Guide to this report	27

#### Responses:

11,416 of 16,359

#### Response Rate:

70%

#### **Exploring your results**

Take time to understand your report. Consider your response rate to determine how representative your results are of the views of your colleagues.

Most questions in this report have information about the proportion of colleagues responding positively, neutrally or negatively.

Identify the areas where you are performing well. These will tend to be high results which are notably above any comparative results. Celebrate these results.

Identify areas that need improvement. These will be the lower results, and/or those which are scoring notably below your comparators.

Generally a difference of -/+ 5 percentage points is worthy of attention, but the size of the group is important. Changes in small groups can be unreliable.

2024 APS Employee Census PAGE 02.

#### **Employee Engagement: Say, Stay, Strive**

# How engaged is your team?

Employee engagement is more than simply job satisfaction or commitment to an organisation. It is the extent to which employees are motivated, inspired and enabled to improve an organisation's outcomes.

0	Your Employee Engagement Index score	Response	scale	% Positive	Variance from 2023	Variance from APS overall -4	Variance from larger operational agencies -3	Variance from extra large sized agencies -2
	Overall, I am satisfied with my job	73	15 12	<b>73</b> %	+2	-3	-1	-1

#### **Agency position**

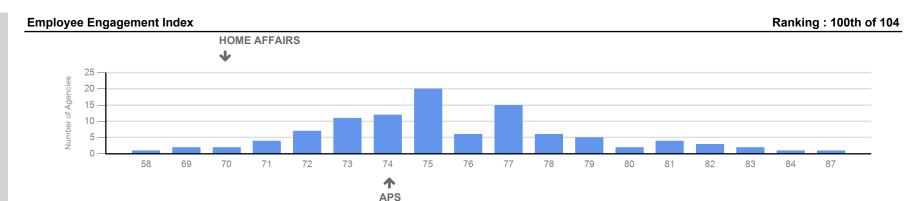

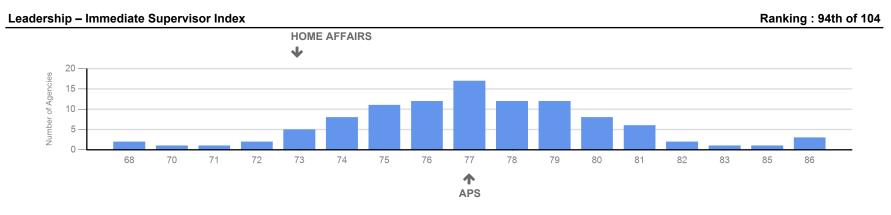

# Agency position

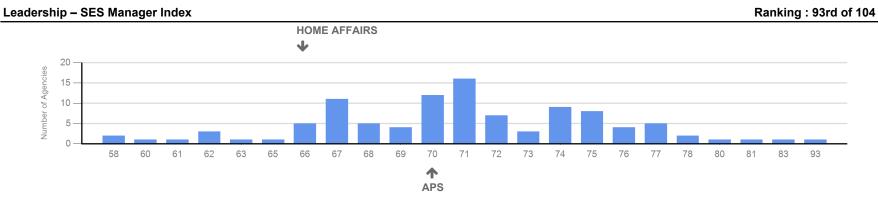

These graphs display the overall index score of each agency for the Employee Engagement, Leadership - Immediate Supervisor, Leadership - SES Manager, Communication, **Enabling Innovation** and Wellbeing Policies and Support indices. These are to assist you to see where your agency sits in comparison to the overall APS index score and the scores of other agencies.

Along the line (y-axis) are the index scores. The height of the bar (x-axis) is how many agencies have that index score.

Please note, the y-axis values are not consecutive as only index scores received by an agency are represented.

2024 APS Employee Census

#### **Agency position**

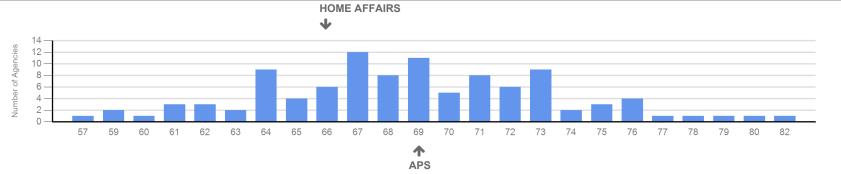

#### **Agency** position

These graphs display the overall index score of each agency for the Employee Engagement, Leadership - Immediate Supervisor, Leadership - SES Manager, Communication, **Enabling Innovation** and Wellbeing Policies and Support indices. These are to assist you to see where your agency sits in comparison to the overall APS index score and the scores of other agencies.

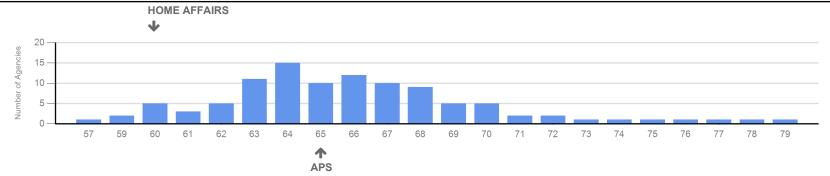

Along the line (y-axis) are the index scores. The height of the bar (x-axis) is how many agencies have that index score.

Please note, the y-axis values are not consecutive as only index scores received by an agency are represented.

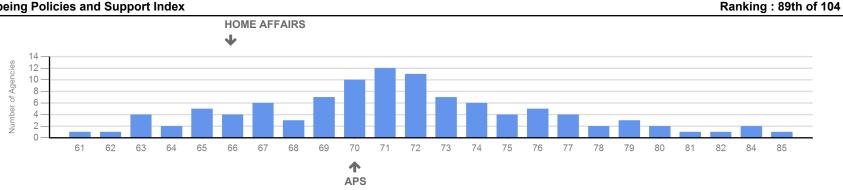

#### Ranking: 97th of 104 **Enabling Innovation Index**

#### Suggested questions to focus on

# What to focus on?

Through driver analysis, these key questions have been identified as being important to employees in your agency and associated with employee engagement.

They are not necessarily the questions with the lowest scores.

Some will be areas to improve upon and some will be areas to maintain.

Develop actions and activities to improve upon these, where possible, to drive higher levels of performance.

	5 percentage points greater mparator At least 5 percentage points less than comparator	% Positive	Variance from 2023	Variance from APS overall	Variance from larger operational agencies	Variance from extra large sized agencies
.1	I am supported to use my expertise to provide frank and fearless advice	<b>58</b> %	-	-7 <b>o</b>	-60	-60

#### Time to take action

<b></b> Celebrate	Investigate further with our teams	<b>Opportunities</b>
What things do we do well?	Are there any other opportunities coming out of the results that we want to explore further?	Areas we need to focus on and turn into action plans:
Think about how we can build on our strengths and learn from what we are good at.	How could we investigate? Through looking at the data in more detail or through discussions with staff?	What are the key things we need to improve to make working here better?

#### Use this page to start your local action plans

Identify areas to celebrate, opportunities for improvement and areas which you need to investigate further.

#### **Guide to this report**

#### % Positive

Where results are shown as positive percentages (% positive), these are calculated by adding together positive responses ("strongly agree" + "agree" or "always" + "often") and dividing by the number of respondents who answered the question.

For 5 point scale questions not asked on the *agree to disagree* scale the same rules apply, the green percent represents a **positive response** (unless the question is negatively worded).

# lpsos

#### Rounding

Results are presented as whole numbers for ease of reading, with rounding performed at the last stage of calculation for maximum accuracy. Values from x.00 to x.49 are rounded down and values from x.50 to x.99 are rounded up. Therefore in some instances, results may not total 100%.

	Strongly agree	Agree	Neither agree nor disagree	Disagree	Strongly Disagree	Total
Number of responses	151	166	176	96	24	613
Percentage	24.63%	27.08%	28.71%	15.66%	3.92%	100%
Rounded percentage	25%	27%	29%	16%	4%	101%
Number of positive	151 + 166	= 317				
% Positive	317 ÷ 613	= 52%				

#### Anonymity

It is best practice not to display the results of groups of respondents to the extent where the anonymity of individuals may be compromised. Results will not be shown where there are less than 10 respondents in a group.

#### Comparisons

Comparisons to other similarly sized agencies are used through this report. To see how agencies are categorised visit:

https://www.apsc.gov.au/ aps-agencies-size-andfunction

#### Comparisons to previous years

The method of analysing and reporting specific results may be periodically reviewed and revised. Such improvements are applied to current data and that of previous years. For this reason the current report is always the most accurate data source for APS Employee Census results, including comparisons with time series data.
