Good morning,

I'm all for stopping bad things but do you not realise that when you create blanket bills like this, it only creates better criminals. You go deep, they go deeper. You, the government, can be hacked by 14 year old kids. You're always 8 steps behind the bad guys. Don't punish your every day civilian for what criminals do. Focus on streamlining and target those who break laws. Creating blanket laws are creating a smarter criminal.

Regards,

Kurt
