Hi,

My name is Lachlan Miler and I am a 27 year old living in beautiful Brisbane.

I would like to express my thoughts and ultimately oppose the Assistance and Access Bill 2018. While I understand and sympathize with the concept, I personally cannot agree with compromising our great nation's privacy just because of a minority of criminals or sick minded individuals.

I believe such rights to privacy, such as encryption without the chance of having my data forcibly extracted without my express permission is a violation of my basic rights as an Australian and a human.

I urge you to reconsider this bill and the implications it may have. Please respect our right to privacy.

Best Regards,

Lachlan Miller
