## About this report

This report provides monthly and program year data on the Working Holiday Maker (WHM) visa program administered by the Department of Home Affairs (the department). The report has been provided to assist policymakers and stakeholder organisations.

This report is published every six months, and further developments will occur over time to increase and improve information sharing about the WHM visa program. Current and previous versions of the report are available on the department's website. These reports, as well as a quarterly Working Holiday Maker visa grants pivot table, are available at <http://www.homeaffairs.gov.au/about/reports-publications/research-statistics/statistics/visit-australia>.

Data is sourced from several departmental visa processing and recording systems. Data can be dynamic and there can be delays in transmission of information from the department's global operations. Variations in figures between this report and previous reports can occur. Due to these issues, data from the current financial year should always be considered provisional.

Further information about the Working Holiday Maker visa program is available on the department's website at:

<http://www.homeaffairs.gov.au/Trav/Visa-1/417->>

<http://www.homeaffairs.gov.au/Trav/Visa-1/462->>

### Notes on statistical tables presented by citizenship country

A result of 'na' indicates that the country did not have a Working Holiday Maker arrangement with Australia during the specified period. This may be because the arrangement had not yet commenced or the arrangement is no longer in place. Refer to the table 'Australia's Working Holiday Maker arrangements' in the 'Background to the Working Holiday Maker visa program' section.

A citizenship country of 'Not Specified' can result from eligible dual nationality applicants where the non-eligible nationality has been recorded for the WHM application.

Note 1: Data in years prior to 2017-18 was revised on 1 October 2019, due to better source data becoming available. This may result in minor discrepancies with previously published statistics.

# Background to the Working Holiday Maker visa program

The purpose of the Working Holiday Maker (WHM) visa program is to foster people-to-people links between Australia and partner countries, with particular emphasis on young adults. It has been in existence since 1975. Today, the WHM visa program includes two subclasses: the Working Holiday (subclass 417) visa and the Work and Holiday (subclass 462) visa. Partner countries initially comprised a relatively small number of Commonwealth countries. The program now has 45 partner countries and regions from across the world.

Australia has an overarching bilateral arrangement, usually in the form of a Memorandum of Understanding, with each partner country or region. Of the 45 partner countries or regions, 19 are Working Holiday (subclass 417) visa arrangements, and 26 are Work and Holiday (subclass 462) visa arrangements. The key difference between the two visas is that Work and Holiday visa arrangements generally have caps on the number of visas granted in each program year and additional eligibility requirements.

WHM arrangements are largely reciprocal, providing Australians with similar opportunities overseas. In considering whether to add new WHM partner countries, the Australian Government considers a range of factors, including the ability of the prospective partner to offer reciprocity to Australians, and the strength of any people-to-people links.

## Eligibility requirements

WHM (both Working Holiday and Work and Holiday) visa applicants must:

- be aged 18-30 (inclusive) at time of application. For Canada, France and Ireland the age is 18 to 35 (inclusive). From 1 July 2022, Denmark and Italy's maximum eligible age will increase to 35.
- hold a passport from an eligible partner country or region. A list of eligible countries and regions is provided in the 'Australia's Working Holiday Maker Visa Arrangements' section of this report
- not be accompanied by dependent children during their stay in Australia
- meet financial, health and character requirements.

Work and Holiday visa applicants must meet additional requirements, which vary between eligible countries, based on the agreements set out in the MOU for partner countries.

More information on specific eligibility requirements for Work and Holiday visa applicants is available on the department's website at:

[Work and Holiday visa \(subclass 462\) First Work and Holiday visa \(homeaffairs.gov.au\)](#)

## Working while in Australia

All WHMs may work for the full duration of their 12 month stay in Australia, but generally cannot remain with any one employer for longer than six months (by operation of mandatory visa condition 8547).

A visa holder may work for the same employer for a combined total of more than six months, provided the work is undertaken in a different location and work in any one location does not exceed six months. More information on the circumstances in which WHMs can work longer than six months with the same employer is available on the department's website at:

<https://immi.homeaffairs.gov.au/what-we-do/whm-program/specified-work-conditions/6-month-work-limitation>

## Studying while in Australia

All WHMs are entitled to study for a period of up to four months during their 12-month stay in Australia.

# Background to the Working Holiday Maker visa program - continued

Specified subclass 417 work includes work in the agriculture, mining, construction, and tourism and hospitality industries, as well as bushfire and flood recovery work, and critical COVID-19 work in the healthcare and medical sectors.

For the purposes of second and third Working Holiday visa eligibility, eligible work types, dates and postcodes are available on the department's website at:

## Processing times

The Department is currently processing a large volume of Working Holiday Maker (WHM) visa applications received since the border reopening.

The Department is processing new and older applications at the same time to minimise processing times for as many applications as possible. Visa applications that contain all required information may be finalised faster than the published processing times.

Visa and citizenship processing times are available from the following website:

<https://immi.homeaffairs.gov.au/visas/getting-a-visa/visa-processing-times/global-visa-processing-times>

## Recent developments in the Working Holiday Maker (WHM) visa program

Any Work and Holiday program developments, including signings and commencement dates for new Work and Holiday visa arrangements, will be announced on the department's website at:

<https://immi.homeaffairs.gov.au/what-we-do/whm-program/latest-news>

- From 19 August 2020, WHMs could count critical COVID-19 work in the healthcare and medical sectors undertaken anywhere in Australia after 31 January 2020 as specified work to apply for a second or third WHM visa.
- WHMs employed in critical sectors who were not eligible for a second or third WHM visa continue to be able to apply for a COVID-19 Pandemic event visa to continue their critical work in Australia.
- From 14 November 2020, former WHMs who transitioned to a COVID-19 Pandemic event visa to continue undertaking critical COVID-19 work in the healthcare and medical sectors could count this work as specified work towards eligibility for a second or third WHM visa. These arrangements recognise the contribution of WHMs doing critical COVID-19 work in the healthcare and medical sectors and ensure they can still access subsequent WHM visa options.
- From 22 June 2021, work undertaken in the tourism and hospitality sectors in northern, remote or very remote Australia can also be counted as specified work towards eligibility for a second or third WHM visa. This option will be available for WHM applications lodged from 5 March 2022.
- From 1 July 2021 to 31 December 2022, holders and former holders of a COVID-19 affected WHM visa are able to make a nil VAC WHM application online. WHMs who are offshore and who were unable to come to Australia or had to leave early because of COVID-19 are able to apply for a replacement visa with nil VAC.
- In line with arrangements announced by the Government on 22 November 2021, the Department is prioritising processing of new and existing WHM (subclasses 417 and 462) visa applications.
- From 15 December 2021, fully vaccinated eligible visa holders, including Working Holiday Makers (subclass 417 and 462 visa holders) can come to Australia without needing to apply for a travel exemption.
- From 19 January 2021 to 31 December 2022, the 6 month work limitation has been temporarily relaxed. Until 31 December 2022 Working Holiday Makers no longer need permission from the Department to work for the same employer for more than 6 months.
- WHMs who arrived in Australia between 19 January 2022 and 19 April 2022 can request a refund of the VAC for their WHM visa until 31 December 2022. Further information on how to request a VAC refund is available at [Students and WHM refunds form](#).
- From 5 March 2022, eligible current and former WHMs in Australia will be able to apply for a WHM visa with nil Visa Application Charge (VAC). This will provide another opportunity to meet the specified work requirements for a subsequent WHM visa.
- On 31 March 2022, Australia signed a new memorandum of understanding for a reciprocal Work and Holiday (subclass 462) visa arrangement with both Brazil and Mongolia. The arrangement will commence on 1 July 2022 with 500 and 100 visa places available for Brazil and Mongolia respectively.
- In the context of the Australia-India Economic Cooperation and Trade Agreement signed on 2 April 2022, Australia has agreed to extend access to the Work and Holiday (subclass 462) visa to up to 1,000 Indian citizens each year. These arrangements are expected to be implemented within two years on entry into force.
- From 1 July 2022 an additional 1,400 places will be available each year through reciprocal increases to visa caps for Hungary, Austria and the Slovak Republic.
- From 1 July 2022, there will be a one-off 30 per cent cap increase to the number of places available to working holiday makers from countries with which Australia has a capped Work and Holiday (subclass 462) visa arrangement. This increase only applies to the 2022-23 visa program year.

# Executive Summary

## Key Points

This executive summary covers the WHM program from 1 July 2021 to 30 June 22 (the 2021-22 program year). A general downturn in international travel due to the COVID-19 outbreak and strict border measures in place to protect the health of the Australian community significantly impacted the WHM program during the 2020-21 program year. There was an increase in lodgements and grants 2021-22 which can be attributed to the recovery from the COVID-19 pandemic. The longer-term decline in demand for WHM visas observed over several years prior to the pandemic may have been influenced by changing currency exchange rates and economic and labour market conditions in partner countries and Australia.

- In 2021-22, there was:
  - a total of 97,359 Working Holiday Maker (WHM) (subclass 417 and subclass 462) visas granted, compared to 209,036 in the pre COVID-19, 2018-19 program year. 39,586 visas were granted during the 2020-21 program year.
  - 70,790 first Working Holiday (subclass 417) visas granted compared to 142,805 in 2018-19. 1,749 visas were granted during the 2020-21 program year.
  - 2,690 second Working Holiday (subclass 417) visas granted compared to 37,418 in 2018-19
  - 11,598 first Work and Holiday (subclass 462) visas granted compared to 23,012 in 2018-19. 397 visas were granted during the 2020-21 program year.
  - 711 second Work and Holiday (subclass 462) visas granted; and
  - 6,416 third Working Holiday (subclass 417) and 1,826 third Work and Holiday (subclass 462) visas were granted in this period. Third WHM visas did not exist in 2018-19.
- There was a 12 per cent increase of WHM visa holders in Australia from 36,526 at 30 June 2021 to 40,912 at 30 June 2022. This compares to 135,263 WHM visa holders in Australia at 30 June 2019.

The generally high grant rates for WHM visas are indicative of the low risk nature of this caseload.
