## About this report

This report provides monthly and program year data on the Working Holiday Maker (WHM) visa program administered by the Department of Home Affairs (the department). The report has been provided to assist policymakers and stakeholder organisations.

This report is published every six months, and further developments will occur over time to increase and improve information sharing about the WHM visa program. Current and previous versions of the report are available on the department's website. These reports, as well as a quarterly Working Holiday Maker visa grants pivot table, are available at <http://www.homeaffairs.gov.au/about/reports-publications/research-statistics/statistics/visit-australia>.

Data is sourced from several departmental visa processing and recording systems. Data can be dynamic and there can be delays in transmission of information from the department's global operations. Variations in figures between this report and previous reports can occur. Due to these issues, data from the current financial year should always be considered provisional.

Further information about the Working Holiday Maker visa program is available on the department's website at:

<http://www.homeaffairs.gov.au/Trav/Visa-1/417->>

<http://www.homeaffairs.gov.au/Trav/Visa-1/462->>

### Notes on statistical tables presented by citizenship country

A result of 'na' indicates that the country did not have a Working Holiday Maker arrangement with Australia during the specified period. This may be because the arrangement had not yet commenced or the arrangement is no longer in place. Refer to the table 'Australia's Working Holiday Maker arrangements' in the 'Background to the Working Holiday Maker visa program' section.

A citizenship country of 'Not Specified' can result from eligible dual nationality applicants where the non-eligible nationality has been recorded for the WHM application.

Note 1: Data in years prior to 2017-18 was revised on 1 October 2019, due to better source data becoming available. This may result in minor discrepancies with previously published statistics.

# Background to the Working Holiday Maker visa program

The purpose of the Working Holiday Maker (WHM) visa program is to foster people-to-people links between Australia and partner countries, with particular emphasis on young adults. It has been in existence since 1975. Today, the WHM visa program includes two subclasses: the Working Holiday (subclass 417) visa and the Work and Holiday (subclass 462) visa program. Partner countries initially comprised a relatively small number of Commonwealth countries. The program now has 44 partner countries and regions from across the world.

Australia has an overarching bilateral arrangement, usually in the form of a Memorandum of Understanding, with each partner country or region. Of the 44 partner countries or regions, 19 are Working Holiday (subclass 417) visa arrangements, and 25 are Work and Holiday (subclass 462) visa arrangements. The key differences between the two visas are that Work and Holiday visa arrangements generally have caps on the number of visas granted annually and additional eligibility requirements.

WHM arrangements are largely reciprocal, providing Australians with similar opportunities overseas. In considering whether to add new WHM partner countries, the Australian Government considers a range of factors, including the ability of the prospective partner to offer reciprocity to Australians, and the strength of any people-to-people links.

## Eligibility requirements

All WHM (both Working Holiday and Work and Holiday) visa applicants must:

- be aged 18-30 (inclusive) at time of application. For Canada, France and Ireland, the age is 18 to 35 (inclusive)
- hold a passport from an eligible partner country or region. A list of eligible countries and regions is provided in the 'Australia's Working Holiday Maker Visa Arrangements' section of this report
- not be accompanied by dependent children during their stay in Australia
- meet financial, health and character requirements.

Work and Holiday visa applicants must meet additional requirements, which may (or may not) include:

- functional English
- successful completion of at least two years of undergraduate university study (except Israel & USA)
- a letter of home country/government support in association with their visa application (except Argentina, Austria, Chile, China, Israel, Portugal, Spain, Singapore and USA).

## Working while in Australia

All WHMs may work for the full duration of their 12 month stay in Australia, but generally cannot remain with any one employer for longer than six months (by operation of mandatory visa condition 8547).

A visa holder may work for the same employer for a combined total of more than six months, provided the work is undertaken in a different location and work in any one location does not exceed six months. However, working in a different position at the same workplace (for example, changing to a cleaning role after initially working for six months at reception) would be considered a continuation of employment with the same employer.

WHM visa holders may be eligible for an extension of the six-month employment limitation in certain circumstances, including visa holders who have completed six months of work:

- as an au pair anywhere in Australia
- in eligible industries in northern Australia
- in plant and animal cultivation anywhere in Australia

## Studying while in Australia

All WHMs are entitled to study for a period of up to four months during their 12 month stay in Australia.

# Background to the Working Holiday Maker visa program - continued

## Second Working Holiday

First-time Working Holiday (subclass 417) visa holders who complete three months of 'specified work' in regional Australia during their stay acquire eligibility to apply for a second such visa.

'Specified work' includes work in the agriculture, mining and construction industries and bushfire recovery work in declared bushfire affected areas only, undertaken after 31 July 2019.

For the purposes of second Working Holiday visa eligibility, regional Australia includes large parts of rural and regional Australia, which are identified in a list of postcodes available on the department's website at:

<https://immi.homeaffairs.gov.au/visas/getting-a-visa/visa-listing/work-holiday-417>

## Second Work and Holiday

First-time Work and Holiday (subclass 462) visa holders who complete three months of specified subclass 462 work in northern or regional Australia during their stay acquire eligibility to apply for a second such visa.

Specified subclass 462 work is work that is undertaken in a 'specified' field or industry that includes work in agriculture, construction and tourism and hospitality, in a designated area in northern or regional Australia. This includes bushfire recovery work in declared bushfire affected areas only, undertaken after 31 July 2019. Further information on the second 462 is available on the department's website at

<https://immi.homeaffairs.gov.au/visas/getting-a-visa/visa-listing/work-holiday-462>

## Third WHM visa

From 1 July 2019, WHM visa holders who complete six months of specified work while on their second Working Holiday (subclass 417) visa or Work and Holiday (subclass 462) visa, or on a bridging visa in certain circumstances, may be eligible to apply for a third visa. Eligible types of work and regional areas correspond with the requirements for the second visa.

The six months of specified work must have been carried out on or after 1 July 2019, so successful applications could only be lodged from January 2020.

## Processing times

The department has ceased reporting on service standards. Visa and citizenship processing times are available from the following website: <https://immi.homeaffairs.gov.au/visas/getting-a-visa/visa-processing-times/global-visa-processing-times>
