Dear Minister

I write to express my concerns over the draft legislation titled 'The Assistance and Access Bill 2018'.

Rather than leave the pre-filled text in place and at the risk of seeming like I am just repeating what I have read online I would like to bring your attention to this article that I feel sums up the fundamental issue with compromised encryption:

<https://boingboing.net/2017/06/26/crypto-denialism.html>

While I understand the need for safety and security I strongly believe this is such a fundamentally flawed approach and I urge you to reconsider.

Warm Regards,
Michael Bryne
