---

I would like to start by saying I DO NOT support this bill. As an Australian citizen this bill brings me even greater worry about the surveillance state we are turning into and the vulnerability of my data.

If the authorities had just cause, they would have no problem gaining a warrant through the right channels for data acquisition. I find it disgusting that our government is even considering passing such a bill, especially after so many times, again and again, the public's data has been accessed or misused by authorities.

Please do not pass this bill and make the greater public even more vulnerable in the virtual age, where data is everything.
