Subject: Submission to consultation on the Assistance and Access Bill 2018
Date: Thursday, 6 September 2018 5:31:34 PM

Dear Minister

- * This bill is a huge over reach.
- * This bill *will* hurt any Australian tech company and/or force them to move overseas.
- * This bill *will* give extra impetus to the tech brain drain we are already dealing with.
- * Overseas companies may deal with this by block access to Australian users. This *may* help Australian businesses by providing Australia-only services, but that is unlikely to be a sufficient positive in comparison to the negatives listed above.

Erik
