Australian Government
Department of Home Affairs.
The Assistance and Access Bill 2018

To whom it may concern.

It seems in Australia there is one law for government and another set of laws for the populace, as the case of the witness K Timor bugging ruling as well as Julian Assange clearly reveals. The crime by Australia against the sovereign nation of Iraq still go unacknowledged with a force that is meant to defend Australia, not invade another country based on false foreign Intelligence. The persecution of publisher Wikileaks and Julian Assange is one of the biggest disgraces by Australian government in many years. This “war on terror” narrative by World Government aligned individuals devalues humanity and life on Earth. Driving a false narrative of fear and terror to further footholds in oil rich nations while murdering people abroad by pushing manufactured fear based narratives is loathsome and Australia and it’s officials should decide if they want to be on the side of humanity or something far more sinister. I am not at all interested or support of this governments Assistance and Access bill. The sooner Australia becomes a republic and ditches the ludicrous Imperial narratives and agendas world wide, including the insidious “5 eyes” network of paranoia and espionage, the sooner Australia will move forward in sovereignty and real prosperity.

Grow a spine Australian government.

Drew Goodall.
