About this report

This report provides an overview of the number of people in onshore immigration detention, as at the morning of the first day following the end of the reporting month. The report is produced on a monthly basis.

As data is sourced from several departmental processing and recording systems, data relating to the immigration detention population is dynamic and variations between monthly reports can occur. Due to these issues, data from the current financial year should always be considered provisional.

Further information about immigration detention is available at:

Important Notice on APODs

From July 2020, detainees residing in APODs are reported under 'APODs' rather than under the ITA or IDC that had responsibility for their management and care. APODs include hospitals, aged-care facilities, mental health inpatient facilities, as well as hotel and apartment style accommodation. The number of individuals in APODs is provided by the State and Territory of the APODs.

Immigration Detention and Community Statistics Summary

At 31 October 2022, there were 1315 people in immigration detention facilities.

Of the 1315 people in immigration detention facilities, 1198 (91.1 per cent) have a criminal history.

A further 542 people were living in the community after being approved for residence determination and 10,763 UMAs were living in the community after grant of a Bridging Visa E.

The table below reflects figures based on records in Department of Home Affairs systems.

Figure 3 – Children in Immigration Residential Housing, Immigration Transit Accommodation and Alternative Places of Detention

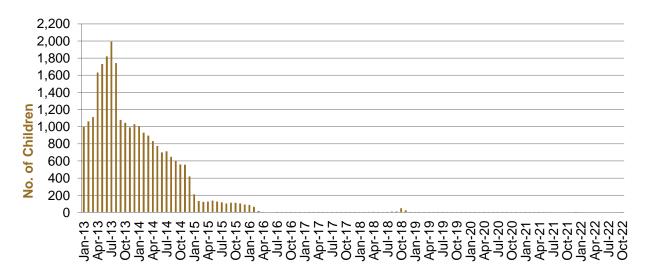

Figure 3 above, shows the number of children in IDFs and APODs from January 2013 to the date of this report. The continuous increase in the number of children in IDFs from April 2013 to Aug 2013 was due to a rapid increase in UMAs during this period. The number of children in IDFs continued to decline during the late 2013 and 2014, with further reduction in January 2015.

At 31 October 2022, the number of children living in the community after being approved for a residence determination has decreased by one to 162 compared with 163 at the end of September 2022.
