List of *DBB16*-affected vessels

This list shows all vessels that had persons on board who entered Australia after entering the area of waters at Ashmore Island, which were found to have been invalidly proclaimed to be a port by the Full Federal Court in *DBB16 v Minister or Immigration and Border Protection* [2018] FCAFC 178 (the *DBB16* judgment).

Not all non-citizens on board each vessel were necessarily affected by the invalidity of the port proclamation, as some non-citizens may have still entered Australia at an excised offshore place and are therefore still unauthorised maritime arrivals as per section 5AA of the *Migration Act 1958*.

Note: Vessels marked with an asterisk did not actually enter the area of waters that were invalidly proclaimed as a port, however they are included as the consequences on the status of persons on board is identical.
