About this report

This report provides an overview of the number of people in onshore immigration detention, as at the morning of the first day following the end of the reporting month. The report is produced on a monthly basis.

As data is sourced from several departmental processing and recording systems, data relating to the immigration detention population is dynamic and variations between monthly reports can occur. Due to these issues, data from the current financial year should always be considered provisional.

Further information about immigration detention is available at:

Notice on APODs

From July 2020, detainees residing in APODs are reported under 'APODs' rather than under the IDC that had responsibility for their management and care. APODs include hospitals, aged-care facilities, mental health inpatient facilities, as well as hotel and apartment style accommodation. The number of individuals in APODs is broken down by the State and Territory of the APODs.

Notice on ITAs

For reports released from July 2023 onwards, detainees residing within Immigration Transit Accommodation (ITA) facilities are reported under Immigration Detention Centres (IDCs). There is no change to the management and care of detainees within the affected ITAs.

Immigration Detention and Community Statistics Summary

At 31 July 2025, there were 965 people in immigration detention facilities, and of those, 863 (89.4 per cent) have a criminal history. A further 109 people were living in the community after being approved for residence determination.

The table below reflects figures based on records in Department of Home Affairs systems.

Children In Immigration Detention

At 31 July 2025, there were no children (aged less than 18 years) in Immigration Detention Facilities and Alternative Places of Detention.

Figure 3 – Children in Immigration Detention Facilities and Alternative Places of Detention

Figure 3 above, shows the number of children in IDFs and APODs from January 2013 to the date of this report. The continuous increase in the number of children in IDFs from April 2013 to Aug 2013 was due to a rapid increase in UMAs during this period. The number of children in IDFs continued to decline during the late 2013 and 2014, with further reduction in January 2015.

At 31 July 2025, the number of children living in the community after being approved for a residence determination has decreased by one (1) to 32 from 33 since the previous report.

Figure 4 – Children in the Community under Residence Determination

Figure 4 above, shows the number of children in the community under residence determination from January 2013 to the date of this report. The number of children in the community under residence determination, has levelled off at its lowest number since the peak in November 2013, as a result of releases into the community on Bridging Visa E.

At 31 July 2025, the average period of time for people held in detention facilities was 462 days.

Figure 5 – Average Number of Days of People in Held Immigration Detention Facilities

Figure 5 above, shows the average days in held immigration detention at the end of each month from January 2013 to the date of this report. The average period of time for people held in detention facilities steadily increased from July 2013 to January 2015. Between November 2018 and December 2019, the average number of days remained at around 500. Since January 2020, the average period of time for people held in detention facilities has steadily increased until January 2023, after which there has been an overall decrease.

The time an individual spends in immigration detention depends on a range of factors, including the complexity of their case, the legal processes they pursue and whether they voluntarily choose to leave Australia.
