

FOI Request – FA 20/11/01016

On 24 November 2020, the Department received the following FOI request:

- 1) The number of refugee and humanitarian visas granted in each year since 2013 to applicants residing in Indonesia where the primary applicant registered with the UNHCR in Indonesia on or after 1/07/14.
- 2) A breakdown of what their country of citizenship was.
- 3) A breakdown of which visa subclasses were granted.

The date an applicant registered with UNHCR is not captured in departmental systems in a reportable format. Manual interrogation of departmental records would be required to provide this information. It would not be reasonably practical for the Department to provide statistics where the primary applicant registered with the UNHCR in Indonesia on or after 1/07/14.

The statistics provided in the below tables includes all applicants located in Indonesia that were granted visas, regardless of if or when they registered with UNHCR.

Notes:

1. This information is provided by the Department of Home Affairs and was extracted from departmental systems on 06 July 2020. As data has been drawn from a dynamic system environment, the information is correct at the time of publication and figures may differ slightly from previous or future reporting.
2. Cells with values of less than 5 are masked in accordance with Departmental data release protocols.
3. Statistics for the offshore component up to 2018–19 are based on country of birth. From 2019–20 they are based on citizenship. The Country of Birth or Citizenship of the principal visa applicants is applied to secondary visa applicants.
4. Applicants counted in the above table that were granted Subclass 202 visas were granted under the Community Support Program (CSP) or its predecessor, the Community Proposal Pilot. The CSP is a sub-program within the Special Humanitarian Program for job-ready humanitarian applicants who are proposed for a visa by one of 12 Approved Proposing Organisations.
