**RE: Migration Agents Instruments Review**

As a chartered accountant, chartered tax adviser, registered migration agent, ASIC-licensed authorized representative for the largest credit fund in Australia, with 25 years professional services experience, I believe that I am qualified to call, "SETUP!" when I read one.

The associations that purport to represent RMAs, have failed. Otherwise, we would not need to write to you.

Tiering is the creation of money and removal of competition, whereby that money can be shared.

If Tiering is introduced, as the language of the report appears to suggest is a foregone decision, it should not come as a surprise that a petition will be filed calling for a Public Integrity Hearing to unveil "the why" and "the who".

I hereby object to the entire flawed and collusion-wreaking process of anti-competitive behaviours. Enough is enough.

Please can someone in the Department stand up and now do the right thing. Namely, to have an internal review of the actions of key staffers and ask the tough questions.

Yours faithfully,
