Freedom of Information Request FA 21/07/00490

Questions:

Please provide the following statistical data for parents visa subclass 804 and subclass 103

1) Total number of applications on hand for both subclasses (804 & 103) as at 07/07/2021

2) Total number of applications currently under final processing and relevant queue dates

3) Planned allocation of visa places to each subclass (804 & 103) out of total 4500 parents visa places available under current migration program 2021-2022

4) Total number of actual applications planned for finalisation under current migration program 2021-2022

Responses:

1) As at 07/07/2021, there were 36,338 Parent (subclass 103) visa applications and 11,967 Parent (subclass 804) visa applications on hand.

2) The Department's suite of reports does not contain information on the number of subclass 103 and 804 visa applications currently under final processing.

   The Department is currently processing:

   - Parent (subclass 103) visa applications with a queue date up to October 2010;

   - Aged Parent (subclass 804) visa applications with a queue date up to December 2012.

3) The Department does not allocate migration program planning levels at the individual subclass level.

4) The Department's suite of reports does not contain information on the number of expected finalisations (withdrawals, grants or refusals) of subclass 103 and 804 visas for the 2021-2022 migration program year.

Caveats:

As lodged, granted and finalised data is drawn from a dynamic system environment, the information is correct at the time of clearance and figures may differ slightly from previous or future reporting.
