# OFFICIAL

# Managing deferred cases

When a Medical Officer of the Commonwealth (MOC) is considering a client's health examination results, they may decide that they require additional information before they can provide their opinion on whether the applicant meets the health requirement. In this case, they will "defer" their opinion and request additional information/examinations to be completed. The process followed for deferred cases is explained below.

Note: in certain cases the eMedical system will also generate additional examinations that need to be completed based on health results recorded by panel clinics - that is, before the case even reaches a MOC.

### What happens if Bupa Medical Visa Services decide that additional information is required?

As outlined in the flow chart at Appendix A, where additional information is required in order for a MOC to provide their opinion, a Bupa MOC will formally defer the case in the Health Assessment Portal (HAP). During this time, HAP and CSP will indicate that the case is deferred.

Where the client has provided an email address to the examining clinic at the time of the client's Immigration Medical Examination (IME), the formal 884 letter outlining the deferred opinion and the required additional health examinations will be automatically generated and emailed directly to the client. If the visa processing Post is indicated in HAP, the Post email will be included (for visibility) as a Cc: recipient. The 884 will also be available in PDF form in TRIM. You can find this 884 letter by searching in TRIM using the HAP ID, or finding the relevant BCC container reference number in HAP. Where the client has NOT provided an email address at the time of IME, the relevant Post or Bupa will be required to communicate with the client, per processes 0 outline below.

Note: ICSE will continue to display the Health Requirement Event as 'Outstanding' where a case has been deferred because health processing is not complete and you cannot yet finalise the client's visa application. Home

Freedom of

the

5 pup

10

Please note that where the client has NOT provided an email address at the time of IME:

- a. For cases being processed offshore :
  - i. a copy of the 884 will be emailed to the relevant post (where indicated in HAP) mailbox; and
  - a copy of the 884 will be emailed to the relevant post (where indicated in HAP) mailbox; and
     ii. posts are required to notify the client of the deferral. A letter template for this purpose is available at (Appendix B)
     For cases being processed onshore :
- b. For cases being processed onshore :
  - i. Bupa will communicate with the client regarding the deferral opinion and update HAP with a 'note' to advise that the correspondence has been sent so that the officer has visibility of this. (Note: Bupa only have access to client contact details as available in CSP. If Bupa cannot access client contact details via CSP, they will liaise with s. 47E(d) in an effort to obtain this information). eleased

### OFFICIAL

**Bupa will formally write to the relevant client**, giving them 28 days to provide the additional information (subject to exceptions for tuberculosis (TB) related cases explained below), or client is to contact Bupa explaining any issues in providing this information within the required timeframes.

The table below explains what action Bupa will take depending on contact from the client:

lf	Action to be taken
Additional health information received	Provide a final MOC opinion or a further deferral if required
Client contacts Bupa indicating that they	Bupa will update health case in HAP with relevant case
will be unable to obtain the required	notes so that the case officer has visibility of any legitimate
information within 49* days.	delays.
No contact received from client within 49	Bupa will record a <u>Health Not Completed</u> outcome in HAP
days* after the letter was sent	with the reason that the MOC requested health
	examinations were not provided.

\*The 28-day period given to respond, plus 21 days provided for the client to actually receive the letter.

# What if the client sends the additional medical information to me instead of Bupa?

Officers should record the examination(s) as received into the HAP portal, attach any documentation to the health case and send it onshore for processing.

Instructions can be found in the health processing guideline HAP: *Processing paper health examinations in HAP* on the <u>Bordernet</u>

Alternatively, please forward the information to **Bupa** by email to s. 47E(d) and provide the HAP ID for the client in the subject line.

# What if my client has received a 'Health Not Completed' outcome because they did not provide the required information?

In this scenario, the officer should consider proceeding to visa refusal first following the steps/considering the information provided in the Sch4/4005-4007 – The Health Requirement Procedural Instruction (i.e. issuing a reminder letter, and following the natural justice process).

# What if my client is legitimately unable to provide the required information within the required period?

It may be difficult for the client to be able to provide all the required information within a 49 day\* period (for example, if a specialist report is required, there may be a significant wait period before the client can be seen and the report finalised). Consequently, Bupa will provide the client with an extension where considered legitimate and update the HAP with relevant case notes accordingly.

\*That is, the 28 day period given to respond, plus 21 days provided for the client to actually receive the letter.

Note: onshore clients who receive a MOC deferred opinion as per one of the below codes, will already have been referred to a State or Territory chest clinic for follow up. There can be long waiting periods for an initial

appointment with these clinics and further appointments may be required to either rule out active TB or finalise treatment:

- 603 Chest Clinic investigation on current status of TB
- 604 Chest Clinic investigation about radiological abnormality
- 606 Initial TB investigation
- 607 Continued Anti-TB treatment
- 608 Await TB culture results
- 610 Pulmonologist Report

If you have concerns about the time that has elapsed since the deferral opinion was provided, please check the notes in the HAP for advice and then contact Bupa via the agreed contact channels if required. The agreed communication protocols can be located at: <u>https://intranet.bcz.gov.au/border-ops/processing/visa/health/migration-medical-services-provider-communication-protocols</u>

There is no need to contact State or Territory chest clinics to verify the clients' progress through this process. Unnecessary contact by officers or applicants increases the workload for chest clinics and delays their ability to finalise referrals to them.

### What if my client provides the information requested after a 'Health Not Completed' outcome is recorded but before a refusal decision has been made?

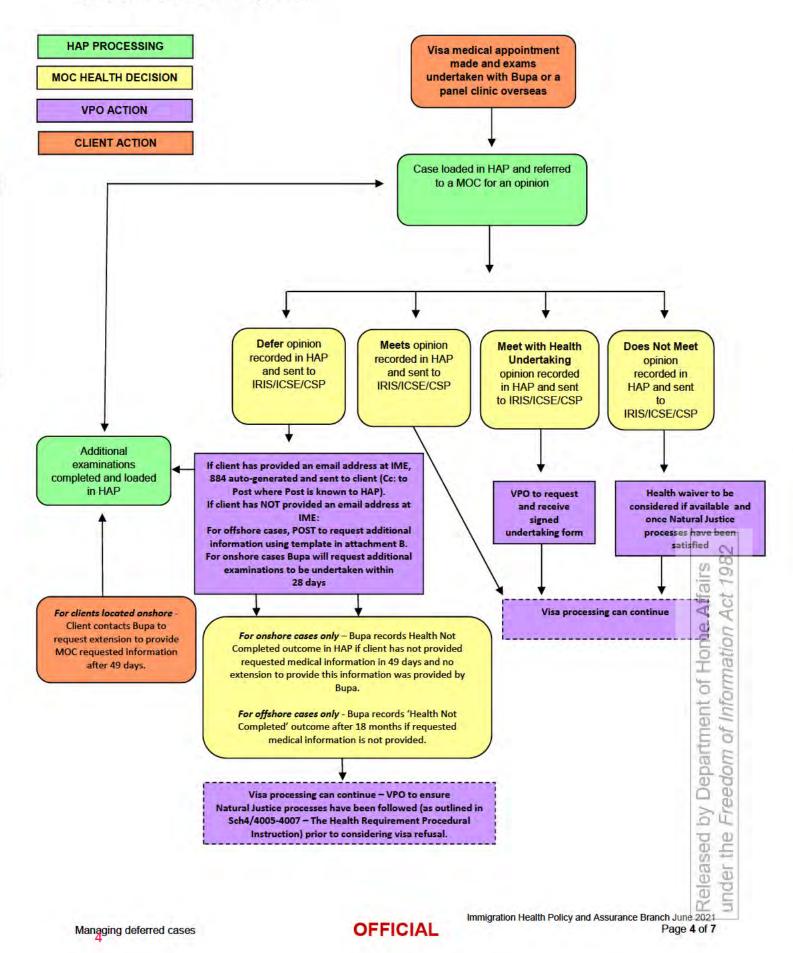

Officers should contacts. 47E(d) to create a New Assessment in HAP. This will then allow you to:

- record any examination(s) as received into the HAP portal, attach any documentation to the health case that has been provided to you and send it onshore for processing.
- request the client to undertake the examinations at the panel clinic.

Released by Department of Home Affairs under the Freedom of Information Act 1982

### Appendix B: Letter Template (Offshore Case ONLY)

<Date>

<Client Title> <Given Name> <Family name> <Client Address details>

### ADVICE ABOUT YOUR AUSTRALIAN IMMIGRATION HEALTH EXAMINATIONS HAP Id.: <Health Case Id>

Birth Date: <Birth\_Day> <Birth\_Month> <Birth\_Year>

Dear <Client Title> <Family\_name>

I refer to the health examinations that you have undertaken in connection with your visa application to Australia.

### What is the current status of my health examination results?

A Medical Officer of the Commonwealth (MOC) has considered your health examination reports and advised that further medical information is required before an opinion can be provided on whether you meet the health requirement for your visa. It is therefore necessary for you to undergo further health examination(s).

### What additional information is required?

The additional medical information required is outlined below:

### <Insert Examination details >

These new requirements have already been loaded into your online file in eMedical.

### What do I need to do next?

You need to contact a panel clinic to arrange an appointment to discuss the additional information requested and undergo any additional health examinations required. Please take this letter with you when you visit the clinic. You will also need to provide your passport (or approved alternative identity documentation) to the clinic for identification purposes.

If it is not possible for you to attend the original panel clinic, an alternative eMedical enabled panel clinic may be approached for this follow-up request.

The panel clinic which you attend will enter and submit the additional information into eMedical against your record. If the clinic is not eMedical enabled, the paper record with be sent to the Migration Medical Services Provider 98

### When does this information need to be provided?

This information must be supplied by <date required>.

However, we would encourage you to provide this information as soon as possible to facilitate processing of your visa application.

Т Please note: some testing and treatment, including for Tuberculosis, may take longer than 90 days. You 5 may also find it difficult to book an appointment within 28 days with some specialists. In this situation, please contact your visa officer as soon as possible so that you can be provided with an extension if required and considered appropriate. mer

Please be aware that it is responsibility of the visa applicant to meet all expenses incurred in connection to the request for additional health examinations, as part of the visa application process.

Yours sincerely <officer name> Department of Immigration and Border Protection

# HAP - Health Assessment processes

This tip sheet is designed to assist visa processing officers (VPO) with the system processes that are involved in viewing and understanding the progression of a health case. It will also explain other functions that are available in HAP - Health Assessment to visa officers after the applicant has completed their health.

There are also a number of other tip sheets regarding health related processes available on the intranet at: <u>https://intranet.bcz.gov.au/border-ops/processing/visa/health/processing-guidelines-visa-officers</u>

### Migration Medical Services Provider (MMSP) Communication protocols

Our MMSP is Bupa Medical Visa Services (Bupa). If you require assistance to progress an assessment of a health case, please use the agreed communication protocols noted on the intranet. <u>https://intranet.bcz.gov.au/border-ops/processing/visa/health/migration-medical-services-provider-communication-protocols</u>

### **CSP** Merge

Note: If you are required to complete a client merge, instructions are available via the below TRIM links. If

you require an urgent merge, please ensure you set the priority accordingly.

- ADD2015/382336 Requesting a client merge using the Client Search Portal (CSP)
- ADD2015/382356 Requesting a client merge using the Client Search Portal (CSP), if PIDs already merged in TRIPS

### How do I search for a health case

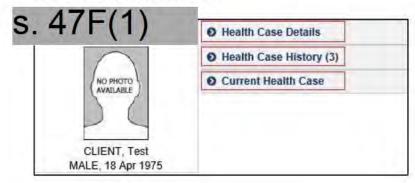

- 1. Open the Case Search screen in HAP
- Select ID Type, the relevant IDs are HAP ID, Visa Request ID or TRN and type in the unique identifier
- 3. Press Search.

The case you are looking for will appear with the Current Health Case open by default.

### I have found the case but I don't know what I am looking for?

The panel on the left of the page contains summary information, which will assist you to understand the current status of the health case. You can use the "twisty" (these are arrows) to expand the screen to see more details of the health case.

See below for further details.

### What does the action panel allow me to do?

- Create a <u>New assessment</u> on the health case
- Manage health case to allow access to other functions such as:
  - extend health clearance validity
  - o recording paper medical results
  - o Uploading of any health related attachments
- View action history This allows you to audit the health case and see what has happened at various steps of the process.

Confirm

### How can I tell why a health case failed auto clearance?

VPO's have the ability to view in HAP – Health Assessments why a health case has failed the HAP's auto clearance rules. This information can be found under Auto-clear failed details under the Current health case information. **Note:** Health cases with an assessment status of 'Auto clear denied' or 'Sent to MOC' require assessment by a person and are not finalised outcomes.

# How do I find all the health correspondence that has been generated for the HAP ID?

Correspondence generated during the process of a health case assessment may include any 884 MOC opinion correspondence generated for the applicant, including Waiver regulations.

The System Links panel within the Health Case Details section will let you know the TRIM container that has been used to store any health related correspondence and health case attachments, including blood reports and x-rays

### Waiver processes in HAP – Health Assessments

Where a MOC has provided a Does Not Meet outcome on a health case, and a health waiver is available, VPO's at the EL1 or above level must give careful consideration as to whether a health waiver should be exercised. VPO's are required to prepare the relevant health waiver submission template to document and record their decision. All health waiver submissions must be attached in HAP – Health Assessments for reporting purposes. For detailed instructions on processing a health waiver in the HAP, refer to the Manager health waivers tip sheet on the intranet.

### How do I extend the validity of an applicant's health clearance?

In line with the Health Requirement Procedural Instruction, VPO's can, in certain situations, extend the validity of an applicant's health clearance. VPO's should only extend a health clearance in exceptional circumstances and after careful consideration of health policy, and should not just provide an extension automatically. VPO must use the functionality in HAP - Health Assessments to extend the validity of an applicant's health clearance. If extension of a health clearance is available under policy, however the VPO is unable to provide the extension in HAP - Health Assessments, VPO's should contact s. 47E(d) to investigate.

- 1. Search for the health case in HAP Health Assessments
- 2. Select Manage Health Case in the Action panel and press the confirm button.
- Scroll to the bottom of the health case.
- 4. Press the Extend button next to current assessment.

HAP - Health Assessment processes

Page 15 of 28

### Health Undertakings

If a health undertaking is required, it will be displayed in the department's visa and health processing systems. It will also be indicated in the 'Form 884' MOC opinion that is generated.

Note: An undertaking is required for all Meets with Undertakings outcomes. Undertakings can also be requested for Does Not Meet opinions and No Clearance Required opinions. This will be displayed on the 884, but is also shown in the HAP - Health Assessments and in CSP under the 'Undertaking Required' field.

In CSP: the Undertaking Required field will display Yes.

In HAP - Health Assessments: the status bar on the left of the screen will display Required in the Undertaking Status panel.

In ICSE: A 'Follow up outstanding' event will display to remind the officer that they are required to record Health Undertaking details in HAP – Health Assessments.

### Recording the 815 Health Undertaking Form in HAP

VPO's need to ensure that the applicant is provided with a copy of 815 Health Undertaking form. Once the applicant has signed and returned the 815 Health uUndertaking form, VPOs will need to update HAP – Health Assessments with the following:

- Scanned/Signed copy of 815 form
- The date the 815 Health Undertaking form was sent
- The date the 815 Health Undertaking form was received
- Also, ensure ICSE/IRIS is updated with the most up to date contact information for the client this
  will assist with the undertaking process onshore.
- 1. Search for the health case in Health Assessments
- 2. Select Manage undertaking in the Action panel and press the Confirm button

Action	
No action chosen     New assessment     Manage neatth case     Manage undertaking     View Action History	
	Confirm

- The Manage Undertaking screen will appear which allows you to record undertaking form details in HAP Health Assessments.
- 4. Scroll to the bottom of the screen and select Record undertaking form details in the Action panel.
- Record the Date Sent This is the date that the 815 Form was sent to the applicant and the Date Received – This is the date that the applicant signed and returned the completed 815 form

### How do I create a New Assessment?

Please ensure you have assessed all factors before proceeding with creating a new assessment. If you incorrectly create a new assessment, please contacts. 47E(d) for assistance.

To create a New assessment you need to:

- 1. Navigate to the Case Search screen and enter the applicant's HAP ID then press Search. The Health Case Details screen will appear.
- Scroll to the bottom of the health case and select the correct New Assessment option for the case that you are managing from within the Action panel.

Note: more detailed instructions for each option are provided below.

### 1. Request a new assessment against a different regulation

Applicant's health clearance has been assessed against the wrong regulation (PIC) and the VPO requires the MOC to re-assess their health case to provide a new MOC opinion against a different PIC.

- a) Select the regulation that you want the health cases to be assessed against from the drop down list Note: only valid PICs listed in the regulations for the relevant visa subclass will appear.
- b) Press the Confirm button

Action		
No action chosen New assessment Manage health case New assessment reason	<ul> <li>Request a new assessment against a different regulation</li> <li>Organise for the client to complete repeat health examinations</li> <li>Request a new assessment based on additional medical information being received</li> <li>Request a new assessment for a different assessment period</li> <li>Study/work in health care</li> </ul>	
	Regulation - Select Resultation/PIC- 4005 4007	Confirm

### Note:

- If the health case is electronic: the case will automatically be Sent to the MOC for re-assessment and no further action is required by the officer to facilitate this.
- If the health case is paper: the case will be updated to a status of Awaiting Assessment. Please
  note that the Migration Medical Services Provider (MMSP) will be unable to re-assess the case until
  they obtain any required health examination reports that need to be considered. MMSP (Bupa) will
  arrange to obtain these reports themselves directly or via Immigration Health Branch (IHB). No
  further action is required by the officer to facilitate this (unless paper files are held by the visa officer).

### 2. Organise for the applicant to complete repeat health examinations

The VPO requires the applicant to undergo repeat health examinations as their previous ones have or are about to expire on the visa being processed. The VPO will have access to this if:

- Health case is expired .
- Health case will expire within 6 months •
- Health case is not a DNM or No Clearance Required (NCR) outcome

Note: HAP will generate standard exams and therefore, you must ensure that all required exams have been generated in line with policy. If examinations are missing, please contact s. 47E(d)

#### Press the Confirm button a)

Action		
No action chosen New assessment Manage health case View Acton History New assessment reason	Organise for the client to complete repeat health examinations     Request a new assessment based on additional medical information being received     Study/work in health care	Confirm

b) You will be promoted with a message to confirm you would like to create a new assessment, to proceed press Ok.

Message	+ ×
Important: This action cannot be undone. Please make sure that you require the client to complete repeat health examinations for this visa application because their health clearance has expired before proceeding.	
Cancel	Ok

Once the new assessment has been created, you will see that the C) Assessment Status will have been updated to New.

Success

A New Assessment has been created

Note: the applicant can now be provided with the same HAP ID and 1 they will be able to attend a panel clinic to complete their repeat set of health examinations.

### 3. Request a new assessment based on additional medical information being received

The applicant was given an outcome, but the visa officer has since received new medical information that a MOC needs to consider and provide a new opinion.

Note: Do not create a new assessment if the applicant has only provided non-medical information. If the visa officer is unsure whether the information provided is medical in nature please contact before proceeding any further. s. 47E(d)

a) Scan the additional information the visa officer received (if the visa officer did not already receive it electronically) and press the Add Attachment button

Action		
No action chosen     New assessment     Manage health case     View Action History New assessment reason	Organise for the client to complete repeat health examinations Request a new assessment based on additional medical information being received Study/work in health care Add attachment	Confirm

b) The visa officer will be prompted with a message to confirm the attachments the visa officer is attaching is new "Medical Information" that the MOC has not already seen. Note: This action cannot be undone - please ensure you would like to create new assessment based on new Medical Information.

	sure that you require this health case to be reassessed by a h I, that has not already been considered in the previous MOC i

### 4. Request a new assessment for a different assessment period

The visa officer requires a MOC to re-assess a case for a different assessment period – e.g. because the visa officer intends to grant the visa for a shorter period than they were originally assessed for.

**Note**: This is relevant for cases where the MOC provided a DNM opinion. If the applicant received a DNM when completing permanent health examinations for a temporary visa, you MUST request a reassessment for the correct period of stay that you intend to grant the visa for.

a) Enter the assessment period you wish the applicant's health case to be re-assessed for.

Note: the permanent assessment period box will only appear checked where the correct set of permanent health examinations has been completed by the applicant.

#### b) Press Confirm button

HAP - Health Assessment processes

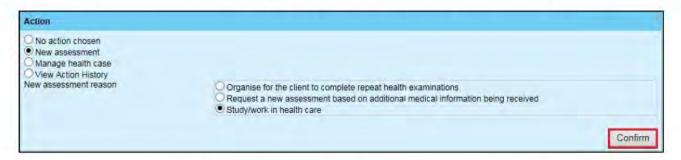

Immigration Health Policy and Assurance Branch December 2020

### 5. Request a new assessment as the applicant intends to study/work in health care

The applicant is intending to work as (or study to be) a doctor, dentist, nurse or paramedic, but failed to declare this when they applied for their visa/submitted their My Health Declarations form. Consequently, their health case does not currently contain all the required health examinations (i.e. medical, x-ray and blood tests).

Note: If the health case has any exam that is "Finalised Incomplete" that exam will be re-added to the case.

a) Select Study/work in health care option from New assessment reason and press Confirm button

- b) Once the new assessment has been created, you will see that the Assessment Status will have been updated New.
- c) The additional health examinations that are required will also have been added to the health case. Note: the applicant can now be provided with the same HAP ID and they will be able to attend a panel clinic to complete their outstanding set of health examinations.

# HAP - Health Assessment processes

This tip sheet is designed to assist visa processing officers (VPO) with the system processes that are involved in viewing and understanding the progression of a health case. It will also explain other functions that are available in HAP - Health Assessment to visa officers after the applicant has completed their health.

There are also a number of other tip sheets regarding health related processes available on the intranet at: <a href="https://intranet.bcz.gov.au/border-ops/processing/visa/health/processing-guidelines-visa-officers">https://intranet.bcz.gov.au/border-ops/processing/visa/health/processing-guidelines-visa-officers</a>

### Migration Medical Services Provider (MMSP) Communication protocols

Our MMSP is Bupa Medical Visa Services (Bupa). If you require assistance to progress an assessment of a health case, please use the agreed communication protocols noted on the intranet. <u>https://intranet.bcz.gov.au/border-ops/processing/visa/health/migration-medical-services-provider-communication-protocols</u>

### **CSP** Merge

Note: If you are required to complete a client merge, instructions are available via the below TRIM links. If

you require an urgent merge, please ensure you set the priority accordingly.

- ADD2015/382336 Requesting a client merge using the Client Search Portal (CSP)
- ADD2015/382356 Requesting a client merge using the Client Search Portal (CSP), if PIDs already merged in TRIPS

# How do I access HAP - Health Assessments?

### I am an IRIS/CITRIX user

Offshore IRIS/CITRIX users need to logon to HAP via CITRIX (Alternative Links).

						Client Search Health
emative Links		CEM	CMAL	eMedical	HAP	Health
-	-	-	-	-	-	Case Search Declarations
Legend	Legend E7	Legend E9	Microsoft Office	Revenue Receipting	Service Manager	Case Search

HAP - Health Assessment processes

### How do I search for a health case

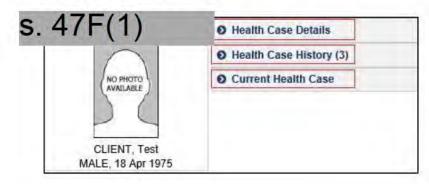

- 1. Open the Case Search screen in HAP
- Select ID Type, the relevant IDs are HAP ID, Visa Request ID or TRN and type in the unique identifier
- 3. Press Search.

175	(1)
Returned results * 100	
limit	
Reset	Search

The case you are looking for will appear with the Current Health Case open by default.

### I have found the case but I don't know what I am looking for?

The panel on the left of the page contains summary information, which will assist you to understand the current status of the health case. You can use the "twisty" (these are arrows) to expand the screen to see more details of the health case.

See below for further details.

HAP - Health Assessment processes

### **Health Summary Panel**

The side panel of a health case in the HAP is the best place to start as this displays comprehensive details of the health case. See below for an explanation of the different fields displayed in this panel.

### s. 47F(1 The applicant's health case or HAP ID appears at the top of the side panel. For eMedical cases, the digital photo taken by the panel clinic will appear, with the applicant's bio-data below the photograph. TEST, Client MALE, 01 Jan 1980 **IME Summary** The IME Summary will provide an overview of the status of the health case (e.g. outstanding or finalised). If the case is Status in progress, then the next step and who is required to Finalised action will display. If the status is finalised, the clearance expiry date will also **Clearance** expires display. 12 Sep 2018 **Health Alerts** The Health Alerts field will only appear if there any identity concerns has been raised by the panel clinic and/or if there Identity concern raised a previous DNM opinion for this visa applicant. .... Previous DNM •••• Type The Type field will display the visa subclass and the 1982 clearance type (Permanent or temporary). The assessment 417 - WORKING HOLIDAY Affairs period will also be displayed for a temporary clearance. Assessment Act Temporary (1 yr) by Department of Home Information The Assessment Status field will display the status of the Assessment Status health case and when the assessment was finalised (i.e. in this case a 'Meets' outcome was given on the 12 Sep 2017 Meets 12 Sep 2017 Note: see below for a full list of status terms used in HAP

Value	Meaning	
Allocated to clinic	Visa holder has been referred to a clinic and no outcome has been recorded yet.	
Appointment Attended	Visa holder has attended an appointment but is yet to be discharged. Visa holders are not considered Compliant with their Health Undertaking until they have been discharge from a State/Territory Clinic.	
Clinic follow up	Visa holder has failed to advise Home Affairs whether they attended their appointmer	nt.
required		
Departed	Visa holder was allocated to a clinic but then departed Australia.	
Compliant	Visa holder has complied with their health undertaking obligation.	
Secondary	Visa holder has been recorded as failing to attend their clinic appointment, but Home	;
noncompliant	Affairs has not yet recorded as "non-compliant". Visa holder who Homa Affairs has recorded in HAP- Health Assessments as "non-	
Non-compliant	compliant" and need to be sent a non-compliance letter and placed on MAL.	
Inactive	The visa holder has been given a subsequent MOC opinion that has superseded the	
macuve	health undertaking.	
Undertaking	Visa holder is no longer required to comply with their Undertaking as:	
Administratively	<ul> <li>new medical information has been received and a new MOC opinion will be</li> </ul>	
Closed	provided;	
	<ul> <li>visa holder has received a subsequent 'unconditional' health clearance;</li> <li>Visa holder has since become an Australian citizen.</li> </ul>	
Departure Health	Check (DHC) Advice	
	ll 200 subclasses except subclass 202.	
Cleared to travel	DHC has been completed and the visa holder is fit to travel without any special	
Cleared to travel	arrangements.	
with Escort	DHC has been completed and the visa holder is cleared to travel with an Escort. Note This only applies to subclass 202 visa holders in which case the Escort costs are the	
WITLSCOT	responsibility of the sponsor and a MOC/ Home Affairs financial delegate is not	
	required to consider the escort request. The sponsor's approval needs to be obtained	d
	before the DHC is finalised with this outcome.	-
* Escort	DHC provider identifies the need for an Escort and request Home Affairs consideration	on
Requested	and approval. Note: This is not a final outcome.	
* Escort clinically	MOC supports the Escort on clinical grounds and the financial delegate has approved	d
supported and	this. Note: The escort request requires clinical support of a MOC and approval of a	
approved	Hiome Affairs financial delegate for the Escort travel costs.	1
* Escort clinically	A MOC does not support the need for an Escort on the basis that an Escort is not	E
not supported	necessary i.e. travel should proceed without Escort.	T.
* Escort Not	The financial delegate does not approve request for an Escort (clinically supported).	E
Approved		ō
Travel deferred -	The MOC does not support travel. The visa holder's condition may require stabilisation	on
MOC	before future travel.	5
Travel deferred -	DHC provider decides not to proceed with the planned travel based on the visa holde	¥'s
Clinic	condition.	D
DHC Not	DHC provider is unable to complete the DHC for any number of reasons.	5

### What does the action panel allow me to do?

- Create a <u>New assessment</u> on the health case
- Manage health case to allow access to other functions such as:
  - extend health clearance validity
  - o recording paper medical results
  - o Uploading of any health related attachments
- View action history This allows you to audit the health case and see what has happened at various steps of the process.

Confirm

### How can I tell why a health case failed auto clearance?

VPO's have the ability to view in HAP – Health Assessments why a health case has failed the HAP's auto clearance rules. This information can be found under Auto-clear failed details under the Current health case information. **Note:** Health cases with an assessment status of 'Auto clear denied' or 'Sent to MOC' require assessment by a person and are not finalised outcomes.

# How do I find all the health correspondence that has been generated for the HAP ID?

Correspondence generated during the process of a health case assessment may include any 884 MOC opinion correspondence generated for the applicant, including Waiver regulations.

The System Links panel within the Health Case Details section will let you know the TRIM container that has been used to store any health related correspondence and health case attachments, including blood reports and x-rays

### Waiver processes in HAP – Health Assessments

Where a MOC has provided a Does Not Meet outcome on a health case, and a health waiver is available, VPO's at the EL1 or above level must give careful consideration as to whether a health waiver should be exercised. VPO's are required to prepare the relevant health waiver submission template to document and record their decision. All health waiver submissions must be attached in HAP – Health Assessments for reporting purposes. For detailed instructions on processing a health waiver in the HAP, refer to the Manager health waivers tip sheet on the intranet.

### How do I extend the validity of an applicant's health clearance?

In line with the Health Requirement Procedural Instruction, VPO's can, in certain situations, extend the validity of an applicant's health clearance. VPO's should only extend a health clearance in exceptional circumstances and after careful consideration of health policy, and should not just provide an extension automatically. VPO must use the functionality in HAP - Health Assessments to extend the validity of an applicant's health clearance. If extension of a health clearance is available under policy, however the VPO is unable to provide the extension in HAP - Health Assessments, VPO's should contact s. 47E(d) to investigate.

- 1. Search for the health case in HAP Health Assessments
- 2. Select Manage Health Case in the Action panel and press the confirm button.
- Scroll to the bottom of the health case.
- 4. Press the Extend button next to current assessment.

### Health Undertakings

If a health undertaking is required, it will be displayed in the department's visa and health processing systems. It will also be indicated in the 'Form 884' MOC opinion that is generated.

**Note:** An undertaking is required for all *Meets with Undertakings* outcomes. Undertakings can also be requested for *Does Not Meet* opinions and *No Clearance Required* opinions. This will be displayed on the 884, but is also shown in the HAP – Health Assessments and in CSP under the 'Undertaking Required' field.

· In CSP: the Undertaking Required field will display Yes.

 In HAP – Health Assessments: the status bar on the left of the screen will display Required in the Undertaking Status panel.

 In ICSE: A 'Follow up outstanding' event will display to remind the officer that they are required to record Health Undertaking details in HAP – Health Assessments.

### Recording the 815 Health Undertaking Form in HAP

VPO's need to ensure that the applicant is provided with a copy of 815 Health Undertaking form. Once the applicant has signed and returned the 815 Health uUndertaking form, VPOs will need to update HAP – Health Assessments with the following:

- Scanned/Signed copy of 815 form
- The date the 815 Health Undertaking form was sent
- The date the 815 Health Undertaking form was received
- Also, ensure ICSE/IRIS is updated with the most up to date contact information for the client this
  will assist with the undertaking process onshore.
- 1. Search for the health case in Health Assessments
- 2. Select Manage undertaking in the Action panel and press the Confirm button

Action	
No action chosen     New assessment     Manage neatth case     Manage undertaking     View Action History	Control I

- The Manage Undertaking screen will appear which allows you to record undertaking form details in HAP Health Assessments.
- 4. Scroll to the bottom of the screen and select Record undertaking form details in the Action panel.
- Record the Date Sent This is the date that the 815 Form was sent to the applicant and the Date Received – This is the date that the applicant signed and returned the completed 815 form

HAP - Health Assessment processes

### How do I create a New Assessment?

Please ensure you have assessed all factors before proceeding with creating a new assessment. If you incorrectly create a new assessment, please contacts. 47E(d) for assistance.

To create a New assessment you need to:

- 1. Navigate to the Case Search screen and enter the applicant's HAP ID then press Search. The Health Case Details screen will appear.
- Scroll to the bottom of the health case and select the correct New Assessment option for the case that you are managing from within the Action panel.

Note: more detailed instructions for each option are provided below.

### 1. Request a new assessment against a different regulation

Applicant's health clearance has been assessed against the wrong regulation (PIC) and the VPO requires the MOC to re-assess their health case to provide a new MOC opinion against a different PIC.

- a) Select the regulation that you want the health cases to be assessed against from the drop down list Note: only valid PICs listed in the regulations for the relevant visa subclass will appear.
- b) Press the Confirm button

Action		
No action chosen     New assessment     Manage health case New assessment reason	<ul> <li>Request a new assessment against a different regulation</li> <li>Organise for the client to complete repeat health examinations</li> <li>Request a new assessment based on additional medical information being received</li> <li>Request a new assessment for a different assessment period</li> <li>Study/work in health care</li> </ul>	
	Regulation - Select PsychologyPIC - 4005 4007 - Confin	rm

### Note:

- If the health case is electronic: the case will automatically be Sent to the MOC for re-assessment and no further action is required by the officer to facilitate this.
- If the health case is paper: the case will be updated to a status of Awaiting Assessment. Please
  note that the Migration Medical Services Provider (MMSP) will be unable to re-assess the case until
  they obtain any required health examination reports that need to be considered. MMSP (Bupa) will
  arrange to obtain these reports themselves directly or via Immigration Health Branch (IHB). No
  further action is required by the officer to facilitate this (unless paper files are held by the visa officer).

### 2. Organise for the applicant to complete repeat health examinations

The VPO requires the applicant to undergo repeat health examinations as their previous ones have or are about to expire on the visa being processed. The VPO will have access to this if:

- Health case is expired .
- Health case will expire within 6 months .
- Health case is not a DNM or No Clearance Required (NCR) outcome

Note: HAP will generate standard exams and therefore, you must ensure that all required exams have been generated in line with policy. If examinations are missing, please contact s. 47E(d)

### Press the Confirm button a)

### 3. Request a new assessment based on additional medical information being received

The applicant was given an outcome, but the visa officer has since received new **medical** information that a MOC needs to consider and provide a new opinion.

Note: Do not create a new assessment if the applicant has only provided non-medical information. If the visa officer is unsure whether the information provided is medical in nature please contact s. 47E(d) before proceeding any further.

a) Scan the additional information the visa officer received (if the visa officer did not already receive it electronically) and press the Add Attachment button

Action

### 4. Request a new assessment for a different assessment period

The visa officer requires a MOC to re-assess a case for a different assessment period – e.g. because the visa officer intends to grant the visa for a shorter period than they were originally assessed for.

**Note**: This is relevant for cases where the MOC provided a DNM opinion. If the applicant received a DNM when completing permanent health examinations for a temporary visa, you MUST request a reassessment for the correct period of stay that you intend to grant the visa for.

a) Enter the assessment period you wish the applicant's health case to be re-assessed for.

Note: the permanent assessment period box will only appear checked where the correct set of permanent health examinations has been completed by the applicant.

### b) Press Confirm button

HAP - Health Assessment processes

### 5. Request a new assessment as the applicant intends to study/work in health care

The applicant is intending to work as (or study to be) a doctor, dentist, nurse or paramedic, but failed to declare this when they applied for their visa/submitted their My Health Declarations form. Consequently, their health case does not currently contain all the required health examinations (i.e. medical, x-ray and blood tests).

Note: If the health case has any exam that is "Finalised Incomplete" that exam will be re-added to the case.

a) Select Study/work in health care option from New assessment reason and press Confirm button

- b) Once the new assessment has been created, you will see that the Assessment Status will have been updated New.
- c) The additional health examinations that are required will also have been added to the health case. Note: the applicant can now be provided with the same HAP ID and they will be able to attend a panel clinic to complete their outstanding set of health examinations.
