47F simply.

Wilson security was in attendance during the meeting.

s47F were focused on the treatment of s47F and were not concerned about the destination. s47F queried if the receiving hospital has adequate facilities to treat s47F and I assured s47F that is the case.

As s47F were anxious about s47F, we advised them simply that the charter is expected to depart tomorrow. We did not mention the times of the departure nor the possibility of an earlier departure.

s47F were content with the outcome of the meeting.

Transfers Officer s22(1)(a)(ii) has left the office some minutes ago to progress the approvals with GoN.

I will provide all signed forms in a separate email.

Kind regards

For Official Use Only

Hi s22(1)(a)(ii)

Thanks.

I note the concern you have raised however a decision who travels is guided by capacity on the plane and is not a concern or focus for you. We will be guided by IHMS and the priority is the patient.

Agree IHMS should escalate through their channels and as advised IHMS are arranging the medevac and not the department.

The expectation will still be that s47F returns once assessment and treatment is completed.

Do you need talking points for when you message s47F

Subject: RE: medevac from Nauru to POM [DLM=For-Official-Use-Only]

For-Official-Use-Only

Hi s22(1)(a)(ii)

We should consider the configuration of the plane in the view that there may be s47F on board. If there is room for s47F and they are going to POM, we should allow s47F to travel.

We (ABF) haven't engaged with s47F yet as we would like to give them times of departure. We will do that later today.

Also, I spoke to the HSM and she advised that s47F and that the medevac flight should happen earlier. She is now communicating to her National Office regarding this matter.

Released by Department of Home Affairs under the Freedom of Information Act 1982

Fyi – s47F
Further, an OMR is not in place yet. There is only an email from the SMO at this stage. HSM will contact Dr s22(1)(a)(ii) this morning.

s22(1)(a)(ii)

If there is a preference for s47F to transfer, this is something we would prefer you provide or highlight, as you are on the ground.

Has anyone engaged with s47F yet?

Happy to discuss further

Regards

Subject: RE: medevac from Nauru to POM [DLM=For-Official-Use-Only]

For-Official-Use-Only

Good morning s22(1)(a)(ii)

As discussed this morning, the quotes from s47E(d) (OpEmail) were received at 5:13 AEST, **with approximate timeline to be confirmed once quotes are approved.**

Crew would pre-position to Honiara on the 13th June for crew rest. All times given are Sydney local for consistency.

Transfer to Port Moresby
On 14th June
07:00 Departure from Honiara to Nauru (2 hours)
09:00 Arrival Nauru
10:00 Departure from Nauru to Port Moresby (3.5 hours)
13:30 Arrival Port Moresby

PNG ICA have not yet approved entry and GoN approval for uplift not yet received – unless you have received approval this morning.

I also believe the travel documents are not ready yet – can you confirm please.

RPCHLO, could you advise whether both parents will be travelling or just the mother.

Kind regards,

s22(1)(a)(ii)

Good morning colleagues

Released by Department of Home Affairs under the *Freedom of Information Act 1982*

Can you please clarify if s47F are going to travelling to POM with s47F ?

s47F

Do you have any indication about the times of medevac arrival on Nauru?

Kind regards

Hi All

It is going to be difficult to coordinate ICA reception arrangements at the international airport in terms of airside clearances etc. for a 0915hrs arrival, given we don't have formal ICA approval yet and can't coordinate.

Regards

Good Afternoon s22(1)(a)(ii)

There has been a slight delay with the departure of out Brisbane for the AA. They are now anticipating a 1630 (local time) departure, to fly to Nauru where they will rest overnight.

Regarding your questions below:
We have passed on your concern regarding the fisheries plane onto International SOS, who will confirm with the AA provider. We will update once this is confirmed.

s47F

I am unsure as to your last paragraph regarding ICA processing at the airport. We would not need to inform PIH of clearances as they do not have any involvement with customs/processing.

Could you please provide the details of the Paladin escort to us so we can provide these to the AA provider.

Kind regards,

s22(1)(a)(ii)

Subject: Medevac for s47F [DLM=For-Official-Use-Only]

For-Official-Use-Only

Good afternoon IHMS,

Can you please confirm some arrangements for the medevac?

Released by Department of Home Affairs under the Freedom of Information Act 1982

Firstly – the latest AA schedule seems to suggest the AA and crew will be overnighting in Nauru tonight for a crew layover – is this correct? If so, we have been advised that there is a large plane from NZ fisheries also due to overnight in Nauru tonight – can you please confirm that this won't cause any logistics issues?

What arrangements have you made with PIH as receiving care? For example:

s47F

Do you have a contact point at the PIH for the medevac who can be contacted at any time if there are any changes?

Can you also please confirm that you will inform PIH that the standard process on arrival is that ICA will be onsite to undertake required clearances. The transferees will then clear Customs and can then depart from the hospital. Please note that the ambulance will have a Paladin vehicle escort to the hospital and the ambulance is to wait until they have made contact with the Paladin escort.

Kind regards,

Dear Dr s22(1)(a)(ii)
I have spoken to s47F today and I understand that there is a plan for s47F to be transferred to Port Moresby tomorrow morning.
s47F
s47F reports that s47F remains confused.
Based upon these reports, I am very concerned that s47F is being transferred to a Papua New Guinea rather than to Australia.
s47F .
The s47F mortality rate in Papua New Guinea is 54.3 per 1000 live births.
The s47F facilities at the Pacific International Hospital are not comparable to those available in tertiary s47F hospitals in Australia.
I am writing to urge you to advocate for s47F transfer to Australia, where s47F can access the high level of care which s47F condition requires.
I look forward to your response.
Sincerely,

Released by Department of Home Affairs under the Freedom of Information Act 1982

Dear CMO s22(1)(a)(ii)

I am writing to request whether ICA will consider and support the treatment of a transferee from Nauru to Port Moresby at the Pacific International Hospital (PIH).

The following are s47F details.

s47F

Background

On 10 April 2018, our health services provider, International Health and Medical Services (IHMS) escalated an urgent Request for Medical Movement (RMM) for s47F from Nauru to a third country, for urgent s47F review and intervention in a tertiary hospital setting including s47F with a provisional diagnosis as s47F.

Clinical summary:

s47F

Released by Department of Home Affairs under the *Freedom of Information Act 1982*

s47F [redacted]

Risks:

IHMS advised that without this intervention, there may be an imminent risk of life-threatening complications s47F [redacted].

Expected time:

It is likely that expected recovery time in PNG will be 2 weeks.

Treatment location:

IHMS has advised that receiving care is at Pacific International Hospital in Port Moresby.

Accompanying family:

N/A

Once the Department of Home Affairs receives all the relevant documentation from Nauru, we will send the package through to seek your final approval.

In addition to the above, it would be appreciated if you could please confirm the visa requirements for the security escort.

Kind regards

Hi s22(1)(a)(ii)

An update on this. s22(1)(a)(ii) has undertaken the following:

1. Undertaken a sweep of TRIM for health-related records. We were not able to find a lot – s47F had met with s47F some time ago for a general engagement and with doctors regarding s47F health issues (relating to s47F
2. We have requested a health summary from IHMS on Thu 07JUN2018– s22(1)(a)(ii) has liaised with IHMS multiple times since for an update. We will follow up again now. Would you like us to engage with s22(1)(a)(ii) area given the delay with our requests?
3. Full medical records were requested on Thu 07JUN2018 – a separate request was made on behalf of legals by s22(1)(a)(ii) at the same time. We've asked for the records in any case so we can ensure these are TRIMed in the BCC folder – these should arrive today or tomorrow.
4. A POI and health summary are pending until we have health-related information from IHMS.

s22(1)(a)(ii) – am I missing anything?

Kind regards,

s22(1)(a)(ii)

For-Official-Use-Only

Evening everyone,
IHMS has confirmed today that s47F I have attached the email.
OHOS are currently seeking information from the TAH as to whether they would be able to deploy a team of specialists to Nauru to undertake the required diagnostic procedure, based on the second opinion that IHMS has provided.
Further information will be provided once known.

For-Official-Use-Only

Dear all
s22(1)(a)(ii) has sent through the following attachment which details what IHMS considers necessary for a s47F
Given that it would take 6 months to establish, s47F does not feel that establishing and sending such a team over would be appropriate.
It would appear that Taiwan continues to be the best option for s47F. Do we know whether a s47F has assessed s47F ?

Subject: RE: s47F - discussion [DLM=For-Official-Use-Only]

Dear s22(1)(a)(ii)
Please find attached a somewhat general approach to what is required to perform s47F as we had discussed.
As discussed, barring contractual and insurance issues, this would be a project in its own right to undertake. In addition, the very minimum timeframe we can envisage to assemble such a team and set up for such a procedure is 6 months. Given s47F, we feel that this is inappropriate.
As always, IHMS recommends transfer to Australia, or a third country with comparable health care standards, for further diagnosis as the preferred option.

Subject: RE: s47F - discussion [DLM=For-Official-Use-Only]

Hi s22(1)(a)(ii)
Just a slight readjustment to the third dot point. The insurance policy could be argued to cover s47F, simply that it would not cover inpatient service by s47F specialists (it's a fine point but worth mentioning to ensure a common understanding).
As background: IHMS is required, under contract, to establish insurances as specified by the contract. IHMS maintains those insurances but, in doing so, the IHMS insurers have explicitly linked the policy cover to the services

Released by Department of Home Affairs under the Freedom of Information Act 1982

identified in the contract (by the way; given that IHMS also carries the same insurers in the onshore context, this approach also hold for the onshore contract).
In seeking to have the insurers place terms for cover, IHMS was required to specify what it seeks cover for. Its response, quite naturally, was to identify the services outlined in the contracts.
The offshore contracts (both the Regional Processing Countries Health Services Contract and the Heads of Agreement for the Provision of Settlement Health Services on Nauru) specify the extent of the services. What this means is that whilst s47F may fall into the definition of the provision of care considered by the contracts (depending on how you define s47F), inpatient services do not (the contracts are silent on this point).
Additionally, in making application for cover IHMS was required to specify the disciplines of its clinicians. Whilst s47F is not a discipline *per se* it is a qualification that the insurers would have expected to be highlighted (for the purpose of actuaries determining the inherent level of risk for the insurers).
Given the above, there is a likelihood that the insurers would decline indemnity in the event that a claim was levelled against the Commonwealth/IHMS resulting from an event whilst in s47F (that is, whilst as an inpatient under IHMS' care being attended by s47F specialists).
Noting that the insurance policy also extends to protect the Commonwealth by way of protecting IHMS, the continuation of cover is quite important for the Commonwealth.
I'm more than happy to explain further, if needed.
Cheers
s22(1)(a)(ii)

For-Official-Use-Only

Dear s22(1)(a)(ii)
Thanks for your time on Thursday evening. I just wanted to capture your advice so that I can be clear when discussing further with Vanessa and David.
Please let me know if I have misunderstood any of the following:

- Getting a team to Nauru to undertake the s47F is likely to take longer than 6 months. The definitive diagnosis is important because it will inform any treatment that may be provided. While treatment is possible for a generalised understanding that s47F, understanding whether or not either of these is the s47F, or whether the s47F, will allow more accurate and appropriate treatment to be provided to s47F
- Getting s47F team to Nauru is likely to take longer than 6 months. Further there is some possibility that a s47F team will be unwilling to engage with s47F in the absence of a definitive diagnosis.
- The IHMS clinic cannot treat s47F as an inpatient because of IHMS's insurance, which does not cover s47F
- Your advice is that s47F be managed out of the RON hospital – whether this be for s47F. You further think that appropriate assistance should be provided to Nauruan clinicians – not through an ASR but through a separate contract with a separate health provider from IHMS. Did I understand correctly that you might be able to help source such a team/ contract/ company?
- IHMS understands that current policy parameters mean that s47F will not be brought to Australia for treatment, as TAH has reviewed his case and is willing and able to treat s47F – whether that is by way of s47F. We are also aware that s47F has advised on four separate occasions that s47F refuses treatment in Taiwan and would like to be brought to Australia.

Based on this, it's my understanding that IHMS can manage s47F for short durations in the clinic but is unable to treat s47F as a longer term 'inpatient' because of its insurances. IHMS's preference is that his condition is managed – s47F – through RON hospital. Given the lead time for bringing in the relevant specialists through an ASR, you suggest that a separate contract be used to provide specialist assistance to RoN.
Please let me know if I've misunderstood any of this. We need to determine how best to get s47F the care s47F needs, given that s47F has decided to remain in Nauru.

Subject: s47F - discussion

Dear s22(1)(a)(ii)

Thank you very much for engaging in discussion with s22(1)(a)(ii) and I around s47F case.

To summarise our discussion, we discussed:

- s47F clinical details
  - Diagnosis
  - Management
  - Palliative care options
- Contractual and insurance considerations
- Potential treatment options:
  - Transfer to Australia
  - Transfer to Taiwan
  - Transfer to PNG
  - Supporting the RONH in providing palliative care

We look forward to a more definitive way forward following your conversations with s22(1)(a)(ii) tomorrow.

Morning All,

TAH have confirmed they can deploy a specialist to undertake the required biopsy on Nauru and timeframes are likely end of the month. TAH have also confirm they will liaise with RONH and IHMS around arrangements. The department will work with TAH on Nauru registration requirements.

Is IHMS able to confirm with s47F that s47F would be willing to undergo biopsy if a TAH specialist deployed to Nauru?

Afternoon s22(1)(a)(ii)

At the Quality and Risk Committee meeting last week, there was discussion about the changes to policy. The policy is driven from FAS Hamptons area and i believe there will be a workshop arranged with IHMS shortly to present the policy and new forms.

For s47F i can confirm the department has been liaising with TAH in relation to deploying a team of specialists to assist in undertaking preliminary assessments and other required treatment on Nauru. This information has not yet been received, however continues to be followed up as a matter of urgency.

Are you able to confirm if IHMS been party to any engagement or messaging on post-death arrangements?

Dear s22(1)(a)(ii) and s47E(d) (OpEmail)

Apologies for the brevity of my message as I am on my mobile phone.

IHMS is aware of the patient's acceptance at the TAH and his repeated refusal to transfer to this medical facility.

At present, the patient has exceeded the capacity of the IHMS clinic and the local resources on Nauru. On a call with Ms Hampton yesterday, she had indicated that the Department was engaging

Released by Department of Home Affairs under the Freedom of Information Act 1982

with TAH to have a team deployed to Nauru to assist in this patient's diagnosis and management. Do we have any timeline/plan about how/when this intervention will occur?

As the patient continues to refuse transfer to Taiwan and there is no suitable medical capacity on island, IHMS continues to recommend transfer to Australia as the patient has consented to such a movement while understanding that such a movement is not supported by Departmental policy as you have outlined below. It would be remise of IHMS of not re-iterating this as an option despite it being in contravention of Departmental policy as stated by you below.

IHMS continues to counsel the patient about his treatment options. In addition, IHMS continues to work with the Department to formulate solutions as allowed by the IHMS contract and resources that are currently present on island.

Apart from the TAH Team deployment to Nauru, are there any other mechanisms that the Department wishes IHMS to consider?

For completeness, could you provide IHMS with the policy described by yourself below. This will enable IHMS to have a better understanding of the situation and how such policy may impact on this patient's immediate and ongoing care.

Kind regards
s22(1)(a)(ii)

Thank you.

As you are aware the Taiwan Adventist Hospital has confirmed they will accept transfer of s47F if s47F consents to transfer.

The department has previously approved the transfer of s47F to Taiwan for medical treatment. This option is available for s47F at anytime s47F should wish to transfer for treatment. Transfer via Medical Evacuation is approved for Taiwan.

s47F does not meet the policy for Australia, as Taiwan is a viable option that s47F is refusing.

s22(1)(a)(ii)

The question that is being asked by the department from IHMS is confirmation as to whether TAH would accept him.

IHMS continue to advise urgent referral to Australia or other third country facilities. IHMS has advised that TAH could manage the condition, however will not confirm whether TAH will accept. This is what needs to be confirmed at the departments request.

IHMS has already confirmed s47F wishes, the request is not about that. The request is purely, have TAH confirmed they can manage his situation and that they would accept him?

Subject: Request for URGENT information - s47F [DLM=For-Official-Use-Only]
Importance: High

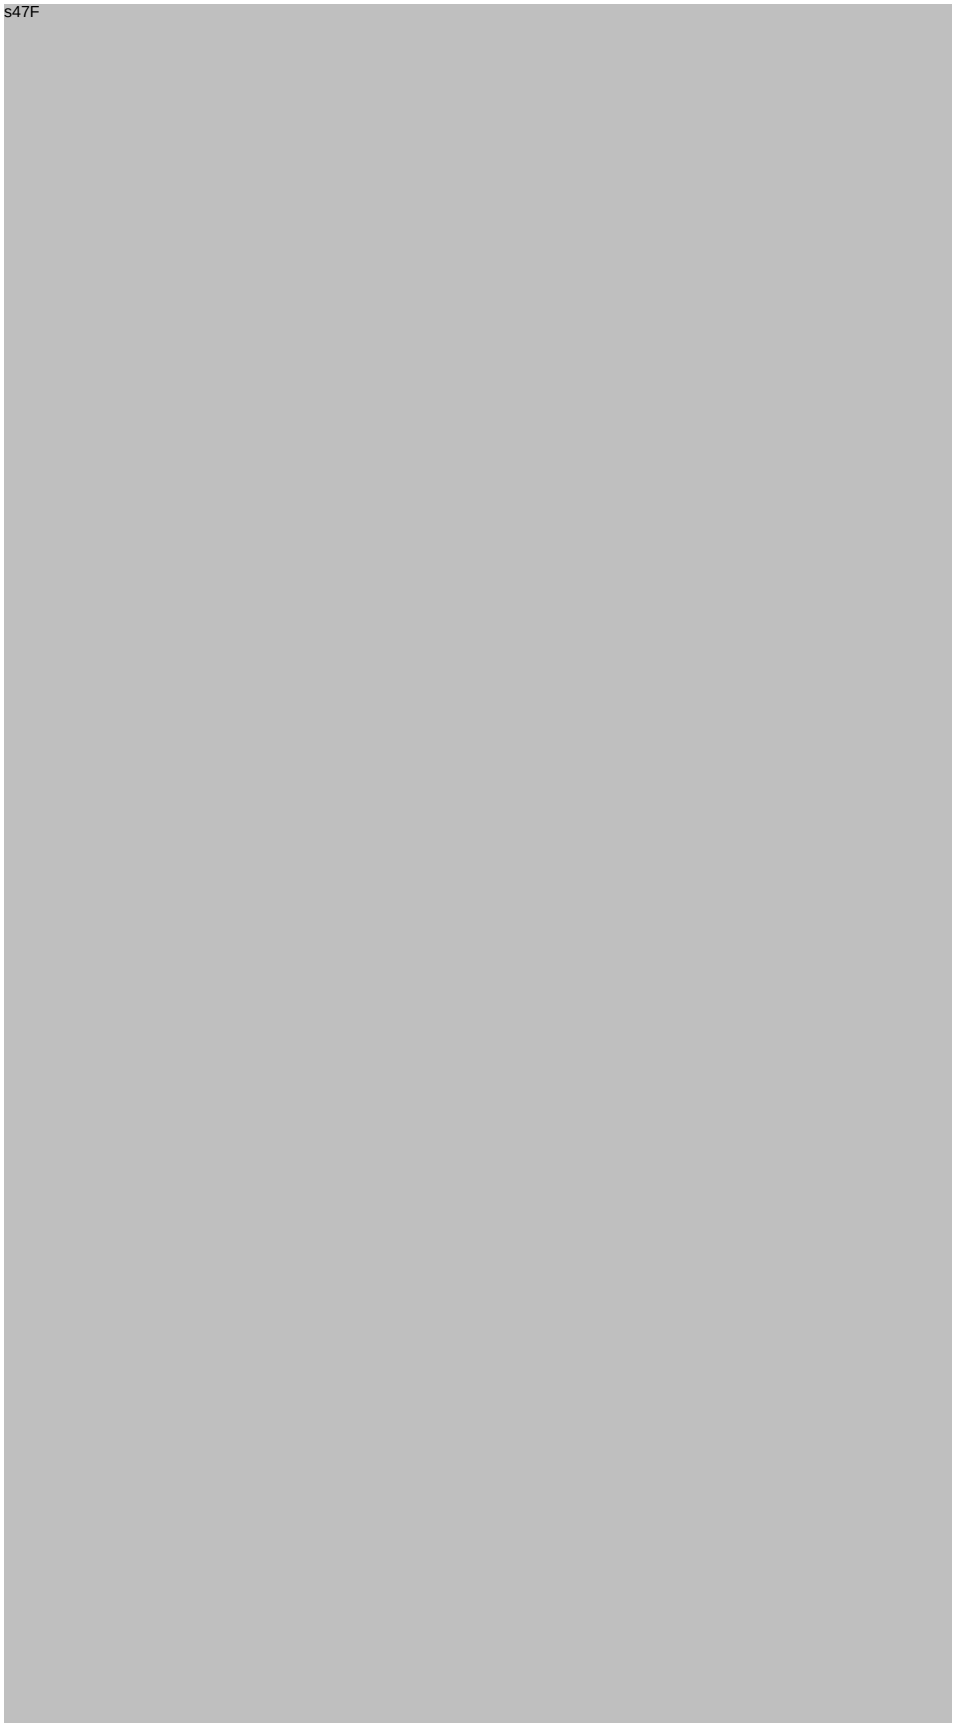
Released by Department of Home Affairs under the Freedom of Information Act 1982

For-Official-Use-Only

Good evening IHMS Assistance

It would be appreciated if you would respond, **as a matter of urgency**, to the questions below regarding s47F :

s47F



Released by Department of Home Affairs
under the *Freedom of Information Act 1982*

s47F [redacted]

Could you also advise if you have been in contact with the TAH regarding treatment which is available, specifically if s47F [redacted] agrees to transfer to Taiwan. If s47F [redacted] agrees, would the TAH accept s47F [redacted]

Kind regards

RPC HLO team

Sensitive

Hi s22(1)(a)(ii)
Please see below action items from this evenings TPC. I will complete the entire minutes tomorrow.

ACTION ITEMS

1. Send s22(1)(a)(ii) s47F – (OHOS)
2. Prepare another offer to s47F to transfer to Tawain noting: (OHOS) (s22(1)(a)(ii))
   a. s47F
   b. s47F
3. Request IHMS obtain s47F consent, for the visiting s47F from the TAH to perform s47F in Nauru by Friday. (OHOS) (s22(1)(a)(ii))
4. Request confirmation and further investigation into s47F transferring to PIH to receive: (OHOS) (s22(1)(a)(ii))
   a. s47F
   b.
5. Investigate timeframes and specific arrangements (possible commercial transfer and return charter) for visiting s47F deployment to Nauru. (OHOS) (s22(1)(a)(ii))
6. s22(1)(a)(ii) to confer with s22(1)(a)(ii) regarding at what point we have discharged our duty of care and any residual duty of care. (LEGAL).
7. Investigate what 'normal' practices occur in Nauru when a local person is faced with this situation ie. s47F . (OHOS) (via Nauru HLO)

Thanks

Subject: RE: s47F [SEC=PROTECTED, DLM=Sensitive:Personal]

PROTECTED, Sensitive:Personal

Hi s22(1)(a)(ii)

As discussed yesterday and tonight, the TAH have agreed to send a Doctor to Nauru for the sole purpose of doing a s47F. The earliest the Doctor could travel to Nauru would be in the week beginning 25JUN2018, and they are flexible with dates after that. The logistics that need to be considered are:

- A Doctor from Taiwan is unable to work in Nauru without prior approval from the Nauru Government. Therefore the Doctor will need to have whatever licensing and paperwork that is required for a visiting medical s47F to be completed prior to travelling so he/she is legally covered to do the s47F
- Time is critical. The Doctor will s47F and return to Taiwan s47F. This will mean that one of two options needs to be arranged beforehand:
  - Either the Doctor travels by Charter s47F; or
  - If the Doctor needs to travel by commercial flight, quarantine and customs will need to be approached for prior clearances beforehand so that the Doctor and s47F are not held up by red tape at any transit points. As the Doctor will be s47F, there may be additional requirements needed depending on the flight times and transit times to ensure that s47F. These additional requirements could include s47F. I am unsure if there are any additional requirements that need to be considered with the actual airline.
  - It is the preference of the TAH for the Doctor to travel back to Taiwan by charter flight due to the time critical issues. If planning starts soon, we could send the Doctor on the same charter with the next group of departing patients, and return to Taiwan on the same day. The Doctor will need a couple of hours maximum s47F if the Nauru Hospital has everything arranged beforehand, and the patient is ready. We could also send the Doctor ahead of time on a commercial flight and have him/her join the charter for the return trip. I could organise all the logistics with the Charter company here in Taiwan if we use Executive Aviation again.
- The TAH would like to know if there are any trained medical staff on Nauru who can perform a CT s47F? Can this questions please be asked?
- The TAH would also like to receive some photos of the medial equipment at the Nauru Hospital so that they can start arranging what instruments and equipment they might need to take with them to support the procedure.
- Finally, can we please get the name and phone number of a contact person at the Nauru Hospital that the TAH medical staff can start liaising with to arrange logistics. The TAH will also want a teleconference to discuss s47F before they travel, so will need someone to arrange this. I think if possible, can we arrange a single point of contact at the Nauru Hospital that the TAH can liaise with?

Released by Department of Home Affairs under the Freedom of Information Act 1982

In regards to the treatment options, the TAH will do the s47F in Taiwan and then make their decision about the best way forward. If s47F, they will accept s47F to come to the TAH for treatment (up to six months). However, if the TAH deem that s47F they are unwilling to accept s47F if s47F is only coming to Taiwan for s47F. The reasons for their refusal for palliative care include the lack of a s47F community to assist with s47F, the unknown timeframes, and the logistics of s47F. They believe that s47F would be better placed somewhere where s47F has access to friends and a community s47F. That said, I asked the TAH to leave the options open on the s47F issue until we know more after s47F has been obtained. We can discuss forward options later.

Happy to discuss further.

Kind Regards

Hi s22(1)(a)(ii)

As per my message, I need an urgent update on the request made to TAH on deploying a s47F to Nauru to undertake s47F on s47F. Advice is outstanding and is now critical.

Can you please provide an update on any discussions and follow that has occurred.

Also can you please put together a chronology of engagement as this will be required at some point.

Thanks

Hi both

I received a call from s22(1)(a)(ii) and others from IHMS Saturday afternoon. They were seeking an update of what we were doing in relation to arranging care for s47F.

I said that we were negotiating with TAH for a team to come to Nauru to provide services to s47F. They asked whether this was for the s47F. I said that it was my understanding that we were speaking to TAH about both.

I also said that TAH had advised that they were willing to treat s47F in their facility in Taiwan, but that he had refused transfer to date. This was why we were exploring options to bring a team from TAH to Nauru.

Regards

Sensitive

Hi s22(1)(a)(ii)

Thank you so much for sending this through.

s22(1)(a)(ii) and I wanted to make sure you had the clinical info you needed to facilitate some of the more clinically orientated action items. Apologies if you have already addressed these points.

To that end, when you action:

Item 3. It might be helpful to confirm that there will be the requisite equipment for s47F either available (and in working condition) or accompanying the TAH s47F Usually when a s47F performs a procedure they will have a list of all the equipment they prefer for that procedure down to even microscope slides. So it shouldn't be too difficult to have TAH email you a copy of that list, have the hospital eg. PIH confirm they have everything, and any gaps arrange to bring from TAH.

Item 7. you might find it helpful to approach the situation s47F from two perspectives:

- s47F
-

From the issues discussed at the TPC yesterday, s47F seems to be important in assisting s22(1)(a) to address some of the s47F issues. So even if s47F may be limited, there may be a different emphasis or imperative placed on s47F in Nauru.

Hope that helps, but happy to discuss.

Warm regards,
