About this report

This report provides monthly and program year data on the Working Holiday Maker (WHM) visa program administered by the Department of Home Affairs (the department). The report has been provided to assist policymakers and stakeholder organisations.

This report is published every six months, and further developments will occur over time to increase and improve information sharing about the WHM visa program. Current and previous versions of the report are available on the department's website. These reports, as well as a quarterly Working Holiday Maker visa grants pivot table, are available at <http://www.homeaffairs.gov.au/about/reports-publications/research-statistics/statistics/visit-australia>.

Data is sourced from several departmental visa processing and recording systems. Data can be dynamic and there can be delays in transmission of information from the department's global operations. Variations in figures between this report and previous reports can occur. Due to these issues, data from the current financial year should always be considered provisional.

Further information about the Working Holiday Maker visa program is available on the department's website at: <http://www.homeaffairs.gov.au/Trav/Visa-1/417->>
<http://www.homeaffairs.gov.au/Trav/Visa-1/462->>

Notes on statistical tables presented by citizenship country

A result of 'na' indicates that the country did not have a Working Holiday Maker arrangement with Australia during the specified period. This may be because the arrangement had not yet commenced or the arrangement is no longer in place. Refer to the table 'Australia's Working Holiday Maker arrangements' in the 'Background to the Working Holiday Maker visa program' section.

A citizenship country of 'Not Specified' can result from eligible dual nationality applicants where the non-eligible nationality has been recorded for the WHM application.

Definition of terms

Citizenship country:	The country of citizenship of the visa applicant or visa holder. Where a visa applicant or visa holder has more than one citizenship country, either the citizenship of the travel document or the citizenship nominated by the visa applicant is used.
Granted:	Unless otherwise specified, the number of visas granted includes all visa grants.
Snapshot date:	The snapshot date is a point in time at which a count is undertaken. In this report, the number of visa holders in Australia at a point in time is used.
Visa applicant:	Used to refer to clients applying for a visa.
Working Holiday Maker:	Refers collectively to both the Working Holiday (subclass 417) visa and the Work and Holiday (subclass 462) visa.

Background to the Working Holiday Maker visa program

The purpose of the Working Holiday Maker (WHM) visa program is to foster closer ties and cultural exchange between Australia and partner countries, with particular emphasis on young adults. It has been in existence since 1975. Today, the WHM visa program is comprised of the Working Holiday (subclass 417) visa and the Work and Holiday (subclass 462) visa programs. Partner countries initially comprised a relatively small number of Commonwealth countries, but the program has since grown to encompass 42 partner nations and regions from across the globe.

Australia has an overarching bilateral arrangement, usually in the form of a Memorandum of Understanding, with each partner country. Of the 42 partner countries, 19 are Working Holiday (subclass 417) visa arrangements, and 23 are Work and Holiday (subclass 462) visa arrangements. The key differences between the two visas are that Work and Holiday visa arrangements generally have caps on the number of visas granted annually and additional eligibility requirements.

WHM arrangements are generally reciprocal, providing Australians with similar opportunities overseas. In considering whether to add new WHM partner countries, the Australian Government considers a range of factors, including the ability of the prospective partner to offer reciprocity to Australians, and the strength of any cultural and people-to-people links.

Eligibility requirements

All WHM (both Working Holiday and Work and Holiday) visa applicants must:

- be aged 18-30 (inclusive) at time of application
- hold a passport from an eligible partner country. A list of eligible countries is provided in the 'Australia's Working Holiday Maker Visa Arrangements' section of this report
- not be accompanied by dependent children during their stay in Australia
- meet financial, health and character requirements.

Work and Holiday visa applicants must meet additional requirements, which may (or may not) include:

- functional English
- successful completion of at least two years of undergraduate university study (except Israel & USA)
- a letter of home country/government support in association with their visa application (except Argentina, China, Israel & USA).

Working while in Australia

All WHMs may work for the full duration of their 12 month stay in Australia, but cannot generally remain with any one employer for longer than six months (by operation of mandatory visa condition 8547).

A visa holder may work for the same employer for a combined total of more than six months, provided the work is undertaken in a different location and work in any one location does not exceed six months. However, working in a different position at the same workplace (for example, changing to a cleaning role after initially working for six months at reception) would be considered a continuation of employment with the same employer.

WHM visa holders may be eligible for an extension of the six month employment limitation in certain circumstances, including:

- Visa holders who have carried out six months work as an au pair anywhere in Australia.
- Visa holders who have carried out six months work in eligible industries in northern Australia.

Studying while in Australia

All WHMs are entitled to study for a period of up to four months during their 12 month stay in Australia.

Background to the Working Holiday Maker visa program - continued

Second Working Holiday

First-time Working Holiday (subclass 417) visa holders who complete three months of 'specified work' in regional Australia during their stay acquire eligibility to apply for a second such visa.

'Specified work' includes work in the agriculture, mining and construction industries. For the purposes of second Working Holiday visa eligibility, regional Australia includes large parts of rural and regional Australia, which are identified in a list of postcodes available on the Department's website at:

<http://www.homeaffairs.gov.au/Trav/Visa-1/417->.

Second Work and Holiday

First-time Work and Holiday (subclass 462) visa holders who complete three months of specified subclass 462 work in northern Australia during their stay acquire eligibility to apply for a second such visa.

Specified subclass 462 work is work that is undertaken in a 'specified' field or industry in a designated area in northern Australia. Further information on the second 462 is available on the Department's website at <http://www.homeaffairs.gov.au/Trav/Visa-1/462->

Processing times

The Department has ceased reporting on service standards. Visa and citizenship processing times are available from the following website: <http://www.homeaffairs.gov.au/about/access-accountability/service-standards/global-visa-citizenship-processing-times>

A total of 152,622 first Working Holiday visas were granted in 2017-18. This is a 3.3 per cent reduction compared to 2016-17.

- United Kingdom (30,036)
- Germany (22,025)
- France (20,439)
- South Korea (18,145)

A total of 32,828 second Working Holiday visas were granted in 2017-18. This is a 3.7 per cent reduction compared 2017-18.

Where there has been an increase or decrease in first Working Holiday visa grants, a similar but delayed trend could be expected to flow through to second Working Holiday visa grants.

The grant rate for first Work and Holiday visas was 97.5 per cent and the grant rate for second Work and Holiday visas was 97.6 per cent.
