Caveats

The data in your reports is sourced from the Settlement Database (SDB). There are limitations in the data capture and the actual data. Where applicable, with regards to Immigration data - as per current privacy guidelines, the Department's policy is to mask numbers which are less than five as '<5'. The Department of Home Affairs must be consulted regarding any requests to use the data for purposes not originally intended or discussed.

Data Capture

SDB collects data concerning settlers who have been granted a permanent (or provisional) visa. SDB data is compiled from a number of sources including Department of Home Affairs, other Commonwealth agencies and service providers.

Data Limitations

The Settlement Database has not been adjusted to reflect settlers who:

- are deceased.
- have permanently departed Australia.
- have had their visas cancelled.

The settlement Database includes:

- some duplicate settler records.
- the number of settlers who are currently recorded as residing in a particular location. It cannot provide information on settlement patterns or trends.
- many data items that are not mandatory.
- only the settler's latest known residential (or intended residential) address. Address information is only updated if the Department is notified. Some settlers have no address details recorded.
- only the latest permanent (or provisional) visa for a settler.

The Settlement Database location data is based on the 2011 Australian Standard Geographic Classification (ASGC).

Reporting Limitations

- Reports including numbers of settlers in specified locations may be inaccurate due to limitations in address data.
- Settlers with an existing permanent (or provisional) visa may appear in different reporting categories over time if they are granted a subsequent permanent (or provisional) visa.
- Data suppression rules have been applied for client confidentiality.
- Reports including 'not stated', 'invalid' or 'not recorded' labels indicate that the data is unavailable.

Report Usage

Please attribute Australian Government as the data source.
